### HOW CARTERS TESTED SEEDS ARE TESTED.

#### Carters Miniature Trial Grounds at Franco-British Exhibition (White City), 1908.

HOW CARTERS TESTED SEEDS ARE TESTED.

It is the first time that tests of this kind have been grown before the public view, and it was gratifying to us to find that our methods of testing and grading seeds were a source of much interest to lovers of gardening and Agriculturists from all parts of the world. 30 YEARS AGO (1878). The produce of Carters Tested Seeds has many times been brought into friendly rivalry with our neighbours and visitors from France. In referring to our records of 1878 (exactly thirty years ago), we find that our seeds were awarded Five Gold Medals, with the note as follows: "Paris Exhibition. Awarded the only Gold Medal for Grass in a competition between ten leading English and Continental Seed Houses, 1878."

30 YEARS AFTER (1908). We now have much pleasure in reporting the following International Honours to the produce of Carters Tested Seeds.

FRANCO-BRITISH EXHIBITION. 1 Grand Prix (Class 46), Flowers; 1 Grand Prix (Class 48), Grasses and Lawns; 1 Grand Prix (Class 39), Agriculture; 1 Gold Medal and Grand Prix for Vegetables (open to the World); 1 Gold Medal and Grand Prix for Vegetables, Flowers, and Potatoes; 2 Gold Medals and 2 First Prizes for Vegetables (open to French and British Exhibitors); Silver Medal and First Prize for Potatoes; the Highest Award in competitive class (12 varieties), open to French and British Exhibitors; and 1 Gold Medal to the Head of our Firm as Collaborateur; making a record which we think is unique.

When Mr. James Carter brought his name prominently before the public seventy-two years ago, through his determination to sell "The best," he quickly made strides in public favour, and the little shop in High Holborn (which has since developed to a warehouse space of 3½ acres) soon became famous. The same determination has existed all through the long history of our firm, and is still always in front of us, we never forget "The best," and we are happy to state that apart from the above list of Awards gained in International competition, the produce of our seeds during 1908 have won hundreds of Medals and First Prizes all over the world.

SEEDSMEN BY APPOINTMENT TO HIS MAJESTY THE KING.

#### ROYAL PAVILION.

His Majesty the King's Pavilion.

The Lawns and Flower Beds were entirely decorated by Carters.

Royal Horticultural Society, Holland House, 1908. Silver Cup for Sweet Peas and Culinary Peas.

## FRANCO-BRITISH EXHIBITION (White City), 1908.

HOW CARTERS TESTED SEEDS ARE TESTED.

ONE OF CARTERS (4) MINIATURE TRIAL GROUNDS AT THE WHITE CITY.

At the White City last summer we made our first demonstration before the public of one of the systems of how CARTERS TESTED SEEDS are tested.

It is, we think, well known that we test our Seeds before distributing them. Afterwards the Seeds are grown at one of our Trial Grounds, at the same time as our Customers grow them, to full maturity, so that we may assure ourselves of the quality and trueness of each variety. By examining our trials from time to time we know exactly how the produce of our Seeds should appear in the gardens of our Customers all over the World, making allowances for the various climates, and by the aid of our comparative tests (we try all British and Continental Seeds of repute) we can assure ourselves that our Customers are growing "the best and only the best."

In the above Miniature Trial Ground we are showing one of our methods, and visitors had the unique opportunity of examining over 200 varieties of Annual Flowers and over 100 different varieties of Grasses and Clovers as used for Lawns, Putting Greens, and Agricultural purposes.

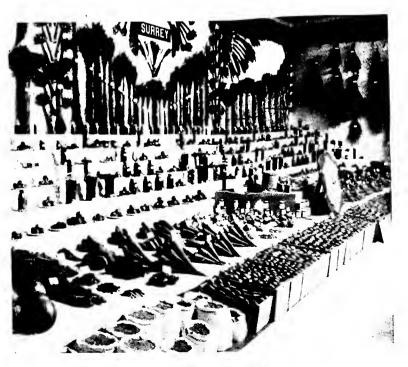

As a border to each garden we sowed two plots three feet in diameter of every grass that is known, commencing with the very finest bladed varieties which are used in mixtures for Putting Greens and other games and Lawns: we then go to the medium-bladed varieties, suitable in their right proportion for Lawns and Permanent Pasture, followed by the broader-bladed varieties found in Agricultural Pasturage, until at last we come to the very broad and harsh need-grasses, which are useful for Golfing Hazards or for binding loose suid, the sides of streams, or cover for birds. To enable visitors to determine the value of each grass for its particular use, we cultivated two plots of each

To enable visitors to determine the value of each grass for its particular use, we cultivated two plots of each variety. One we cut and kept short, as a Lawn should be, the other was allowed to grow and form its full her lage and eventually to flower, so that those who were interested in Grasses from a sporting or from an agricultural point of view might determine the value of each variety when cut, and also the height each species will attain when allowed to grow without being cut; this is a very important point, as an agriculturist expects as large a yield as possible of nutritious grasses, while a golfer desires a dwarf compact turf that does not require much cutting, the nutritious value being of no importance to him.

Vegetables Grown from Carters Tested Seeds.

Will W. Tracy. In.

Seedsmen by Royal Warrant to His Majesty the King,

It has been our privilege for many years to hold the Royal Warrant of Appointment to His Most Gracious Majesty the King, and we have had the honour of regularly supplying His Majesty's Establishments at Windsor Castle, Buckingham Palace, and Sandringham.

Our Trade Marks.—One of the two registered devices in the margin has been for several years affixed to every packet of seeds distributed by us. They are both simple and sufficiently distinct to protect everyone desirous of obtaining "Carters Tested Seeds" as supplied in sealed packets. It is not enough to be told that "these seeds came from Carters": our name and one of our trade marks must be on the seal or we cannot guarantee that they emanate from our establishment.

This is the 72nd year of our establishment in Holborn, and we take the opportunity to tender respectful acknowledgments for past favours; and we beg to solicit a renewal of confidence, to merit which our best personal attention shall, as heretofore, be devoted.

PART OF POD OF CARTERS LEVIATHAN BEAN.

## CARTERS LEVIATHAN BROAD BEAN.

(WHITE SEEDED.)

A champion Exhibition variety.

47 First Prizes reported by customers since 1906.

We continue to re-select this well-known Broad Bean, the seeds being carefully saved from the finest pods taken from the most prolific plants, so that our customers may feel that they are growing really the very finest Broad Bean in cultivation. It cannot be excelled for Table or Exhibition.

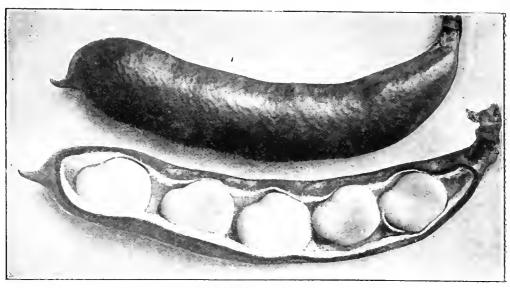

Price 2s. 6d. per quart, 1s. 6d. per pint.

## CARTERS EXTRA EARLY BROAD BEAN.

The earliest maturing variety yet introduced. Resists the aphis-fly better than any other. It has a much smaller pod than the above variety, but it is the earliest Broad Bean that we know of, and is most prolific.

Price 2s. 6d. per quart, 1s. 6d. per pint.

The Cultivation of Broad Beans,—Early Mazagan and Dwarf Fan Beans may be planted in November, and a second sowing made in February, the rows being about 15 inches apart; to be followed by the Long-Podded and Windsor varieties to secure a succession. The later sorts should be about 6 inches from plant to plant, and 3 feet from row to row. This crop succeeds best on deep rich soil in an exposed position. On light and dry soils it generally gets attacked by the black blight and spoils. When the points suffer from this pest it becomes imperative to pinch them out and burn them.

Photographed and Copyrighted by I. C. & Co. MUCH REDUCED IN SIZE,
CARTERS MAMMOTH WINDSOR BROAD BEAN,

#### BROAD BEANS.

WHITE-SEEDED VARIETIES.

**Carters Mammoth Windsor.**—The longest podded Windsor Bean in existence, and the finest for exhibition. The pods of this superb strain often contain as many as five and six gigantic beans. A grand selection.

Price 1s. 3d. per pint, 2s. per quart.

#### BROAD BEANS.—Continued.

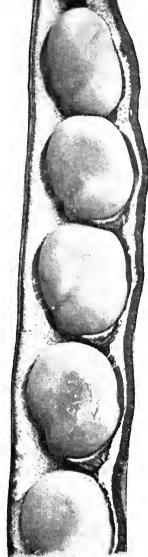

Carters Green Leviathan (Green Seeded).

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley last season, says:--"Pods of great length, and one of the best of the long pod section; good crop."

We introduced this fine Bean as a fitting companion to its prototype, Carters Leviathan (White Seeded). we state that the Bcan we now offer earries pods of equally enormous proportions, and has the additional advantage of a beautiful green colour which is retained when cooked, its merits will be at once recognised. Its flavour is most mellow and delicious.

Price 2s. 6d. per quart, 1s. 6d. per pint.

Carters 237, 238, & 97, High Holborn, London.—1909.

#### CARTERS CLIMBING FRENCH BEAN JULY WITH STRINGLESS PODS.

We had the pleasure to bring to the notice of our customers a climbing stringless variety, which we strongly recommended, and we have no reason to alter the opinion expressed last year. It bears round pods so freely produced that we have counted as many as forty on a stalk. It holds well to the sticks and is the earliest Bean we know of.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley last season, says:—"Carters July Climbing French Bean. Flower white, height 3 feet, foliage dark green; pods long, thin, straight, averaging 6 inches in length, usually in pairs; good crop; pods stringless."

"An early fruiting Climbing French Bean. The pods are thick, medium sized, and very like the excellent better Bears is form. Note in Liberty Bears is form.

Butter Beans in form. Not in July alone, but it keeps on fruiting over quite a long season, and is as good now in September as it was at first. The actual bean is very small, and the pods keep tender longer than any variety I have tried."—Mr. J. C. Tallack, Head Gardener to E. M. Mundy, Esq., Shipley Hall.

Price 2s. 6d. per quart; 1s. 6d. per pint.

#### CARTERS CLIMBING FRENCH BEAN SUCCESSOR.

A large-podded Climbing French Bean, selected from our Ten Weeks. It is superior to that variety as the pods are almost half as long again, and very delicate eating. It comes in after our Fuly Climbing, hence the name Successor.

Price 2s. 6d. per quart; 1s. 6d. per pint.

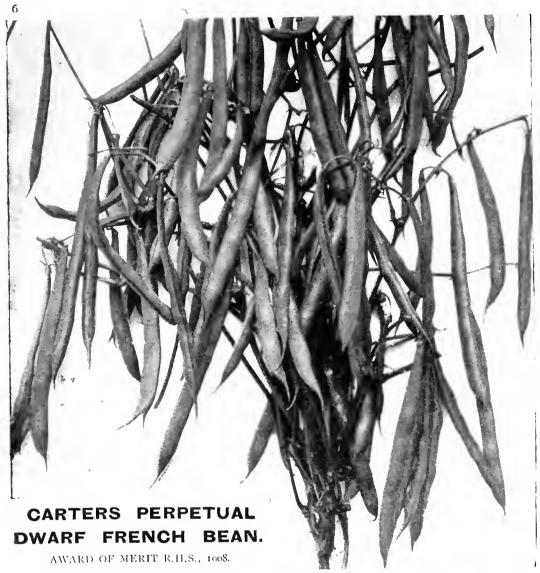

Ordinary Climbing French Beans, 2s. per quart.

Carters Re-selected Climbing French Beans. A highly selected stock; being more prolific, and of very robust habit. Price 2s. 6d. per quart; 1s. 6d. per pint.

Carters Ten-weeks Climbing French Beans. Price 2s. 6d. per quart; 1s. 6d. per pint.

Hints on Culture. - Sow in pots under glass wherever wanted, transplant in prepared beds for training, or grow on in larger pots. For outdoor culture they must not be sown until May is well in -very similar to Scarlet Runners, only that they do not grow quite so robust and do not need such tall stakes.

Carters 237, 238, & 97, High Holborn, London.-1909.

For the purpose of showing the extraordinary prolific habit of this new introduction we had the leaves

removed from a plant before photographing.

This remarkable bean is strongly recommended as being in every way a great acquisition; it is of very compact growth, the foliage of an attractive dark green, and the pods are of medium size; the most important feature is the prolonged period this variety continues to bear. Pods were picked at our trial grounds earlier than other varieties, and young tender beans were gathered after most other sorts were quite finished.

We exhibited about 50 pots of French Beans at the early August meeting of the R.H.S.,

the most favourably discussed variety being Carters Perpetual shown under Seedling No. 249.

The Right Hon. Viscount Midleton's Head Gardener says: "New Seedling Dwarf Bean No. 249. This variety had extra strong haulm, very dark green, pods long, thin, very straight, and a very heavy cropper."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming. Price 18. per packet (about 75 seeds).

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.—1909.

#### DWARF FRENCH BEANS.

Carters Stringless Dwarf French Bean, Holborn Wonder.—The great success which has attended our introduction of the first stringless Green-podded Bean, Carters Canadian Glory, has encouraged us to pursue our efforts in selecting stringless Beans for general use. Our Holborn Wonder will be found to be free from threads, is quite distinct and very prolific, and we confidently recommend it.

Price 3s. 6d. per quart, 2s. per pint, 1s. and 6d. per packet.

Carters Stringless Dwarf French Bean, Canadian Glory.—An Extra Early Dwarf Green-podded French Bean, possessing the invaluable quality of bearing pods absolutely without strings or threads. It is equally valuable eaten as a Flaggeolet or Haricot, as on the Continent.

Price 3s. 6d. per quart, 2s. per pint, 1s. and 6d. per packet.

**Carters Canadian Wonder.**—We were one of the first to make the merits of this fine dwarf Bean known, and its popularity to-day is probably unequalled. The pods are of great length and good for exhibition.

15 First Prizes reported by Customers last year.

Price 2s. per quart, 1s. 3d. per pint.

**Carters Longsword.**—This is a variety which we can recommend either for forcing or for general use. It is very prolific and early, pods of good length, and of very delicate texture.

Price 2s. per quart, 1s. 3d. per pint.

The Cultivation of French Beans.—Sow in pots under glass for forcing from December to April, and about May in the open borders, followed by two or three successional sowings at intervals of a fortnight. The rows ought to be from 2 feet to 2 feet 6 inches apart, and the plants thinned to about 1 foot apart. They are rather delicate, and should not be sown out of doors until the warm weather sets in.

ALL SEEDS CARRIAGE FREE. FIVE PER CENT. DISCOUNT FOR CASH PAYMENTS.

Carters 237, 238, & 97, High Holborn, London .- 1903.

#### CARTERS SCARLET EMPEROR RUNNER BEAN.

#### THE LONG SMOOTH-PODDED SCARLET RUNNER.

Carters Scarlet Emperor has been gaining Prizes throughout the Kingdom, over 100 have already been kindly reported by our Customers.

Carters Scarlet Emperor has fully maintained its great reputation; one enthusiastic gardener shows it to a neighbour and so its popularity increases each season, and our sales of this striking novelty have more than doubled each year. From our observations and the reports that we have received Carters Scarlet Emperor has been well represented and much discussed at exhibitions all over Great Britain.

Not only is this Bean of the utmost importance as a prize winner, but its smooth and tender texture places it far above all other scarlet runners. Its large, handsome pods, often measuring 15½ inches, hang in great clusters, and it has been estimated that the produce from Carters Searlet Emperor is twice as great in bulk as may be expected from the ordinary type of scarlet runner, and all of the most refined quality.

Those who have seen this Bean in growth have been astonished at its prolific habit, and we feel confident as it becomes known all older types will be abandoned, as the value in quality

and productiveness will be immediately recognised as an investment.

We respectfully thank our Customers for the many kind letters of appreciation and reports of prize exhibits sent to us last autumn. Our stock is again highly selected and grown under our personal supervision, and we would warn our customers against procuring inferior substitutions from other sources.

#### Price 4s. 6d. per quart; 2s. 6d. per pint; 1s. per packet.

His Grace The Duke of Portland's Head Gardener says:—"I have given an extended trial to Carters Searlet Emperor this season, and I am pleased to say that it has more than ever borne out the good opinion I had of it last season. It is a splendid cropper, with long narrow pods, with a splendid dark green colour. It also has much less of the coarse skin usual in Runner Beans."—Mr. James Gibson, The Gardens, Welbeck.

His Grace The Duke of Buccleuch's Head Gardener says:—"Carters Scarlet Emperor Bean is a strong grower, flowers very freely, and is promising well."—Mr. WILYTOCK, The Gardens, Dalkeith.

The Right Hon. Viscount Portman's Head Gardener says:—"Without doubt the finest Runner Bean ever introduced. It is a prodigious cropper, having straight pods from 12 to 15 inches in length, produced in abundance on each raceme."—Mr. Prinsep, The Gardens, Buxted Park.

The Right Hon. The Earl of Eldon's Head Gardener says:—"I am more than pleased with your Scarlet Emperor Bean. I never saw anything like it before, it is exactly as you describe it in your catalogue."—Mr. J. King, The Gardens, Shirley Park.

The Right Hon. The Earl of Jersey's Head Gardener says:—"Vour Scarlet Emperor Runner Beans have done splendid. I have never seen any to equal them in height or size of pods; the best I know."—Mr. A. W. PERRY, The Gardens, Middleton Park, Bicester.

The Right Hon. The Earl of Lathom's Head Gardener says:—"Carters Searlet Emperor Runner Beans are the most refined Bean for exhibition with which I am acquainted."—Mr. BEN ASHTON, The Gardens, Lathom House

The Right Hon. The Earl of Sandwich's Head Gardener says:—" Scarlet Emperor has been magnificent, I gathered beans 12 inches long under ordinary treatment."—Mr. Hansford, The Gardens, Hooke Court, Beaminster.

The Right Hon. Viscount Midleton's Head Gardener says:—"Height 12 feet, haulm very strong, of an extra dark nature. I consider this bean to be the largest in cultivation and a very prolific bearer. I have had pods over 1 foot long, and they hang in very large clusters. The flavour when cooked is distinct, and for exhibition cannot be beaten."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

The Right Hon. Lord Poltimore's Head Gardener says:—"As good as ever, one may safely say the very finest Bean in cultivation."—Mr. Slade, The Gardens, Poltimore, Exeter.

Sir Edmund Loder, Bart.'s, Head Gardener says:—"A very fine variety which bears most profusely, and quite the finest Runner Bean. I have measured plenty 12 inches in length on stalks bearing a dozen beans. What would they be if thinned?"—Mr. W. A. Cook, Leonardslee.

"Carters Scarlet Emperor Runner Bean is an extremely free bearer, and its colour, shape, size, and straightness, put it right in the first place as a market variety."—Mr. LAWSON, The Gardens, Horticultural College, Swanley.

Carters 237, 238, & 97, High Holborn, London. -1909

#### CARTERS SCARLET EMPEROR RUNNER BEAN .- Continued.

The Right Hon. The Duke of Leeds' Head Gardener writes:—"Scarlet Emperor Runner Bran gave great satisfaction. It is a splend'd Bean, and one of the first ready with us this year, and now (Oct 19th), as 1 just looked through them, found a nice lot of good Beans fit for use."—Mr. J. NICOL, Hornby Castle Gardens, Bedale.

The Hon. Rupert Becket's Head Gardener, writes:—"I have thoroughly tested Carters Scarlet Limperor Runner, and can confidently say it is the largest podded and best eropper I have ever seen, and for show work has no equal."—Mr. B Gray, Brantingham Thorpe Gardens, Brough, East Yorks.

Mrs. Fielden's Head Gardener writes:—"Scarlet Emperor Runner is a grand acquisition. 1 have gathered many pods 15 inches long. It is remarkable for its free eropping habit and continuous bearing."—Mr. G. P. BOUND, Grimston Park Gardens, Tadcaster.

Mrs. Hall-Watts' Head Gardener writes:—"Carters Scarlet Emperor Runner is, in my opinion, the best Runner I have ever grown; as a eropper it could not well be beaten, whilst for size of pod it is quite easy—even under ordinary cultivation—to pick out plenty of pods 12 inches and over in length; but by extra cultivation and thinning for exhibition, pods of enormous size will be produced. The flavour and colour is also excellent."—Mr. Grorge Wilson, Bishop Burton Hall Gardens, Beverley.

Sir Henry D. Ingleby, Bart.'s Head Gardener writes:—"Your Searlet Emperor Runner Bean has done wonderfully well with me; it is very free setting and a good eropper. I have had a quantity of pods 14 and 15 inches long, and they have been quite tender right up to the last."—Mr. 11. Fox, The Gardens, Ripley Castle, Yorks.

J. P. Pease, Esq.'s llead Gardener writes:—"Carters Scarlet Emperor Runner is the Exhibitor's Friend, and, without doubt, the most important break towards perfection ever attained in Runner Beans. The pods are of great size, and produced with marvellous freedom, and are of first-class quality when cooked."—Mr. G. PICKER, The Gardens, Hesslewood, East Yorks.

Lt.-Col. Goddard's Head Gardener writes:—"1 am delighted with your Searlet Emperor Runner. It is a vigorous grower, its cropping qualities quite exceeded my expectations, and the pods are of enormous size. I can safely predict it will become a general favourite with market gardeners."—Mr. E. Wright, The Gardens, Thwaite House, Cottingham, East Yorks.

The Right Hon. Lord Middleton's Head Gardener writes:—" Scarlet Emperor Runner has done exceedingly well; a heavy erop of very fine pods."—Mr. J. Anderson, Birdsall House Gardens, Yorks.

F. Reynard, Esq.'s Head Gardener writes:—"Your Runner Beans, Scarlet Emperor, is by far the best Bean. I have grown lots of them 14 inches long and the very best in quality."—Mr H. Lyon, Sunderlandwick Gardens, Driffield.

Admiral Walker's Head Gardener writes:—"Your Runner Bean, Searlet Emperor, is indeed an eye opener. It was admired by all who saw it here, the attraction being the length of the pods, which were from 10 to 14 inches long, in bunches of six to eight pods, even in growth, good in colour, with a smoothness and an absence of curled-up pods not found in other sorts. Another recommendation is its long season in growth. I made my first gathering in July, and to-day (Oct. 19th) I gathered fine tender pods, when other sorts had finished a fortnight ago grown under the same conditions."—Mr. G. Davison, Beverley Hall Gardens, Yorks.

## NOVELTY. CARTERS "RED GIANT" RUNNER BEAN.

#### The largest giant-podded Runner Bean ever introduced.

We have much pleasure in bringing to our customers' notice a Runner Bean which is even longer in the pods than our far-famed Scarlet Emperor, but we wish particularly to point out that although so marvellously prolific it is not quite so smoothed skinned as that variety. We would strongly recommend those of our customers who are desirous of growing not only the largest podded, but also the heaviest bunching variety in commerce, to give this truly "Giant" Bean a trial.

Price 1s, per packet (12 Seeds).

RUNNER. -- Fleshy pods 1

The Cultivation of Runner Beans.— Runner Beans should be planted out of doors during May, followed by successional sowings at intervals of a fortnight: by this means an abundant supply is provided until the plants are destroyed by the autumn frosts.—Care should be taken when planting that sufficient space is allowed between the rows (say 3 feet), and 12 inches from plant to plant in the rows, and the plants should be well watered in dry weather or the flowers will drop off.—If slugs are troublesome during the young stage of growth, dust over with soot and lime.

Carters 237, 238, & 97, High Holborn, London, -100)

The Roots are ready for use in the Summer Salads.

Carters Crimson Ball (see Photograph).—Round Beets are of the greatest value on account of earliness. The roots can be lifted during the height of the summer season when salads arc in demand; and the fresh taste imparted by the highly-coloured slices arc considered preferable to those from stored roots. The old-fashioned flat types were never in favour with cooks, because of their weak colour and stringy texture. Crimson Ball these defects have been remedied. Fourteen First Prizes reported last season. Price 1s. and 6d. per packet; 1s. 3d. per ounce.

#### FRANCO-BRITISH EXHIBITON, 1908.

Several fine specimens of this variety were exhibited in Three Gold Medal and Two Grand Prix Collections.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. -1909.

#### BEET .- Continued.

Photographed and Copyrighted by J. C. & Co.

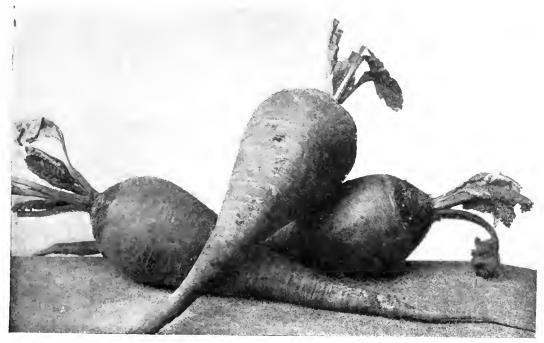

Carters Perfection (see Photograph).—As the Beet family is very sensitive to cross fertilization, we start afresh from time to time, with stocks with "new blood." We have again re-selected our Perfection Beet, which is now a perfect and refined root. The best long Beet in cultivation; medium size, rich crimson lake colour, and splendid flavour; foliage shining and dark. Pronounced by the Royal Horticultural Society to be "perfection," and awarded First Prize at the Great Autumn Vegetable Exhibition, 1905. Twenty First Prizes reported last season.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

Splendid specimens of this fine Beet were exhibited in Two Gold Medal Collections at the Franco-British Exhibition, 1908.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

Photographed and Copyrighted by f. ( . & Co. CARTERS DAINTY BLET.

- Carters Dainty.—This is a small growing variety of more than ordinary merit, having long slender rocts of a splendid deep crimson colour, and of the finest flavour possible; in naming it Dainty, we wish to convey the extremely refined quality of this variety; it does not attain to the size of our Perfection (see page 13).

  Price 1s. per packet.
- Ornamental Foliaged Beet.—An interesting species for decoration in the flower garden. The thick fleshy ribs are beautifully coloured either yellow, crimson, cream, or white, and the contrast with the shining green leafage is very effective.
- Price 6d and 1s. per packet.

  Croton-leaved Beet.—A decided acquisition to the group of decorative Beets, the long, narrow, crimson-bronze leaves having an elegant appearance. it is effective. The roots are edible.

  For the ribbon border, or as a pot plant for table decoration,

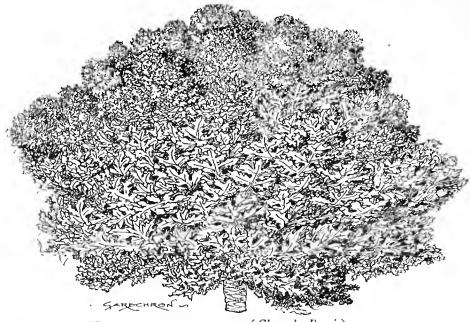

Price 6d. and 1s. per packet.

Seakale Beet.—An improved type of a delicious regetable, in reality a Beet in which cultivation has developed the leaves instead of the root. It is sown at the same season as Beetroot in April, in rows about 18 inches apart, and the plants thinned out to 15 inches apart. At the end of summer they may be lifted as required, the green portion of the leaves cut off and the fleshy stems boiled and served with sauce, like Seakale.

Price 6d. and 1s. per packet.

KALE. 15

CARTERS RUSSIAN KALE (Chou de Russie).

By kind permission of "Gardeners' Chronicle."

## Award of Merit and First Class Certificate after trial at Wisley, March 19th, 1907.

The only novel variety of Kale in the trial considered worthy of the award. No other Kale in the whole trial of 54 stocks received the First Class Certificate.

This distinct and extremely hardy variety stood the exceptionally severe winter better than any other variety grown; the leaves are very curious, in form somewhat resembling a deer's antler, of singularly thick substance, and of a peculiarly green colour.

When cooked this is the most dellcious variety of Kale which we have ever tried, the young shoots especially being particularly delicate in flavour. Our opinion is endorsed by a well-known writer in the Gardeners' Chronicle, who says: "I have had the pleasure of tasting its sprouts cooked, and can verify the opinion passed upon it. It is exceptionally good."

Price is, and is, 6d per packet.

#### RUSSIAN KALE.

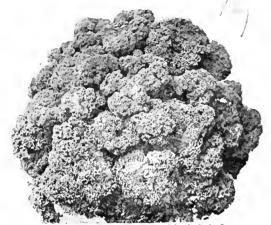

The Right Hon. Viscount Midleton's Head Gardener says:—"Foliage of a dark green nature, short and sturdy, producing large quantities of sprouts, when cooked are delicious. It stands the winter better than most of the better known kales, and should be grown everywhere."—Mr. QUAINTON, The Gardens, Peper Harrow, Godalming.

Monthly Operations in the Garden, with Hints on the Cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

#### BORECOLE, or KALE.

Photographed and Copyrighted by J. C. & Co. CARTERS DWARF EXTRA CURLED KALE.

Photographed and Copyrighted by J. C & Co.
CARTERS HALF TALL SCOTCH KALE,

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.—1909.

Carters Dwarf Extra Curled (see Photograph).— Award of Merit, R. H. S., 1907, after trial at Wisley. A rescleeted and crested form of the Early Kale so popular in the North. It will resist the most intense frost, and makes a delicious winter dish.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

Carters Half Tall Scotch Kale (see Photograph).—A fitting companion to our well-known Dwarf Extra Curled type. The leaves are very dense and moss curled. Stands the coldest weather, and the greater the frost the more delicate the leaves eat. If the leaves at the top are cut during the early part of the winter, it will greatly encourage the growth of the young shoots upon the stem.

Price 1s. per ounce; 6d. per packet.

Carters Mammoth Tall Scotch Kale.—A very robust variety, suitable for large establishments where quantities of winter greenstuffs are needed.

Price 1s. per ounce; 6d. per packet.

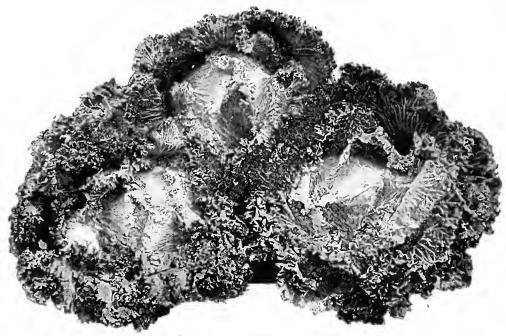

Carters Welsh Kale.—A hardy variety of very handsome appearance; of medium height, the leaves are long and densely curled, but are more narrow than our \*Idalf Talf\* Scotch variety. The flavour is particularly good.

Price 1s. per packet.

Carters Improved Garnishing.—This is not only a valuable winter vegetable, but also produces a variety of distinct and beautiful shades of colour in its variously tinted leaves that are useful for many decorative purposes.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

#### BORECOLE or KALE. - Continued.

CARTERS DRUMHEAD KALE.

We received an Award of Merit from the Royal Horticultural Society for this Kale.

**Carters Drumhead Kale.**—A valuable winter vegetable with a solid cabbage-like head. Quite delicious when cooked. (*See Photograph.*)

"Quite distinct from any other Kale here. The leaves are broad and it is now hearting like a Drumhead Cabbage."—Mr. J. Whytock, Head Gardener to His Grace the Duke of Buccleuch.

"This is a delicious looking Kale which makes a good head, and is as delicious when cooked as it looks while growing."—Mr. W. A. Cooκ, Head Gardener to Sir Edmund Loder, Bart.

Price 1s. and 6d. per packet, 1s. 6d. per ounce.

Carters Purple Plume Kale.—Leaves of a rich purple, very tall and handsome; a useful vegetable as a winter dish or for garnishing.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

Price 6d. and 1s. per packet.

Asparagus Kale.—The long thin shoots produced on the plant in early spring make a delicious dish.

Per oz.-s. d Cottager's.—Very hardy, of tall robust growth, throws a great profusion of side ...per packet 6d. & 3d. 0 10 shoots, of splendid quality. Award of Merit, R.H.S., March, 1907 . . . 6d. & 3d. o 9 6d. & 3d. o 8 CARTERS CURLED. — Dwarf; superbly carled ... CARTERS TALL GREEN CURLED. Densely curled 6d. & 3d. o 8 DWARF GREEN CURLED. - For general use IMPERIAL HEARTING.—Hardy, with compact heads ... 6d. & 3d. 0 9 JERSEY TREE. - Tall and curious, with stems of such toughness that in Jersey they per packet 3d. o 6 are often made into walking sticks 3d. o 6 TALL PURPLE CURLED - Pretuily curled and of rich colour ...

The Cultivation of Kale.—Sow the seed in March for early winter crop, and again in April for main winter crop. Transplant as soon as ready in summer, about 2 feet apart, into good soil, made firm and highly manured.

Carters 237, 238, & 97, High Holborn, London.—1909.

THOUSAND HEADED.—Loose headed; great profusion of leaves

VEITCH'S SELF-PROTECTING.—Early variety, with good hearting quality ,,	18.	1	9
WAI CHEREN One of the earliest; fine heals	18,	I	6

The Cultivation of Broccoli.—For the earliest erop a sowing is requisite the beginning of March, and a little protection may be necessary for the seed-beds. Successional sowings should follow up to June. Prick out into a prepared bed when strong enough, and when thoroughly established in summer transplant to permanent quarters, the earliest kinds first, to produce a constant supply of heads, according to the variety, until Cauliflowers are ready in July the following season. The soil should be deeply dug, well manured, and in good tilth and firm before transplanting.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. - 1 109.

#### BROCCOLI.—Continued.

Photographed and Copyrighted by J. C. & Co. CARTERS SANDRINGHAM.

#### FOR CUTTING FROM JANUARY TO APRIL.

Carters Sandringham Winter White (see Photograph).—A choice re-selected stock of Snow's Broccoli, which we strongly recommend to our customers. The heads, which attain a good size, are of a very compact growth and beautifully white.

Price 2s. 6d., 1s. 6d., and 1s. per packet.

Carters Mammoth Spring White.—We have no hesitation in saying that this is one of the largest as well as the best varieties grown, and attains greater popularity each season. The heads are snow-white and of the finest texture.

Price 1s. 6d. and 1s. per packet; 2s. 6d. per ounce.

Carters Improved Early Purple Sprouting.—This variety is fit considerably earlier than the Purple Sprouting generally grown, and throws up a great profusion of Sprouts.

Price 1s. per packet; 1s. 6d. per ounce

Carters Pyramid.—So named on account of the pyramidal habit it assumes; of very hardy and vigorous growth and pleasing appearance.

Price 1s. and 1s. 6d. per packet.

#### BRUSSELS SPROUTS.

CARTERS HOLBORN EXHIBITION.

# Carters Holborn Exhibition Brussels Sprouts.

(See Thotograph.)

A very fine strain, the result of many years' careful selection. Its points for size, colour, and productiveness are good all round. Besides being largely grown in private gardens, it is a special favourite with many of our best known market growers, it is of medium height with large solid sprouts.

Price 1s. and 6d. per packet; 1s. 9d. per ounce.

Some very fine plants of this strain were exhibited at the Franco-British Exhibition, September, 1908, forming part of a Gold Medal and Grand Prix Collection of Vegetables.

THE ROYAL HORTICULTURAL SOCIETY'S report of last season reads: - "Carters New Exhibition. Plants 2 feet high, sturdy, producing a mass of medium sized hard sprouts from base to crown."

Aigburth.—Medium height; Sprouts of good size and colour.

is, per ounce; 6d. and 3d. per packet.

Fresh Imported.—Small, close, compact Sprouts.

8d. per ounce; 6d. and 3d. per packet.

Rosebery. - Large Sprouts; tall growing, and of good quality.

10d. per ounce; 6d. and 3d. per packet.

Scrymger's Giant.—Tall-growing variety, producing Sprouts of good quality and large size.

10d. per ounce; 6d. and 3d. per packet.

The Cultivation of Brussels Sprouts.—Sow the seed early in March for first crop, and again late in April for succession, transplant in summer into good ground made thoroughly firm, when the plants are large enough to handle, and keep stirred with the hoe through the dry weather. The Sprouts are fit for gathering after they have been under the influence of a hard frost, which makes them tender eating. Some growers make a sowing in August to get early sprouts.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

Photographed and Copyrighted by J. C. & Co. CARTERS PERFECTION BRUSSELS SPROUTS.

#### Carters Perfection Brussels Sprouts.

(See Photograph.)

A standard variety for general use, producing large and firm sprouts in great abundance. As a late Sprout it is much appreciated. It is a taller growing variety than our Exhibition strain.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

# Carters New Cabbage Sprout.

Introduced by us two Seasons ago, is a cross between Winningstadt Cabbage and Cambridge Champion Brussels Sprout. The plants are crowned with good-sized firm Cabbages, and the stem studded with Sprouts. When the Cabbage head has reached its perfection it should be cut, so that the Sprouts may then develop.

The best results will be attained by autumn sowing.

Price 6d. and is. per packet.

"I want to mention the New Cabbage Sprout of which I purchased a packet of seed last year. They have been most successful. They have yielded some beautiful cabbage, also sprouts the same shape as cabbage, longer pointed. We shall certainly grow some more this season."—T. I., Uckfield.

"I had splendid heads to the New Cabbage Sprout."-Mr. H. FINTHER, Tring.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. - 1909.

## <sup>24</sup> CARTERS SELECTED EARLY CABBAGES.

FOR SPRING AND AUTUMN SOWING.

Photographed and Copyrighted by I. C & Co.—Greatly Riduced.
CARTERS EARLY HEARTWELL CABBAGE.

Carters Early Heartwell (see Photograph) —An early Marrow Cabbage of refined quality and delicate flavour; without doubt one of the best varieties in cultivation. Sown in spring will be fit to cut in summer. Sown in August will be fit to cut in April and May.

Price 1s. and 6d. per packet; 1s. 6d. per ounce.

Carters Early Garden.—A highly-selected variety, with a sugarloaf head. Preferred by some growers to the round-headed type.

Price 6d. per packet; 1s. per ounce.

**Carters Model.**—As a succession to Carters *Heartwell* this is a useful variety. Its heads are firm and compact, and come close to the ground.

Price 6d. per packet; 1s. per ounce.

The Cultivation of Cabbage.—By a little careful arrangement Cabbages can be had almost all the year round. An early variety sown in the spring will come into use in the summer; a main crop variety sown in the spring will come in during summer or antumn. Sowings made during July of a quick variety like the Colewort will come into use during autumn, whilst sowings made towards the end of August will be fit for cutting in the spring. July sowings of a Cabbage intended for spring cutting often bolt, whereas the same variety sown at end of August stands well. Cabbages require a rich, deeply dug, and well-drained soil; when planted out they should stand 15 to 20 inches apart, according to habit and growth of the variety.

Casters 237, 238, & 97, High Holborn, London.—1909.

## CABBAGE.—Continued. SAVOY, CHOU DE MILAN, COLEWORT, COUVE TRONCHUDA.

Photographed and Copyrighted by J. C. & Co.

CARTERS GOLDEN BALL.

CARTERS EARLY SCARLET HORN.
CARTERS IMPROVED HORN.

CARTERS EARLY MARKET.
CARTERS LONG FORCING.

Carters Golden Ball.—A most distinct and very early variety, specially adapted for forcing and frame work. The roots are almost as round as a turnip, flavour excellent and melting. Awarded First Prize as the best early Carrot, R.H.S. Great Autumn Exhibition, 1905.

Carters Early Scarlet Horn.—A highly selected stock, of bright scarlet colour, one of the most useful in this section.

Price 6d. per packet; 1s. per ounce.

Price 6d. per packet; 1s. per ounce.

useful in this section. Price 6d. per packet; 1s. per ounce.

Carters Early Market.—Fine early variety of good colour, quick in growth, valuable alike for Market Gardeners or private use.

Price 6d. per packet; 1s. per ounce.

Horn.—A perfect type of stump-rooted Carrot, of excellent flavour.

Price 6d. per packet; 1s. per ounce.

Carters Long Forcing.—A handsome long Carrot, with the same depth of colour and firmness of texture in its earliest stages as other Carrots possess in their later growths.

Price 6d. per packet; 15. per ounce.

Carters Long Forcing Carrot.—"This forcing Carrot is one of the most distinct and valuable that we possess, and when better known it is sure to be extensively grown. It is the quickest variety that I know of, and makes but very little top, and the quality is excellent. As a Carrot coming into use early in the year, and for exhibition, it is an acquisition."—E. B. in Gardeners' Chronicle.

CARTERS SUMMER FAVOURITE CARROT.

Carters Summer Favourite (see Photograth above).—Awarded Royal Horticultural Society's Silver Medal. A splendid half-long, producing handsome, well-grown, bright cochineal-scarlet Carrots very early in the season. The quality is superb, and as an exhibition variety coming into use early it will be found invaluable for showing in the summer months. Sixty-one First Prizes reported to us since 1906.

Price 6d, and 1s. per packet; 1s. 3d. per ounce.

Carters Scarlet Perfection.—Awarded a Special Certificate of Merit at the Vegetable Conference of the Royal Horticultural Society, and awarded First Prize, R.H.S. Great Autumn Exhibition, 1905. A distinct and greatly improved form of Garden Carrot. It is midway in length between the *Long Surrey* and the well-known *Intermediate*, with the bright searlet colour of the *Surrey*. The flesh is solid, erisp, and fine flavoured. Invaluable alike for table, exhibition, and market purposes. 223 First Prizes reported by customers.

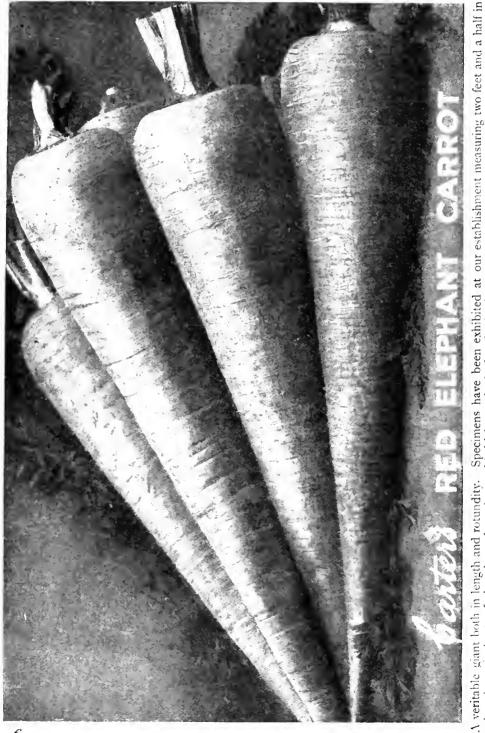

Priee **6d**. per packet; **1s**. per ounce.

**Carters Blood Red.**—This Carrot is quite distinct, and has many good and new qualities. It has a depth of colour not hitherto seen in Carrots, the texture of its flesh, while solid and erisp, is most tender, and entirely loses the pithy heart found in many large-growing varieties. It has handsome long roots.

Price **6d.** and **1s.** per packet.

NOVELTY.

Carters Forerunner Cauliflower.—The quickest cauliflower ever grown. Ten days earlier than others—Large white head, solid, and good size. Sow in middle of February, transplant when first leaves drop, under glass, plant in open ground end of April or beginning of May, and the first heads will be ready by the middle of June. The leaves protect the head from the summer sun.

Price 1s. 6d. and 2s. 6d. per packet.

The Royal Horricultural Society, reporting its trials at Wisley last season, says: "Carters Early Forerunner. A very early variety of dwarf, compact habit; sturdy, with rather small, solid, handsome, pure white heads."

#### WHAT EXPERTS SAY ABOUT IT.

"Carters Forerunner Cauliflower was sown on February 1st with Snowball and another well-known early variety. Planted in the open the third week in April, we commenced to cut compact heads on June 7th. None of the other varieties were nearly ready. I am much impressed with it, and can congratulate you on it as distinct and valuable."—EDWIN BECKETT, Head Gardener to the Hon. Vicary Gibbs.

"I grew your new Cauliflower in frames along with Snowball, and grown thus it was 8 to 10 days earlier, a closer head, and in all respects a better form. A most valuable introduction. I had it also on early borders in the open."—G. WYTHES, late Head Gardener to His Grace the Duke of Northumberland.

"Carters Forerunner Cauliflower is a marvel. I cut fine heads on June 6th almost like Autumn Giant."—Mr. W. Humpher, The Gardens, Loampits.

#### Carters Early Emperor.—A giant summer Cauliflower for outdoor work.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

The Royal Hoeficultural Soliety's last season's report reads:—"Carters Early Emperor. Plants dwarf, sturdy, with semi-protecting follage; heads medium to large in size, firm, and of excellent shape."

Carters Defiance Forcing—For frame or pot culture. In perfection during early summer.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Cartina 2 17, 238, & 97, HICH HOLBORN, LONDON. - 1909.

#### GIANT AUTUMN CAULIFLOWER.

Photographed and Copyrighted by J. C. & Co.-MUCH REDUCED IN SIZE. CARTERS EXTRA EARLY AUTUMN GIANT CAULIFLOWER.

Carters Extra Early Autumn Giant.—This magnificent Cauliflower is more dwarf, considerably earlier, and in every respect better than the old Autumn Giant. It produces enormous snow-white heads, and is admitted to be the largest and the earliest of the giant forms that are of such value during September and October.

Magnificent heads of this variety were included in Two Gold Mcdal and Grand

Prix Collections at the Franco-British Exhibition, 1908.

We have records of 151 FIRST PRIZES having been won by Customers.

Price 1s. 6d. and 2s. 6d. per packet; 3s. 6d. per ounce.

MUCH RESPECTED IN SIZE.

Carters Solid Ivory Celery (see Photograph).—One of the most remarkable features of Carters Solid Ivory Celery is its extreme dwarf compact habit, and beautiful white colour. If the heads are tied with a little rough matting, the same as with Cos Lettuces, it will assist not only in keeping the Celery perfect, but also to exclude superabundant moisture. We have records of no less than 192 First Prizes awarded this variety during the

past few seasons in open competition.

Price is. and is. 6d. per packet.

CELERY SEED FOR FLAVOURING SOUPS, per lb., 28.

The Cultivation of Celery.—Sow in February on a mild hot-bed for earliest crop, to be pricked out on bottom heat when ready, and transferred to trenches in June. Sow in March in seed pans for main, and in April for late crop. The trenches should be bottomed with rich soil, and the plants liberally watered in August; earth up gradually during August and September, and commence lifting in November.

Carters 237, 2,8, & 97, High Holeoch, London - 1909.

#### FORCED HEADS OF CHICORY.

Photographed and Copyrighted by J. C. & Co.

It is only on the Continent one can appreciate the delicate piquancy attached to salads, as they seem to understand them better than we do here. Chicory is a leading ingredient in French salads, and the plant is so easily cultivated that it should be more popular here. The seed is sown in late spring, in a sheltered position on a nice soil, very similar to Carrots, the plants thinned out to about 9 inches apart, and left to grow on until the end of the summer, when the growth will die down leaving a root somewhat like a Parsnip. These are taken into a shed and kept in a heap of soil away from frost, and transferred to a hothouse when needed to produce their blanched heads during winter. They may also be grown in boxes.

For Hints on Cultivation, see page 92.

Price of seed, 6d. and 1s. per packet.

Price of roots for forcing, 5s. per dozen (only available in winter).

Photographed and Copyrighted by J. C. & Co.

#### CULTURAL DIRECTIONS.

Mustard and Cress.—Two of the most popular salad plants in cultivation, being in season all the year round. They are both cultivated in a similar manner.

Cultivation.—Use boxes of good fine soil, make the surface flat, and sow the seed rather thickly over the top, just pressing it in to the surface, but without using any covering material. After sowing, water it well. Place the box in moist heat, and cover with boards or thick paper until the seed germinates. Use shallow boxes half filled with soil. Frequent successional sowings should be made all the year round. Good results may be obtained out of doors in the summer by preparing beds of fine soil in the same way as recommended for boxes, and covering the seed when sown with boards or mats until it germinates.

Use. - Cut as soon as ready with a sharp knife. (See Illustration above.)

Watercress may be successfully grown if sown in rows in a shady border and well watered.

L'arter 237, 238, & 97, HIGH HOLBORN, LUMDON,—1909.

## FRAME CUCUMBER.

Photographed and Copyrighted by J. C. & Co.

OARTERS MODEL CUCUMBER, growing at our Nurseries for Seed.

Some fine specimens of this variety were exhibited in Two Gold Medal and Grand Prix Collections at the Franco-British Exhibition, 1908.

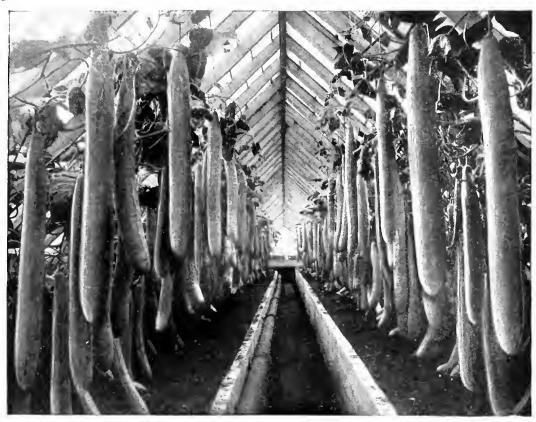

**Carters Model** (see Photograph) is one of the handsomest Cucumbers grown, embodying the fine form and general characteristics of Tender and True with the prolific habit and strong constitution of the Telegraph. Perfect in outline, with scarcely any neck, and of fine flavour, this variety has become popular, both for exhibition and table purposes.

Price 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

One Hundred and Four First Prizes reported by Customers during the past few seasons.

Mr. James Lawson, The Gardens, Horticultural College, Swanley, says: "I cannot speak too highly of Carters Model Cucumber. It is still the best for all purposes."

Corters 237, 238, & 97, High Holborn, London. 1909.

Copyrighted by J. C. & Co.

CARTERS IDEAL CUCUMBER GROWING AT OUR NURSERIES FOR SEED.

Carters Ideal (see Photograph).—Raised by that champion cultivator, Mr. E. Beckett, head gardener to the Hon. Vicary Gibbs. It is quite an aristocratic variety, both in colour, shape, and flavour. It gained a Cultural Commendation after growth at Wisley, 1905.

Price 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

"Your Ideal Cucumber is now bearing beautiful fruit, and I am sure there is no better seed on earth than yours."—Mr. G. DUNFORD, Harlow.

**Carters Cardiff Castle.**—Awarded a Cultural Commendation by the Royal Horticultural Society. The fruit is of a rich emerald colour, perfect in form, growing to a length of about 18 inches. It is remarkably free-bearing and very early.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

**Carters Earliest of All.**—Has produced perfect fruit in a trial, nine days in advance of all others. It is of good colour, and handsome form.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

**Carters Improved Telegraph.**—Our highly selected stock is the finest obtainable of this popular variety. Unquestionably one of the best winter Cucumbers; indispensable for foreing.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

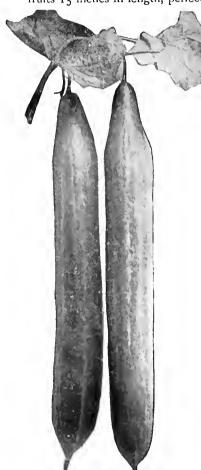

**Carters Royal Osborne.**—This grand introduction of ours has now become thoroughly established and as an all-the-year-round variety the professional gardener will find it one of the best. It is very prolific and of a rich deep green colour.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carter 237, 238, & 97, High Holsonn, London.—1909.

# CARTERS IMPROVED SWEET CORN.

Photographed and Copyrighted by J. C. & Co.

# Several fine cobs were exhibited in Two Gold Medal and Two Grand Prix Collections of Vegetables at the Franco-British Exhibition, 1908.

This Maize is a favourite vegetable dish in Canada, and we are now able to offer an improved type, acclimatized and saved in this country. The demand is increasing as it is more widely known. The cobs are cooked and served whole, and the peculiar sweet nutty flavour is so appreciated that after a trial it will, no doubt, find a permanent place in the Kitchen Garden.

Price 1s. per packet.

# KOHL RABI, or KNOL KHOL.

CARTERS EARLIEST WHITE. CARTERS EARLIST PURPLE.

Price 6d. and 1S. per packet.

#### CULTURAL DIRECTIONS.

DESCRIPTION.—A useful vegetable, not nearly so much cultivated in this country in gardens as it would be were its merits known.

Use.—As a substitute for Turnips, especially in hot dry seasons. The bulb grows entirely out of the ground.

Varieties.—There are two varieties in general cultivation, the white and the purple. Cultivation.—Prepare a breadth of good well-manured soil. Drill the seeds in rows about 15 inches apart in May, and thin out to about 9 inches apart. They are ready for use when they attain the size of a small Turnip.

Varters 237, 233, & 97, 111GH HOLBORN, LONDON. - 1909.

Photographed and Copyrighted by J. C. & Co. -- REDUCED IN SIZE.

CARTERS HOI BORN MODEL LEEK.

#### LEEK.

190 FIRST PRIZES reported to us by customers.

#### Carters Holborn Model

(see Photograph).

The best both for exhibition and table. The stems are remarkably solid, not quite so long as Carters Selected Musselburgh, of the clearest white colour, whilst the flavour is exceedingly delicate.

Price **6d.** and **1s.** per packet and **2s. 6d.** per ounce.

#### HOLBORN MODEL LEEKS IN IRELAND.

Beleast Gardener's Achieve-MENT. - In a recent issue of the Evening Telegraph we referred to a Leck measuring 3 ft. 6 in. in length which had been dug up at Baugor (Wales), and which was regarded as quite a monstrosity of its kind. We have just had delivered to us, however, two specimens of this indispensable domestic vegetable grown by Mr. A. M'Clure, gardener to J. J. Kirkpatrick, Esq., J.P., Kincraig, Belfast, which give the Welsh giant an easy beating in point of all-round measurement. One of the Leeks is exactly 4 ft., and the other 3 ft. 7 in. long, and the larger one measures 7 inches in circumference at the base. While we question if anyone could be found gifted with a digestive apparatus sufficiently strong to properly assimilate the specimens referred to, we cannot but congratulate Mr. M'Clure on having achieved such a notable record in the department of agriculture.

# FRANCO-BRITISH EXHIBITION, 1908.

**Carters Holborn Model Leek** was a very prominent feature in the vegetable eollections, which were awarded Three Gold Medals and Two Grand Prix.

Carters 37. 218, 8 07, HIGH HOLBORN, LONDON. -1909.

#### LEEK.—Continued.

**THE LYON LEEK.**—A very popular large variety; widely grown in the North, where it takes many of the leading prizes each year.

CARTERS SELECTED MUSSELBURGH LEEK.

Photographed and Copyrighted by J. C. & Co.

Price 1s. and 6d. per packet; 1s. 9d. per ounce.

Perpkt. Per oz.

Carters Selected Musselburgh (see Photograph).-A splendid selection of this well-known and popular variety; grows to large size, and is recommended for exhibition ... ... 6d. & 1 0 1 9 AYTON CASTLE. - Good long useful variety; for general cultivation ... CARTERS LONDON, or BROAD FLAG. -Quick growing; for early use 3d. & 0 6 0 9 CARTERS WELSH .- Fine large variety; great advance upon Welshordinary 3d. & o 6 o 9 HENRY'S PRIZE.-Late variety; of large size; very hardy ...

The Cultivation of Leek.—Sow February to April, and transplant into trenches of well-manured soil, say I foot in depth, and 20 inches between the plants. In warm weather liberal dressings of liquid manure will be of service, and the plants should be afterwards carefully earthed up to blanch the stems. For exhibition, sow in January in boxes under glass, and transplant early into rich soil.

"Your seeds gave great satisfaction last year."—Mr. D. Inglis, Gardener to His Grace the Duke of Buccleuch, January 13th, 1908.

"I am pleased to tell you, last year I took eleven firsts, nine seconds, and two third prizes from your seeds with numerous congratulations."—Mr. G. Allaway, Harrow, January 21st, 1908.

Monthly Operations in the Garden, with Hints on the Cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

CABBAGE LETTUCE.

Photographed and Colyrighted by J. C. & Co. REDUCED IN SIZE.

CARTERS HOLEORN STANDARD.

Carters Holborn Standard (see Photograph above).—A Lettuce of extraordinary size and duration. It forms well-developed heads in its early stages and is one of the very last to start for seed. Its leaves are crumpled and crisp, while it is very tender and of excellent flavour, and will provide an abundance of salad during the hottest of English summers.

Seventeen First Prizes reported last season.

Price 1s: and 1s. 6d. per packet.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley last season, says:—"Carters Holborn Standard; hearts large, solid, crisp, good flavour, with crumpled outer leaves tinged with brown. This variety stood the drought well without running to seed."

Carters Perpetual.—Award of Merit, Royal Horticultural Society. This is a large handsome Cabbage Lettuce, equally suitable for forcing and for open ground. Its great attraction to us is its resistance to drought. It produces very fine heads of a lively green colour and retains its crisp and tender flavour to the last, its deeply crumpled leaves giving it great substance. Six First Prizes reported by customers last season.

Price 6d., 1s., and 1s. 6d. per packet; 2s. 6d. per ounce.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at the Experimental Grounds, says:—"Carters Perpetual.—Foliage beautifully curled; a fine stock."

Carters 237, 238, & 97, High Holborn, London. - 1909.

Photographed and Copyrighted by J. C. & Co.—REDUCED IN SIZE,

CARTERS HARBINGER,

**Carters Harbinger Forcing** (see Photograph) — Valuable on account of its extreme earliness. It is not a hearting variety, but being of quick growth produces a quantity of tender leaves which are so much in request for early salads.

Price 6d. and 1s. per packet; 2s. 6d. per ounce.

Carters Longstander.—A distinct and valuable variety of great size. From its peculiar habit of growth it is less liable to decay and damage than any other cabbage variety. The colour of the leaf is pale green, and of the most delicious flavour and tenderness.

Price 6d. and 1s. per packet; 1s. 9d. per ounce.

**Carters Endive-Leaved.**—This Lettuce is quite distinct. Its leaves are deeply serrated and laciniated, which gives it the appearance of Endive—indeed, a prominent gardener suggested that it might be used in early summer salads, and few could tell but that it was Endive.

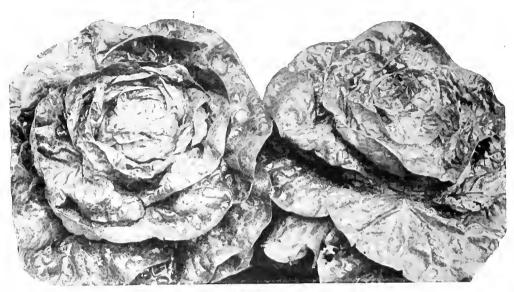

Price 6d. and 1s. per packet.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at the Experimental Grounds, says:—" Leaves beautifully cut and divided; a very handsome variety."

The Cultivation of the Lettuce.—Sow in pans on a gentle heat in February, and prick out into a well-manured and warm border. Sow again during March in a protected situation out of doors for early use, and in succession to the end of August for late crops. Young and tender plants may be grown in boxes or frames, and pulled and eaten when small; in this form they make a delicate salad. Water liberally in dry and warm weather.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

# CABBAGE LETTUCE.—Continued.

**Carters Round-Leaved** (see Photograph). - A hardy flat-shaped variety that can be sown at almost any season; the heads are very compact and firm, solid and white; slow to run to seed. At our trial grounds we have repeatedly seen this variety standing firm, when others have bolted.

Price 6d. and 1s. per packet; 2s 6d. per ounce.

Carters Green-Fringed.—Of a very delicate and peculiar shade of green, inner parts of the leaves being white; the edges are prettily fringed and serrated, the appearance being very striking and pleasing; useful summer variety.

Price 6d. and 1s. per packet.

# THE BEST SCARLET-FLESH MELON.

Photographed and Copyrighted by J. C. & Co.—REDUCED IN SIZE.

CARTERS BLENHEIM ORANGE MELON.

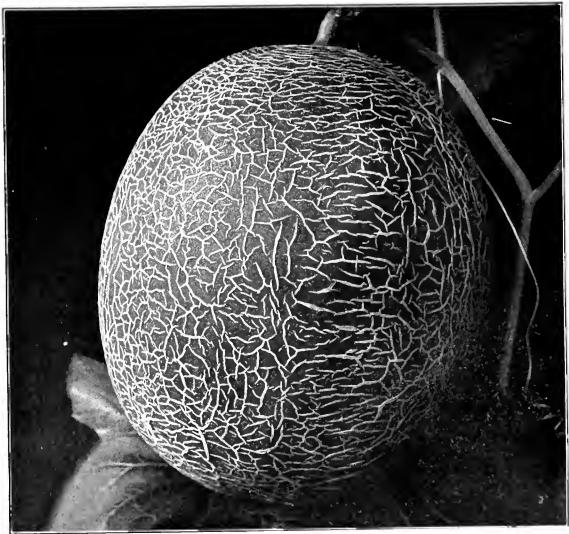

The finest flavoured and most popular scarlet-flesh Melon in cultivation.

#### FIRST CLASS CERTIFICATE, ROYAL HORTICULTURAL SOCIETY.

Carters Blenheim Orange.—This Melon is remarkably prolific, has a grand constitution, is a very fine setter, and may be described as a perpetual bearer, ripening in a short space of time. The fruit is superbly netted, the flesh deep and solid, and a special and distinctive feature is the evenly-defined and thin rind. Thirty-five First Prizes reported by customers.

Price 18. 6d., 28. 6d., and 38. 6d. per packet.

Carters 237, 238, & 97, HIGH HOLBURN, LONDON.-1909.

CARTERS EARL'S FAVOURITE MELON.

Photographed and Copyrighted by J. C. & Co.

# THE BEST GREEN-FLESH MELON

IS CARTERS EARL'S FAVOURITE.

AWARDED A FIRST CLASS CERTIFICATE, ROYAL HORTICULTURAL SOCIETY.
NINE FIRST PRIZES REPORTED LAST SEASON.

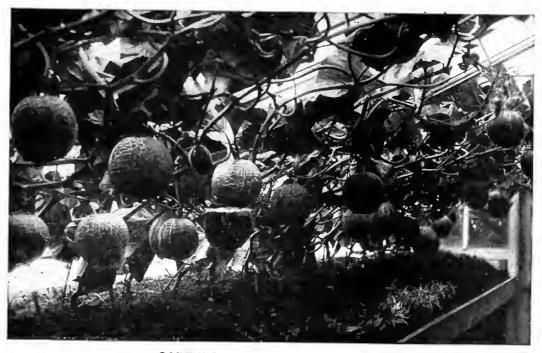

This is without doubt the finest green-fleshed Melon grown; it is a strong grower, free setter, and the fruit is large and beautifully netted, whilst the flavour has been pronounced by many lovers of this luscious fruit to be the very best possible. Price 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

"I thought you would like to see a sample of your Earl's Favourite Melon. They were grown in a cool frame by myself, an amateur. I cut 42 Melons off six plants. There is little doubt this is the best green-flesh Melon grown."—R. P. HUGHES, The Old House.

Some splendid fruit of this variety were exhibited in a Gold Medal Collection at the Franco British Exhibition, 1908.

Parters 237, 238, & 97, HIGH HOLBORN, LONDON.—1909.

#### MELONS .- Continued.

#### CARTERS HOLBORN FAVOURITE.

Carters Holborn Favourite (see Photograph).—Fruit of the largest size, roundish ovate; rind lemon colour, heavily netted; flesh, greenish-white; flavour, sweet, melting, and juicy; habit of plant, strong and vigorous; a free setter and a great bearer. Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters British Queen.—Best white-flesh Melon. This grand cream-flesh Melon is a cross between Hero of Lockinge and Royal Ascot, and was awarded the First Class Certificate of the Royal Horticultural Society. Pronounced by the Committee to be the very best flavoured white-flesh Melon ever submitted. Also awarded a Gold Medal, Royal Caledonian Horticultural Society, in association with other fruit exhibited from the Royal Gardens, Windsor. Price 1s., 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

Carters Green Gage.—A "perfect" green-flesh Melon; flavour delicious.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Amberwood Beauty. - A very handsome green-flesh Melon, the result of a cross between Hero of Lockinge and Read's Scarlet Flesh.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Emerald Gem.—Very prolific. Price 1s., 1s. 6d., and 2s. 6d. per packet. Carters Hardy Frame.—See next page.

The following sorts can also be supplied:-

Hero of Lockinge.—Pale flesh ... 6d. & 1 o Little Heath.—Hardy, scarlet flesh 6d. & 1 o Syon House Perfection ... 6d. & 1 o

Varters 237, 238, 97, High Holborn, London. - 1909.

## MELONS .- Continued.

# CARTERS HARDY FRAME MELON.

It is many years since the Royal Horticultural Society awarded us their First Class Certificate for a Melon that could be easily grown without heat. In Carters Hardy Frame we now offer a variety specially suitable for amateurs who do not possess the convenience necessary for cultivating the more tender Melons. The fruits are large, ribbed, and the flesh a rich scarlet colour.

"I should like to recommend your Hardy Frame Melon. This has been a great success; it bears profusely, sets well, and is very little trouble, and the fruits are of good size and satisfactory flavour. It should become a boon to all those growers who only have frame room at their disposal."—Mr. W. A. COOK, Head Gardener to Sir Edmund G. Loder, Bart.

The Cultivation of Melon.—Sow for first crop in January, and plant when ready into pits or on slabs filled with good maiden loam and well rotted manure, adding a dressing of fine soil to the surface and bringing the plants as near the light and glass as possible. It is essential that a regular temperature be secured rather than a high degree of heat. Keep a moist buoyant atmosphere during growth and give air freely when fruit is ripening, checking the supply of water to develop flavour. The frame varieties are sown later, and kept under glass until the season is sufficiently advanced for them to be put out on a warm heap of soil in the frame.

Everyone who has a frame is recommended to give it a trial.

Price 1s. and 1s. 6d. per packet.

Casters 237, 238, & 97, High Holson, London .- 1909.

Photographed and Congrighted by J. C. & Co. CARTERS HOLBORN ONION.

NEW AND STANDARD VARIETIES FOR SPRING SOWING.

CARTERS HOLBORN (see Photograph).—Equally valuable for exhibition and for table purposes. Perfect in shape, it grows to a large size, and is distinct in colour of skin from other Globe varieties. It is a capital keeper, and the delicate flavour nearly approaches that of the imported Spanish Onions sold by grocers and fruiterers. May also be sown in the autumn.

Price 1s. and 6d. per packet; 2s. per ounce.

NEW

Carters Early Wonder. A small globe Onion, maturing with great rapidity, thus leaving the ground vacant very early for the next crop; its keeping qualities are also remarkable.

Price 1s. per packet. Carters Tennis Ball.—This magnificent Onion is specially adapted for early sowing; the flavour is mild and delicate, and as an exhibition variety in summer it is invaluable. Price 1s. and 6d. per packet; 2s. per ounce.

Carters Long Keeper.—Will remain sound the year round if properly kept. "I am sending some examples of your Long-keeping Onion, grown in 1900, and it is now ber 5th, 1901. Gardeners about here hardly believe it."—J. L., Blackheath. October 5th, 1901. Price 1s. and 6d. per packet; 2s. per ounce.

Carters Silver Ball.—A pretty, medium-sized white globe Onion of fine texture It makes a nice contrast on the exhibition table. and mild flavour.

Price 1s. and 6d. per packet; 2s. per ounce. Monthly Operations in the Garden, with Hints on the Cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

Carters - C. & 97, HIGH HOLBORN, LONDON - 19 19.

Photographed and Copyrighted by J. C. & Co.

CARTERS SELECTED AILSA CRAIG (see Photograph above).—We offer a very fine strain of this popular Onion, which, on account of its enormous size, is in great demand amongst exhibitors of vegetables. It is a good keeper, and is much liked and recommended on account of its acceptable, delicate, and pungent flavour. Suitable for autumn or spring sowing. One hundred and fifteen First Prizes reported during the past few seasons. Price 6d., 1s., 1s. 6d., and 2s. 6d. per packet; 3s. 6d. per ounce.

Superb large specimens of this variety were much admired in Three Gold Medal and Two Grand Prix Collections at the Franco-British Exhibition, 1908.

Carters 237, 238, & 97, HIGN HOLBORN, 1.0NDON .- 1900

Photographed and Copyrighted by J. C. & Co.

#### CARTERS RECORD ONION.

Carters Record Onion increases in favour each season, and is already exceedingly popular. It can be sown either in the autumn or spring; but if large bulbs are desired, autumn sowing is recommended. It will be remembered that a specimen, illustrated in the Gardening World, turned the scale at 41 lbs.; this was probably the heaviest Onion ever grown.

We regret we cannot find room in this Catalogue for the large number of letters which reach us every season regarding successes with this grand Onion. Here are two that have come to hand recently:—
"I grew Record Onions last year up to 2½ lbs. in weight."—Mr. O. Claridge, Oundle, January 24th, 1903.

"I grew over 13 tons of Record Onions from the ounce of seed I had from you last year."—Mr. Henry Spice, Market Gardener, Boston, February 3rd, 1908.

Price 6d., 1s., 1s. 6d., and 2s. 6d. per packet; 3s. 6d. per ounce.

We hold records of 331 First Prizes having been gained by Customers. Prominently staged in Three Gold Medal and Two Grand Prix Collections of Vegetables at the Franco-British Exhibition, 1908, very large specimens of this variety were much admired.

GIANT LEMON ROCCA, 6d. and 1s. per packet; 1s. 6d. per ounce.

The Cultivation of Onion.—The ground cannot well be too rich for this crop, nor the soil in too fine a condition. February and March are the chief seasons for sowing. The soil must be made firm before the operation is undertaken in either beds or drills.

The seed should be sown thinly and covered lightly, the drills 12 inches apart, and the young Onions thinned out to about 6 inches apart, according to the variety. In very dry weather a good watering is very beneficial. Growers of Onions for exhibition generally transplant, and this is also a sure means of checking the onion grab, so troublesome in some districts. Some of the larger growing varieties are generally sown in autumn and transplanted in spring, when under fair conditions enormous exhibition specimens are obtained.

Carters > 37, 238, & 97, High Holborn, London. - 1909.

Photographed and Copyrighted by J. C. & Co.

#### CARTERS CRESTED BOUQUET PARSLEY.

A DISTINCT SUPERB PARSLEY,

Carters Crested Bouquet (see Photograph).—A Parsley of very attractive appearance, both in the garden and on the table; of very dwarf compact growth, all its strength being thrown into the exquisite curls of its leaves, giving it a pretty crested appearance; without doubt the most perfect variety in cultivation.

Price 1s. and 1s. 6d. per packet; 2s. 6d. per ounce.

THE ROVAL HORTICULTUAL SOCIETY'S report of last season's trial at Wisley reads:—"Carters Crested Bouquet Parsley. A beautifully deep eurled variety of sturdy, compact habit."

Carters Fern-Leaved Parsley.—Exquisitely perfect in form and colour; quite fern-like, and highly ornamental; for garnishing purposes it is ideal.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

# Carters Parsleys gained Three Awards of Merit, R.H.S., 1908.

The Cultivation of Parsley.—Sow the seeds thinly in beds any time from February until the end of June. In dry seasons it is an advantage to water the beds, as the seeds will sometimes lie a long while dormant.

Casters 237, 238, & 97, HIGH HOLBORN, LONDON 1909.

Photographed and Copyrighted by J. C. & Co.

CARTERS PERPETUAL PARSLEY.

**Carters Perpetual** (see Photograph).—A distinct and valuable curled variety that does not annually run to seed. It has stood with us upon the same land for four years before seeding.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Carters Emerald Green.—Award of Merit R.H.S., 1908. This excellent stock of Parsley will soon become popular, and was picked out by the Committee of the R.H.S., 1908, as being worthy of an Award of Merit. The colour is of a very rich deep green; habit taller and more branching than our celebrated *Champion Moss Curled*; it is also very quick in developing and should prove of great value to market growers.

Price 6d. and 1s. per packet; 1s. 6d. per ounce.

Carters Champion Moss Curled,—A very close, handsome Parsley; both useful and ornamental.

Price 6d. per packet; 1s. per ounce.

Carters Curled.—Compact and hardy; beautifully curled ... per packet 3d. & 6d. o 10

Covent Garden Garnishing.—A free-giving variety for market work per packet 3d. o 6

CARTERS MALTESE PARSNIP.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. 1909.

#### CARTERS MALTESE PARSNIP.

A SUPERB GIANT PARSNIP FOR EXHIBITION OR TABLE USE.

Carters Maltese (see Photograph). — WE HOLD RECORDS OF 198 FIRST PRIZES HAVING BEEN TAKEN DURING THE PAST FEW SEASONS.

We are confident in stating that this highly selected strain cannot be surpassed, either for size or flavour; the roots which attain to a very large size being quite as tender and sweet flavoured as most varieties which do not reach one-half the size.

Price 3d. and 6d. per packet; 9d. per ounce.

"Your sceds turned out splendidly last year; I had wonderful crops, some of the *Mallese* Parsnips weighed 4 lbs. 2 ozs. each and were quite sweet and succulent, not a bit strong in consequence of the size."—Mrs. Phillips, Rathfarnham.

Per packet—s. d. Carters Long Parsnip.—Fine variety, of

good medium size ... ... 3d. & o 6
The Student.—Extremely delicate flavour.

3d. & o 6

The 6d. packets of above are about 1 ounce each.

The Cultivation of Parsnip.—Sow the seed early in March as soon as the season will permit. The ground should be well manured and deeply trenched; the drills about 15 inches apart, and the plants thinned out the same distance apart.

Photographed and Copyrighted by J. C. & Co. REDUCED IN SIZE.

CARTERS HOLBORN MARROW PARSNIP.

# MARROW PARSNIP.

A SWEET DELICATE-FLESHED VARIETY.

Carters Holborn Marrow (see Photograph).—A truly refined Parsnip. When lifted it leaves the ground clean, smooth, and well shaped. It is not so large in growth as our Maltese, but its flavour is unusually marrow-like and delicate. Our picture very inadequately depicts its merits.

Price 3d. & 6d. per packet and 1s. per ounce.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at the Experimental Grounds, says:—
"Roots thick, handsome, and not too large, but just the size and shape a Parsnip should be."

"The *Holborn Marrow* Parsnip is the most delicious I ever tasted, and it deserves all you say about it."—
J. FREEMAN, Esq., Chard, February 26th, 1907.

"Please send me your Guinea Collection of Vegetable Seeds, same as last year, which were very satisfactory."—A B. Leigh, Esq., Bewdley, January 22nd, 1907.

"Please send an Exhibitor's Box of Vegetable Seeds. I was very pleased with the result of last year's box."—E. P. COLLETT, Esq., Hale, January 11th, 1907.

"Last year I took First Prize for a collection of Vegetables; Second, Carrots; Third, Turnips; First for Mammoth Beefheart Cabbage; and Second for Searlet Runner Beans."—Mr. F. DAKIN, Sutton Bridge, March 7th, 1907.

BY APPOINTMENT.

Messrs. James Carter & Co. have much pleasure in announcing that they have had the honour of receiving the Royal Warrant of Appointment to

#### HIS MAJESTY THE KING OF SIAM.

They feel sure that their patrons will feel pleased to know that their seeds have done so well in His Siamese Majesty's gardens.

As is their custom when despatching seeds through the tropics, great care was taken in exhausting the dampness not only from the seeds themselves, but also from the packing paper before being finally placed in hermetically scaled tins.

By this special patent process of their own the heat and moisture of the tropics is negatived, and the germ lies dormant until the tin is unpacked and the seed sown.

FURTHER PARTICULARS OF SEEDS FOR ABROAD see Page 237.

We have offered a selection of choice Garden Peas with so much success during the past few seasons that we again quote the group as improved and representing the best collection calculated to produce Peas for five months, if sown at varying periods, during the spring and summer. It would be difficult to give precise dates for putting the seed into the ground, as so much depends upon soil and situation.

Successional sowings of these Peas should be made at any time between the dates named.

large pods, and is as early as the small white round varieties; the demand increases each year; of splendid flavour. (See Catalogue, page 71.)  CARTERS DAISY. Carters Eight Weeks proved again to be the earliest Pea of all, in our Trial Grounds last year.

CARTERS EIGHT WEEKS.—The Earliest Pea we have ever grown. A very hardy Marrowfat, growing 15 inches high, and possessing all the good points of the best type of American Wonder, which was one of its parents. As both a forcing and early border variety it must become a boon to gardeners whose demands are heavy early in the senson. The seed is slightly dented, and of the same colour as its other parent. William the First. The pods are freely produced, and well filled with sweet-tasting peas. It is a splendid forcer.

Price 2s. per pint, 6d. and 1s. per packet.

Carters Forcing Pea.—A valuable Marrowfat Pea for under-glass culture. Its stocky growth is rarely more than I foot in height. It commends itself not only to professional gardeners who are required to produce Peas nearly the year round, but also to amateurs having a greenhouse or vinery doing practically nothing through the winter months, and who can, with this sturdy Pea, raise supplies for their table very early in the year.

Price 1s. 6d. per pint, 2s. 6d. per quart.

Carters 237, 238, & 97, High Holborn, London. - 1909.

# NEW

#### CARTERS "GIANT" LIGHTNING and CARTERS "GIANT" BLUE EXPRESS PEAS.

It is now many years since our House first introduced Carters Lightning (white round) and Carters Express (blue round), two Peas which soon became popular as the earliest of the white and blue round section.

We now have much pleasure in introducing (after several years' patient labour) the above magnificent Peas, "Giant" Lightning and "Giant" Express. There is no doubt that these types will speedly displace the smaller podded varieties, as in addition to the increased size of pod the haulm is stronger, the cropping properties are much heavier, and the flavour is superior to the older varieties.

In large establishments where Peas are required very early these grand "Giant" introductions will be much proposed as it is well known that the round Peas are required very early these grand "Giant" introductions will be much

appreciated, as it is well known that the round Peas are hardier and generally can be sown earlier than the wrinkled marrowfat varieties.

Carters "Giant" Lightning (see Photograph).—The new large-podded early white round Pea. Height, 3 to 4 feet. 1s. 6d. per 3-pint.

Carters "Giant" Express (identical in size with "Giant" Lightning. See Photograph above).—The

new large-podded early blue round l'ea. Height, 3 to 4 feet. 1s. od. per 1-pint.

Carters 237, 238, & 97, High Holborn, Lundon.—1909.

NEW

# The most wonderful First Early Pea of the Season. CARTERS ADVANCEMENT. (Daisy × American Wonder.)

For many years past we have been crossing and selecting peas at our experimental grounds with the idea of producing a variety with pods as large as our well known *Daisy* and as early as *American Wenter* or *William Hurst*, and we have now great pleasure in bringing to our customers' notice this really grand introduction, marking as it undoubtedly does the most notable advance of recent years in the early dwarf section.

The photograph was taken of comparative sizes as grown in our experimental grounds, 1907; the superiority in size is strikingly apparent, and when the robust habit and podding qualities of both parents are fully borne out it will be at once recognised that our claim as to advancement is fully justified.

Visitors to our Trial Grounds for the past three or four seasons have been much struck with this pea, which has been under Seedling No. 201. The Haulm is about 18 inches.

Price 28. per half-pint.

# CARTERS INTERNATIONAL PEA.

(For description see opposite page.)

Carters 237, 238, & ,7, HIGH HOLBORN, LONDON.—1999.

### NEW PEAS.

### EACH OF WHICH GAINED AN AWARD OF MERIT, R.H.S., 1908.

NOVELTY.

**Carters International** (see *Photograph*). Award of Merit, R.H.S., 1908.— This magnifieent Pea is the result of a cross between our well-known *Early Morn* and *Duke of Albany*. It is quite distinct both in shape of pod and habit; the pods are of a

rich deep green, containing 11 Peas of excellent size and flavour; this is undoubtedly the largest curved podded Marrowfat Pea at present offered to the public, and we are anticipating a large demand. Second early. Height, 5 to 6 feet.

Pods of this variety (under Seedling No. 211) were exhibited at the Royal Agricultural Society's Show at Newcastle, and at the Royal Horticultural Society's Show at Holland House during the past summer, and attracted much favourable attention.

Price 15. per packet (about 150 seeds). Stock limited.

We give a few reports on Carters International Pea (Seedling No. 211):-

The Right Hon. The Earl of Sandwich's Head Gardener says:—"A marvellous cropper; flavour nothing to be desired."—Mr. HANSFORD, The Gardens, Hooke Court, Beaminster.

The Right Hon. Viscount Midleton's Head Gardener says:—" Haulm extra dark, sturdy, very stout stems, pods large and handsome, hanging in pairs, average nine in pods; a great improvement on the old stock of *Duke of Albany*. Fine cropper."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

The Right Hon. Viscount Portman's Head Gardener says:—"This is an excellent second early variety growing about six feet high; the haulm is robust, and plant a good constitution; foliage large, light green mottled; pods large, after the *Duke of Albany* type, but earlier. A tall Pea of first-rate quality."—Mr. Prinser, The Gardens, Buxted Park, Uckfield.

Sir Edmund Loder's Head Gardener says:—"A very fine second early grown after the style of Early Morn, but is infinitely better: it produces fine pods of most delicious Peas; is certain to become a general favourite."—Mr. W. A. Cook, The Gardens, Leonardslee, Horsham.

"A fine bearer and a strong grower; the flavour of the Peas should attract particular notice as the best of that class."—Mr. James Lawson, The Gardens, Horticultural College, Swanley.

NOVELTY.

Carters Harvestman. Award of Merit, R.H.S., 1908— This grand Pea, which is a cross between Express and Duke of Albany (Seedling No. 214), possesses all the qualities of Duke of Albany, but the pod is distinct in shape, more regular in growth, not

quite so tall, and altogether superior. Its appearance and eropping qualities are far ahead of either *Duke of Albany* and *Duchess*, or any of a similar class, and we are confident that there is a great future before it. For market or garden it is a most profitable Pea. Main crop—Height, 5 feet.

Price 1s. per packet (about 150 seeds). Stock limited.

NOVELTY.

**Carters Snowdrop.** Award of Merit, R.H.S., 1908. A cross between *Early Morn* and *Extress* (Seedling No. 208). This first early Pea can best be described as an early *Ne plus ultra*, having pods similar in shape and colour to that variety; it is a few days later than

our Early Morn, growing rather tailer, but possessing the robust constitution of its other parent (Express); for early sowing we can strongly recommend. First early. Height, 4 feet.

Price 1s. per packet (about 150 seeds). Stock limited.

NOVELTY.

Carters Evergreen Delicatesse. Award of Merit, R.H.S., 1908.—A larger and deep green podded selection of our well-known *Delicatesse (Petit Pois)*, which we introduce to our eustomers' notice as being selected for its regular and heavy cropping properties.

Second early wrinkled. Height, 21 feet.

Price 2s. 6d. per pint.

CARTERS EARLY MORN PEA.

A superb First Early Giant Marrowfat. For full particulars, see opposite page.

Carters Early Morn Pea (see Photograph opposite).—This grand introduction maintains its position as one of the best early Marrowfat Peas ever raised. Although so early the seed should not be sown until the soil is in a fit state to receive it in April, as it is a rapid grower. The pods are very large and well filled, and are often ready to pick during June. Height, about 3 feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

Carters Blue Express.—A re-selected stock of an early round-seeded variety and a very productive bearer, the pods well filled with fine flavoured Peas, of a distinct colour when boiled. Height,  $2\frac{1}{2}$  feet.

Price 1s. 9d. per pint, 3s. per quart.

**Carters Daylight.**—A fine Marrowfat, as early as *Lightning*, with exhibition pods. Height,  $2\frac{1}{2}$  feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

Carters Lightning.—A re-selected stock of the earliest white round-seeded Pea. Height, about 2½ feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

- Carters Diamond.—An extra early White Wrinkled Gem, as early as William Hurst, with larger pods, and very prolific. A grand Pea for border work. Height, 1 foot.

  Price 1s. od. per pint, 3s. per quart.
- Carters Dwarf Favourite.—For gardens where space is an object this is the Pea to grow. It has rich deep-green pods well filled with delicious Marrowfat Peas. Very prolific. Height,  $r_2^1$  foot.

Price 1s. 9d. per pint, 3s. per quart.

- Carters Superior.—A highly-selected early blue-seeded Pea, with large pods. Closely follows Blue Express. An excellent Pea for market work. Height, 4 feet.

  Price 1s. 6d. per pint, 2s. 6d. per quart.
- Carters Springtide.—A first early Marrow, as early as *Lightning*, with dark green well-filled pods. Height,  $2\frac{1}{2}$  to 3 feet.

Price 1s. 6d. per pint, 2s. 6d. per quart.

For our Collection Green Peas-June to November-see page 64.

### WE WERE AWARDED THE SILVER CUP

By the Royal Horticultural Society at their Summer Show at Holland House, for a fine Collection of Culinary and Sweet Peas.

Extract from the Gardeners' Chronicle of July 11th, 1908. — Messrs. James Carter & Co., High Holborn, London, surrounded their pretty exhibit of flowers with some sixty-six dishes of edible Peas, including many evidently fine samples from crosses of well-known varieties, but the seedlings were shown under numbers. Of named varieties capital samples were staged of Quite Content, Telephone, Glassone, Early Morn, Alderman, Edwin Beckett, Stratagem, Standard, and others."

Carters 237, 238, & 97, High Holborn, London. - 1909.

CARTERS MAYFLOWER.

A superb Dwarf First Early Marrowfat Pea. For full particulars, see opposite page.

Carters 237, 238, & 97, High Holborn, London.—1909.

CARTERS MAYFLOWER.—A new and prolific first early Marrowfat Pea.

A cross between *Daisy* and *William Hurst*. This is a grand thing, with long pointed pods twice the size of *William Hurst* and much more freely produced. The bine is robust, possessing the same healthy character as its most famous parent the *Daisy*. Seed wrinkled. Height, 18 inches. Everyone should try this fine introduction, which is but very inadequately shown in the photograph.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

### CARTERS LITTLE MARVEL PEA.

A first early green wrinkled Marrow. Height, 18 inches. An improvement upon the *English Wonder* class. A grand cropper; strongly recommended.

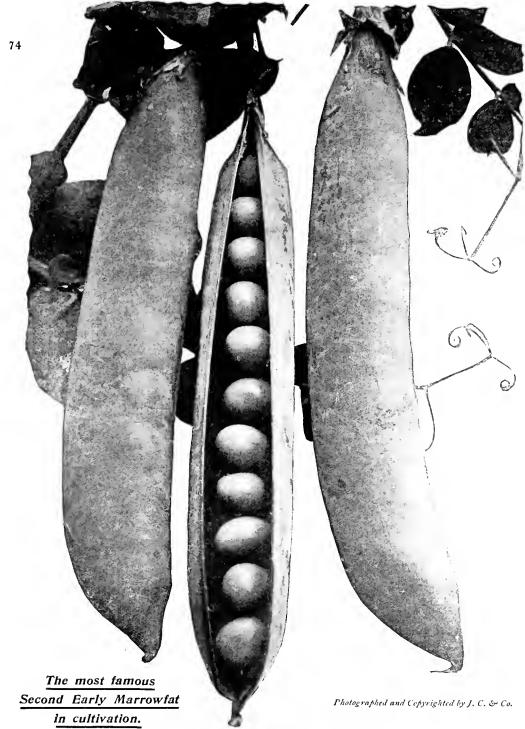

Price 1s. 6d. per pint, 2s. 6d. per quart.

"This year our earliest Pea in the open ground was Carters Little Marvel, which is quite a fortnight earlier than any of the lirst earlies. I should add that all sorts were grown at the start in 4½-inch pots in cold frames. The seed was sown in December, and the seedlings planted out the first week in March on warm borders. We gathered Little Marvel on June 8th, and had the weather been favourable there would have been good pools at the end of May, but the severe frost early in that month actually killed the first flowers. This variety is a great gain in every way when forced, as when fit for use, in spite of its maturing so quickly, it is a fair-sized pod and well packed with peas. There are five to seven on an average in each pod, and, unlike some of the older early Peas, it is of good flavour. The plant crops enormously, and this so early in the season is worth noting. The Little Marvel was raised from the older but well-known William Hurst and that fine table Pea Daisp, the latter being noted for quality and as a valuable second early Pea. Marvel differs from both in this respect; the pods are rounder than those of Daisp, and larger than William Hurst. It should also make a profitable market variety, as it is only 18 inches high, robust, and crops freely. The seed, which was sown late in February in the open, produced plants that bore only a few days later than that grown as described above, but this is readily accounted for by the first blossom escaping injury by frost, being a little later from seed sown February 24th. We gathered pods on June 16th and freely on June 18th, and the plant is covered to the base. For gardens limited in size the above variety should become a great favourite."— G. WYTHES, in The Garden, July 14th, 1906.

Carters 237, 238, & 97, High Holborn, London.-1909.

CARTERS DAISY PEA.

The finest Second Early Marrowsat. Carters 237, 238, & 97, High Holborn, London.—1909. For full particulars, see opposite page.

CARTERS DAISY PEA (see Photograph on opposite page).—First Class Certificate, Royal Horticultural Society.—This grand dwarf Marrowfat Pea has been before the public for some years, and still stands at the head, as confirmed by the great independent trial of Peas conducted by the Royal Horticultural Society of England in 1902. Their experiment comprised over 80 varieties, and CARTERS DAISY gained the First Class Certificate given by the Society. CARTERS DAISY PEA is an early main crop, growing about 15 inches high. The haulm is very robust, and the crop of giant, well-filled pods of good colour is enormous.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

Mr. J. Mayne, of Bicton Gardens, Devonshire, in the Gardeners' Chronicle writes:—"Carters Daisy Pea.—So many satisfactory accounts have been given in these pages of this variety of Pea that it may seem superfluous again to write its praise, but having grown it for several seasons I can confidently recommend it as one of the best second early dwarf varieties at the present time. It is of robust growth, reaching nearly 3 feet in height last year, but in ordinary summers the plants do not get much above 2 feet, and are literally crowded with fine pods nearly 6 inches long, each containing from 8 to 10 fine Peas of excellent flavour. I have been much impressed by the length of time the pods will hang without getting dry, having saved the crop for seed. The pods are usually borne in pairs, and the raisers are certainly to be congratulated upon giving us such a good Pea. I advise those who have not yet grown this Pea to procure a quart of seeds from the raisers and sow as soon as the state of the soil will allow, and I will youch for it they will not be disappointed."

Carters Edward VII.—In the trials of the Royal Horticultural Society we were granted an Award of Merit for this superb early Marrow Pea. It is a first-class representative of the forward section of Marrowfats, but has No Plus Ultra shaped pods of a beautiful lustrous green, filled with fine, large, sweet-cating Peas. Height, 3 feet.

Price 1s. 6d. per pint, 2s. 6d. per quart.

Carters King of the Earlies.—This early Pea is a cross between our well-known Daisy and another first early sweet Marrowfat, and was raised at the Royal Gardens, Windsor. It produces a robust haulm from 15 to 18 inches in length, covered with giant pods.

Price 18. 9d. per pint, 38. per quart.

Carters Pride of the Market.—A fine main crop blue Marrowfat Pea, belonging to the same family from which our *Stratagem* was selected. Being a strong grower it requires to be thinly sown. Height, 1½ to 2 feet.

TRADE MARK REGISTERED.

Price 1s. 3d. per pint, 2s. per quart.

Carters Seedling.—A superior main crop Marrow Pea, the result of two distinct crossings, its parents being the well-known and valuable Peas, Stratagem, Queen, and Autocrat. Height, 3 feet.

Price 28. per pint, 38. 6d. per quart, 6d. and 1s. per packet.

Carters Majestic.—A splendid mid-season Marrowfat Pea; this highly selected strain possesses splendid cropping properties and is valuable alike for the table and exhibition. Height, 2 to 2½ feet.

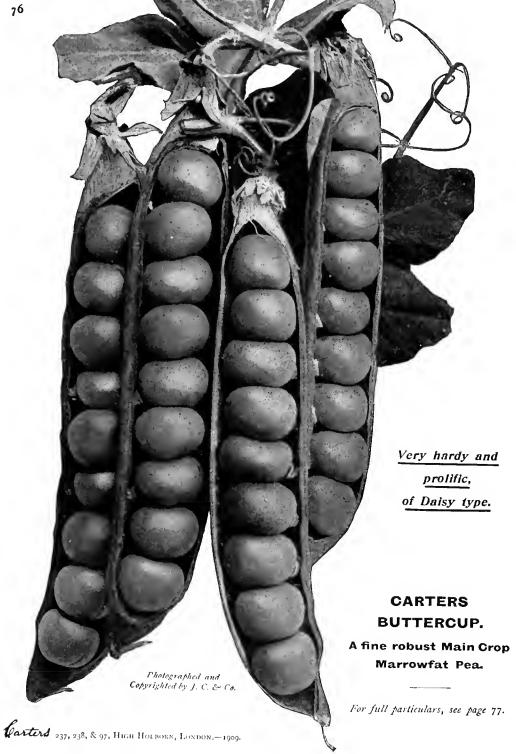

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

Carters Torpedo.—This grand Marrow Pea supplies the long-felt want of a first-class table Pea that will come into bearing between Carters Early Marn and the original Duke of Albany, which it imitates in all its best characteristics, but is 12 inches shorter in the haulm and seven days earlier in maturing. The pods, which are dark green, are borne upon strong branching foliage, and contain from 8 to 10 enormous Peas, very sweet when cooked. Height, 3½ to 4 feet.

Price Is. 9d. per pint, 3s. per quart.

We were awarded the Silver Medal by the Irish Royal Horticultural Society for a Collection of Choice Vegetables and Flowers.

NOTICE .- For our Collection of Green Peas, June to November, see page 64.

carters buttercup pea (see Photograph opposite).—Best described as a hardy type of Daisy Pea. A very fine and robust main crop Pea, with long, handsome, well-filled pods. Height, about 2 feet. Pods rich green, produced in pairs, averaging 10 peas in each. We have counted as many as 22 pods on a single plant ready to gather at one time. May be described as a nearly main crop, with particularly robust habit. The large, deep green seed, which is almost round, retains the sweet Marrowfat flavour when cooked. Peas having seed of this character are well adapted for cold, wet, and exposed situations.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

From the Gardeners' Magazine.

"Carters Buttercup, a type of Daisy Pea, but a week or more earlier, is a very fine, robust form of Pea, bears freely pods of great length and size in pairs; the pods are of a beautiful green, and the Peas are very rich. It has grown well this season, and very strong. Another variety which need not have sticks; the better if short sticks were used, as the foliage and pods are so heavy they ought to be kept off the ground."

From the Gardeners' Chronicle.

"Carters Buttereup is a grand cropper of dwart habit. I think I never saw so fruitful a dwarf Pea, the rows being quite a picture. The quality is good, and the pods large and well filled. For a garden where dwarf Peas are most appreciated no variety could be more profitably grown as a second early."

CARTERS DANBY STRATAGEM—Award of Merit, Royal Horticultural

Society.—A distinct improvement on the original *Stratagem*, having longer, straighter, and broader pods, very freely produced. The haulm is very robust, and extends to a height of  $2\frac{1}{2}$  feet, bearing a profusion of immense pods, many six inches in length, and frequently containing ten large full-flavoured Marrow Peas.

Price 25. per pint, 35. 6d. per quart, 6d. and 15. per packet.

The Royal Horticultural Society, reporting its trials at Wisley last season, says:—"Carters Danby Stratagem, F.C.C., July 7th, 1882. Stratagem is too well known to need any description. It produced its usual heavy crop."

For general hints on the cultivation of Peas, see fage 82.

### FRENCH PEAS.

Carters Delicatesse (Petit Pois).—This Pea has gained a great renown among the continental connoisscurs, who regard it as a delicacy. It is a second early wrinkled, with haulm about 3 feet; very prolific; long curved pods hanging in pairs.

Price 1s. 3d. per pint, 2s. per quart.

Carters Giant Edible Podded.—Our friends on the Continent have assiduously developed the Edible Podded Pea section, and have thus obtained a delicious vegetable not sufficiently well known in this country. The variety we now offer grows about 5 feet high, with very broad fleshy pods.

Price 1s. 9d. per pint, 3s. per quart.

NOTICE.-For our Collection Green Peas-June to November-see page 64.

Carters 237, 238, & 97, High Holborn, London .-- 1909.

CARTERS COMMONWEALTH PEA

A superb main crop Marrowfat (see opposite page).

Carters 237, 253, & 97, High Holliorn, London.—1922.

### POPULAR MAIN CROP MARROWFAT PEAS.

### Carters Commonwealth.

See Photograph on opposite page.

A grand selection from one of the latest types of Carters *Stratagem*, differing in several ways, notably the shape of pod, from Carters *Danby Stratagem*. It is a strong grower, and a prolific bearer of large exhibition pods, besides being a first-class table pea. It is also a good dry-weather pea. Strongly recommended. Height, 2 feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley last season, says:—"Carters Commonwealth. Height, 2½ feet. Haulm and pods pale green; pods in pairs averaging seven large sweet peas in a pod."

### Carters Model Telegraph.

A selection from our original *Telegraph*, which is well known. Very valuable as an exhibition Pea, on account of the size and fine dark colour of the pods. The seed is round and of a deep green colour, which is retained when cooked. The flavour is also of the sweetest. Height, 5 feet.

Price 1s. 6d. per pint, 2s. 6d. per quart.

### Carters Anticipation.

Anticipation grows to a height of about  $2\frac{1}{2}$  feet, and sown at the usual season it comes into bearing early in July. The foliage is of a medium shade of colour, the habit robust, with immense straight pods containing Peas of an exquisite flavour when cooked. A grand dry-weather Pea and resister of mildew.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

### WE WERE AWARDED THE SILVER GILT KNIGHTIAN MEDAL

FOE

The largest collection (250 varieties) of Culinary Peas ever exhibited, staged by us at Royal Horticultural Society's Hall, Vincent Square, Westminster, on July 24th, 1907.

Extract from the Gardeners' Chronicle of July 27th, 1907.—" Messrs. James Carter & Co., High Holborn, W.C., showed an exhibit of Peas, in all some 250 varieties. This very large collection was from their trial ground at Mortlake, and as all were sown on the same date (March 27th) it was of much educational value as demonstrating the season of each kind; some were yellow in the pod and others were just forming their seeds. Attached to each dish was a label affording information as to the season, habit, &c., of the variety displayed. The manner of staging was effective, for interspersed in the group were vases of Sweet Peas, and arches filled with the same flowers were arranged down the centre of the table. The large pods of Quite Content were conspicuous, and quite the largest in this extensive display. Other varieties that were especially noticeable in this display were Duke of Albany (re-selected). Stratagem, Carters Exhibition, Alderman, Gladstone, Dreadnought, Daisy, and Torpedo. Several scedlings of merit were also shown, and selected stocks of standard kinds."

Carters 237, 238, & 97, High Holborn, London. - 1909.

# CARTERS "QUITE CONTENT" MARROWFAT PEA. A GIANT-PODDED MAIN CROP.

Awarded the FIRST CLASS CERTIFICATE of the ROYAL HORTICULTURAL SOCIETY, 1906.

### Pods longer than any other Pea in cultivation.

This grand Pea, which has caused such a stir in the Horticultural world during the past season, is the outcome of a cross between Alderman and Edwin Beckett. In general character it resembles the former, but the pods are considerably larger than either parent. In our own trials it has amply demonstrated its wonderful superiority, and when exhibited in the open class at Shrewsbury, 1906, it easily secured the FIRST PRIZE, and was pronounced by leading experts to be without doubt the finest Pea ever seen. It is exceedingly prolific, and the pods hang mostly in pairs. Height, 5 to 6 feet.

### SOME HONOURS, FIRST PRIZES, AND REPORTS.

FIRST CLASS CERTIFICATE, ROYAL HORTICULTURAL SOCIETY.

FIRST PRIZE, GREAT SHREWSBURY EXHIBITION, 1906.

HIGHEST POSSIBLE POINTS IN CHAMPION PRIZE COLLECTION, SHREWSBURY, 1908, and prominently staged in

THREE GOLD MEDALS AND TWO GRAND PRIX COLLECTIONS, FRANCO-BRITISH EXHIBITION, 1908.

During the past few seasons this grand Exhibition Pea has taken 125 First Prizes at all the Important shows throughout the country.

His Grace The Duke of Portland's Head Gardener says:-."I have tried Carters Quite Content Pea, which is without doubt the largest podded Pea I know of."—Mr. JAMES GIBSON, The Gardens, Welbeck.

His Grace The Duke of Buccleuch's Head Gardener says:—"Carters Quite Content is a splendid Pea of first-rate quality. The pods are large, mostly in pairs."—Mr. Whytock, The Gardens, Dalkeith Palace.

The Right Hon. The Earl of Onslow's Head Gardener says:—"The Pea Quite Content is excellent in every way."—Mr. H. W. Blake, The Gardens, Clandon Park, Guildford.

The Right Hon. The Earl of Lathom's Head Gardener says:—"Carters Quite Content Pea is truly a magnificent Pea for exhibition and of excellent table quality."—Mr. B. ASHTON, The Gardens, Lathom House.

The Right Hon. Lord Poltimore's Head Gardener says:—"Fully maintains its high position, during the past dry season it was much in evidence on the show boards."—Mr. T. H. Slade, The Gardens, Poltimore Park.

Sir Edmund Loder's Head Gardener says: - "Carters Quite Content Pea is a marvel, a large cropper, and the admiration of all who see it."—Mr. W. A. Cook, The Gardens, Leonardslee.

The Right Hon. Viscount Portman's Head Gardener says:—"A tall-growing variety. Pods large and straight, containing from 10 to 12 seeds in each."—Mr. H. C. Prinsep, The Gardens, Buxted Park.

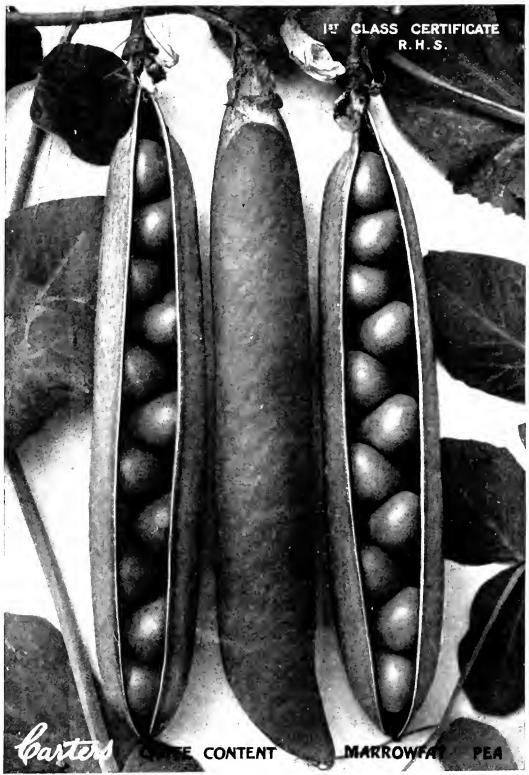

The Right Hon. Viscount Midleton's Head Gardener says:—Quite Content Pea, height 6 feet, haulm very strong and sturdy, robust in habit, pods very handsome, several in pairs, average 10 large green peas of delicious flavour. The name which it has been given is surely worthy of it and I don't know any variety that can touch it for general use or exhibition purposes."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

Price 3s. 6d. per pint, 2s. per ½ pint, 1s. per packet.

We would respectfully draw our customers attention to the following, which appeared in "The Garden." September, 1908:—

**Pea Quite Content.**—"The true and original Pea Quite Content, as sent out by Messrs, James Carter and Co., is a maincrop variety, height 6 feet, foliage and pod deep green, pod 7 inches to 7½ inches long, hanging mostly in pairs, and is quite distinct from all other Peas. We are requested to make this statement, as we are given to understand that a Pea, which has not all the claims of Carters Quite Content, has been widely distributed this season by others, either by accident or design, thereby causing much correspondence and annoyance to the growers and Messrs. Carter alike. Messrs. Carters Quite Content was distributed this season in their scaled packets, and has each year been carefully re-selected."

Carters 237, 238, & 97, High Holborn, London.—1909.

### POPULAR MAIN CROP MARROWFAT PEAS.

### Carters Model Telephone.

A re-selection for robustness and delicacy of flavour from *Telephone*, a main crop wrinkled marrow, which bears to-day a world-wide reputation. It is remarkably prolific, bearing large pods of very attractive appearance; for soils of a light nature we strongly recommend this variety. Peas wrinkled, 9 to 11 in a pod, delicious when cooked. Height, 5 feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

### Carters Daffodil Pea.

A dwarf and very prolific Marrowfat Pea with the highest possible commendations, being of the rich deep colour of the Stratagem type, and a decided improvement upon British Wonder and the new types of English Wonder. It is a first early of bushy habit, and about 18 inches, obviating the necessity for sticks, and rendering it serviceable for borders. Its pods are larger than any of the well-known Peas of the early dwarf class referred to above, while the quality and flavour of the pea is delicious.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

### Carters Dwarf Telephone.

The result of several years' work in the effort to get a Pea with all the excellent qualities of Carters *Telephone*, without its tall growth. Its height is 1½ to 2 feet; habit stocky, healthy, and vigorous, and remarkably uniform.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

### Carters Battleship.

The blunt-ended pod of this robust Marrowfat Pea is one of its peculiarities. The fine dark green pods, which hang in pairs, are filled with large Peas of a rich flavour and a bright green colour when served at table; the haulm is exceedingly strong, and stands both drought and mildew better than most others. Height, 5 feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

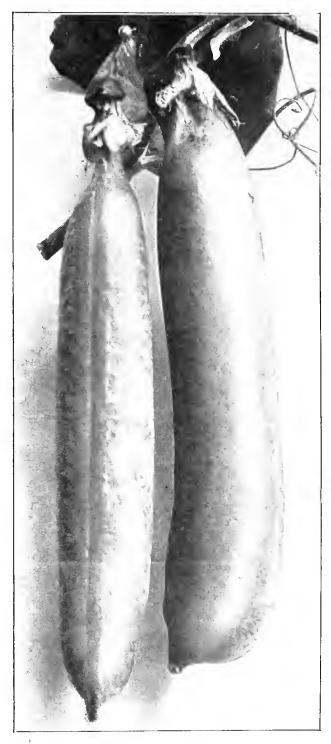

The ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley last season, says:—" Carters Battleship. Height, 5 feet. Haulm and pods pale green; pods in pairs; heavy crop."

### WE WERE AWARDED THE SILVER CUP

By the Royal Horticultural Society for a marvellous collection of Peas, comprising 206 varieties, July, 1906.

Hints on Cultivation.—Early round Peas may be sown out of doors any time from November onwards, but the spring is generally the season when the largest quantities of both Early and Main Crop Marrow Peas are put in, extending to June for the latest crops. They thrive best in ground that has been deeply trenched and manured for a previous crop; the seeds should be planted from  $1\frac{1}{2}$  to 3 inches deep, in either single or double rows, and the taller varieties must be staked when they are from 4 to 6 inches high; the tallest kinds should not be less than 6 feet apart in rows, and the dwarf varieties half this distance. Peas will stand a good deal of drought if the roots find their way into some nice rich material.

Carters 237, 238, & 97, High Holborn, London.—1909.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. - 1009.

# NEW LATE MARROWFAT PEA.

# CARTERS DREADNOUGHT.

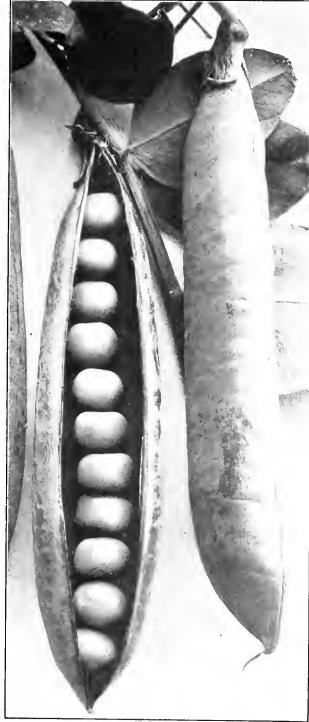

This remarkable Pea has been selected by us as a grand addition to the late Main Crop Section. It is the practice of our house to make comparative tests of all the new Peas introduced by growers both at home and abroad. After careful comparison we have failed to find a pea that pleases us more as a variety to come in between the Main Crops and the very late peas than *Dreadnought*. It has large bold pods well filled with Peas of delicious flayour.

We have been instrumental in introducing many Peas which have become standard varietics, such as Telephone, Telegraph, Stratagem, Pride of the Market, and Daisy, known all over the world, and we undertake to prophesy that this novelty is destined to take an equally permanent place, not only among amateurs, exhibitors, and connoisscurs at the table, but also as a profitable market Pea. Its large deep green well-filled pods. and its resistence to mildew and drought, are its distinguishing characteristics.

We have given it the name of *Dreadnought* at the suggestion of an esteemed horticulturist. Height, 3 feet.

Price— 4s. per quart, 2s. 3d. per pint, and 1s. per packet.

1phh

Photographed and Copyrighted by J. C. & Co. Co. 237, 238, & 97, HIGH HOLBORN, LONDON,—1999.

### Carters Exhibition. --

Main crop. Height, 5 feet. Seed large, green, and wrinkled. A magnificent Pea, the result of a selection from Carters *Model Telephone*, the selection having been made for the purpose of obtaining an Exhibition Pea possessing all the good points of that celebrated variety, but bearing even a larger and richer coloured pod.

We claim that in every respect we have been successful, this superb variety bearing immense rich deepgreen pods, perfect in shape, and well filled with large green Peas of excellent flavour, being unequalled for Exhibition purposes, as also for general garden work.

Price-

2s. per pint, 3s. 6d. per quart,6d. and 1s. per packet.

Twelve First Prizes
reported
last Season.

For our Collection of Green Peas, June to November, see page 64.

# POPULAR MAIN CROP AND LATE MARROWFAT PEAS.

- The Gladstone.—Carters re-selected stock—a fine late variety, bearing long siekle shaped pods, dark in colour, very prolific. Fine for exhibition. Height, 3½ feet.

  Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.
- Carters Dwarf Monarch.—A deep green wrinkled Marrow, with a square ended pod of the *Autocrat* type, but earlier; producing pods in pairs which contain eight and nine peas of a splendid deep green colour, and of finest flavour; wonderfully prolifie. Height, 2 feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

- **Carters G. F. Wilson.**—An old and popular late Marrow, with a robust and healthy growth. Standing all sorts of weather changes better than some others. Height, 3 ft.

  Price 1s. 6d. per pint, 2s. 6d. per quart.
- Carters Improved Omega.—A highly selected long-podded type of this popular Pea. Height, 2 to  $2\frac{1}{2}$  feet.

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

Carters Re-selected Duke of Albany.—A great advance on the original stock, the pods being straighter and longer, and should be grown by all who know the original variety. Height, 5 feet.

THE ROYAL HORTICULTURAL SOCIETY, reporting its trials at Wisley last season, says:—"Carters Duke of Albany Re-selected. Duke of Albany received an A.M., July 5th, 1901. This is a fine true stock of this now well known excellent variety."

Price 1s. od. per pint, 3s. per quart.

- **Glory of Devon.**—Award of Merit, Royal Horticultural Society. A Marrowfat Pea of remarkable growth and enormous pods. Height, about 3 feet.
  - Price 1s. 9d. per pint, 3s. per quart.
- **Ne Plus Ultra.**—Carters re-selected. This is a highly selected stock of an old and favourite variety, it is exceedingly prolific, bearing blunt ended pods with peas of very fine flavour. A splendid Pea for late crops. Height, 6 feet.

Price 1s. 6d. per pint, 2s. 6d. per quart.

For Carters Selection of Green Peas, June to November, see page 64.

Monthly Operations in the Garden, with Hints on the Cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

Photogra, hed and Copyrighted by J. C. & Co.

### CARTERS MICHAELMAS PEA.

The latest Garden Pea in cultivation.

For full particulars, see opposite page.

CARTERS MICHAELMAS PEA (see Photograph on opposite page).—This grand Pea quite oversteps the boundary hitherto set by the times and seasons, and is absolutely distinct. Late varieties of Peas of past fame have been late mainly by reason of their strawy character. The constitution of Carters Michaelmas Pea is not run through in straw, but we have fixed a dwarf bushy growth of 2½ feet, which holds back its natural force and throws it into the pods; consequently, while being very prolific, its colour in pod is of the deepest green, and its pods are large and well filled. We have proved this Pea to possess a reserve of strength which will enable it to resist the drought and the mildew to a degree hitherto unknown in a Pea.

THE ROYAL HORTICULTURAL SOCIETY, in their report of trials at Wisley, say:—"Carters Michaelmas. Height, 3½ feet; haulm and pods very dark green; very sturdy; pods in pairs; heavy crop."

Price 2s. per pint, 3s. 6d. per quart, 6d. and 1s. per packet.

### GENERAL LIST OF MAIN CROP AND LATE PEAS.

### COLLECTIONS OF PEAS.

Recommended to produce  $\alpha$  good succession of fine-flavoured Peas, as they include only approved sorts, which have been thoroughly tested in our Trial Grounds.

### 88 SIX DISTINCT AND VALUABLE RADISHES.

For full description, see opposite page.

### SIX NEW AND DISTINCT RADISHES.

### All invaluable for early frame work.

(See Photographs on opposite page.)

### No. 1.—Carters Extra Early Scarlet.

Splendid deep rich colour, very quick growing, having small top; flavour sweet and delicate.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

### No. 2.—Carters Early Round White.

A decided acquisition, the flavour of the small tender roots being as fine as one could possibly wish.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

### No. 3.-Carters Early Round White Tipped.

An exceedingly quick-growing globe-shaped Radish, with a showy appearance in the dish, and a peculiar nutty flavour.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

### No. 4.—Carters Delicatesse.

An attractive breakfast dish. Its peculiar shape, erisp flesh, and nutty flavour give this fine selection a distinct advantage. Suitable for forcing.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

### No. 5.—Carters Forcing Olive-shaped.

This radish has been specially selected for its bright attractive colour, crisp texture, and fine flavour. It produces very little top and matures with remarkable rapidity.

Price 8d. per ounce, 3s. 6d. per pint, 3d. and 6d. per packet.

### NEW No. 6.—Carters Early Favourite.

This Radish matures with marvellous rapidity, and as a first early forcing variety is unequalled; attractive alike to the eye and the palate.

Price 6d. and 1s. per packet.

Attractive bunches of the above varieties of Radishes formed part of Two Grand Prix and Gold Medal Exhibits at the Franco-British Exhibition, 1908.

Monthly Operations in the Garden, with Hints on the cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

### RADISH.—Continued.

### Carters Long Forcing Scarlet (see Photograph).

A great advance on the old varieties. The very best long scarlet Radish for early work. Fresh, erisp, and tender.

Price 3s. 6d. per pint, 8d. per ounce, 3d. and 6d. per packet.

**The lcicle.**—So named because of its unique transparent whiteness, attractive appearance, and freshness early in the season. The earliest long white Radish, of extraordinary crispness and tenderness. We offer this as a companion variety to our Long Forcing Scarlet.

Price 3s. 6d. per pint, 8d. per ounce, 3d. and 6d. per packet.

**Carters French Breakfast.**—There are so many inferior strains of this very popular Radish (introduced by our house from Paris years ago) that we recommend all connoissenrs of a fine appetising breakfast dish to grow only the real original type.

Price 2s. 6d. per pint, 6d. per onnce, 3d. per packet.

**Carters Triumph.**—A new turnip-shaped Radish, mottled and striped. This is an altogether novel feature in Radishes; they are prettily mottled and splashed with carmine on delicate white flesh, which makes them, when on table, as attractive to the eye as they are to the palate.

Price 1s. per ounce, 3d. and 6d. per packet.

			Per quart,	Per pint, s. d.	Per 2 07.	Per pkt.

### RADISH—(Continued.)

### SUMMER AND WINTER VARIETIES.

For particulars of new early Radishes, with Photographs, see pages 88 and 89.

- Carters Crimson Marble.—A choice selection, symmetrical in form; flesh white, crisp, and solid; colour rich vermilion-crimson; fine mouse-tail root.

  Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.
- 8 inches, and several inches in thickness. For exhibition purposes it is invaluable.

  Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters London Long Red.—The particular fancy of the London Markets. Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

White Turnip.—Fine-flavoured	. ;	36	2	0	0	6	0	3

### WINTER VARIETIES.

Turnip-Shaped China.—A scarlet variety of the *China Rose* Winter Radish. It may be sown at intervals from spring until autumn, and the roots obtained from late sowings can be kept in store for winter consumption. The root is round, of a fine scarlet colour,  $2\frac{1}{2}$  to 3 inches in diameter; flesh pure white, of an agreeable and mild flavour.

Price 6d. per ounce, 3d. per packet.

Long Black Spanish.—For autumn sowing; large and distinct. Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

### China Rose, Oval Shaped.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

The Cultivation of Radish.—Sow on a moderate hot-bed in January, February, and March; also every month during summer in well-prepared places in the open. The Radish thrives best when quickly grown in a rich deep moist soil. A sowing in frame, or on a warm border in October, is desirable for winter use. Water thoroughly during hot weather.

Per oz.—s. d.

Carters Mammoth Salsafy (or Vegetable Oyster) ...6d. per packet I Carters Improved Scorzonera ... ... ... ... ... ...6d. ,, I c

These vegetables are much liked by some who interest themselves in the culture of things not found in every garden.

Cultivation.—The ground should be well trenched and manured during Autumn. Sow during March and April in drills about 15 inches apart. Thin out the plants to from six to eight inches apart for Salsafy but allow rather more room for Scorzonera. The roots should be taken up in November and stored in the same manner as Carrots.

Carters 237, 238, & 97, 111611 HOLBORN, LONDON. 190).

Everyone should enjoy the pleasure of a salad several days a week, at all events during the summer season, with but trifling expense. It is a wholsome addition to more substantial diet, rendering it grateful to the palate, and it is a pity that it is so rarely brought to table in an average household. We will enumerate a few of the almost unknown salad plants, with some notes on their cultivation.

American Land Cress may be sown at any time during spring and summer out of doors. It is a useful variety tasting something like water cress,

Price 6d. per packet.

Beet.—See fages 12 to 14.
Celeriac, Carters Improved (or turnip-rooted Celery).—Pure white root, refined flavour. It is becoming popular in this country, owing to the more frequent contact nowadays of the English people with continental dishes. Seeds should be sown in pans in March, and the plants set out in shallow trenches to mature.

Price 6d. per packet.

Chervil is used for seasoning soups and mixing in salads. It is grown from seed sown in spring and in summer for successional crops. The soil should be rich and light, and the bed 42 fect wide, with an alley on each side. Sow seed in shallow drills across the bed, 9 inches apart, and rake over the surface. When the leaves have grown an inch or two, cut off for use as required. Price 6d. per packet.

Chicory.—The unijority of people know Chicory as an adulterant of Coffee, but few are aware of the part it plays in the salad bowl, to which it adds a pleasing flavour. Chicory is so easily grown and so useful, that it should receive more attention from amateurs who desire to grow salads. This plant is sown in late spring in the open ground, and thinned out to about a foot apart to grow through the summer, well watered in dry weather. With the change to a colder season, the leaves decay and nearly all drop off. The roots are then lifted, and a few at a time placed in boxes of rich sandy soil, leaving crown well above the surface. After a good watering these boxes are stood in a perfectly dark place, and in a few weeks, according to the heat, some nicely blanched leaves will be fit to gather. More roots, kept in a cool place until wanted for bringing along in heat, may be similarly treated.

Price 6d. per packet.

Whitloef is a distinct variety of Chicory, largely grown in the suburbs of Brussels, and chiefly noted for the quality of its leaves.

Price 6d. per packet.

Chives is a hardy perennial found in rocky pastures. It is grown in gardens for its leaves, as a substitute for early onions. Propagate by dividing the roots into clumps in spring and autumn and plant from 8 to 12 inches apart. In order that the leaves be tender and succulent they should be often cut.

Plants price 6d, each, Clary, used for flavouring soups.

Price 6d. per packet.

Corn Salad or Lambs' Lettuce. This is a hardy annual, and in great demand as a salad plant on the Continent. In France it is preferred, admired, and relished in winter and spring instead of Lettuce, but it is not nearly so highly appreciated in

Britain as it deserves. But when Endive is scarce Corn Salad is of great service, and for early use should be sown in frames or in boxes and placed in slight heat. For summer use it may go on the border or in lines in a sunny spot, amongst the ordinary lowgrowing vegetables.

Price 6d. per packet.

Cress.—See page 36.

Cucumber. - See pages 37 to 39.

Dandelion. - The common Dandelion is a useful salad plant, especially when Endive and Lettuce are scarce in winter. The roots are grown in a similar manner to Chicory, and large quantities of the blanched leaves are sold in the markets for this esculent. Price 6d. per packet.

Endive. -- See fage 40.

Lettuce.—See pages 45 to 49.

Mustard.—See page 36,

Nasturtium, of which the green seeds make a delightful salad. This plant is both a dwarf and a climber, and very ornamental as well as useful. The flowers are often used in salads, occasionally for decorating, and the leaves and young green plants are frequently pickled.

Price 3d. and 6d. per packet.

Purslain is a succulent plant and raised from seed, which may be sown in light garden soil in March on a warm sheltered border in a bed, and attended to in the same way as for Chervil.

Price 6d. per packet.

Radish.—See pages 88 to 91.

Rampion.—A plant producing a spindle-shaped root of light colour and of agreeable flavour. may be raised from seed if sown in a bed in an open warm aspect, and in soil of a rich compost, of a light open texture. Water well in dry weather. Should the season prove mild, the plants will be ready for use in November,

Price 6d. per packet.
Shallots.—The Shallot is much in favour as a relish for soups and for pickling. Offsets are often planted in the autumn, but the main crop is usually got in early in the year. The bulbs may be planted at any suitable time during this period, 12 inches between each row, and 6 inches from set to set. The bulbs should be firmly pressed in just beneath the surface of the soil, and here they remain. As the growth matures in spring, gently draw away the soil round the bulbs when they have become established, and if they look sickly, apply soot to the surface soil for maggots, and use the hoe for weeds. Lift, dry, and store crop as soon as ready, probably the end of June. For exhibition, twenty-five cloves or bulbs should be placed on a large plate, and see that they are firm, of medium size, ripe, of good colour, and nice small necks. There are two types, the Mammoth and the ordinary Shallot.

Shallot Seed. Jersey Red Skinned. Price 6d. and 1s. per packet. For price of bulbs, see page 245.

Tomato. See pages 94 to 97.

Watercress may be successfully grown from seed if sown in a shaded border and kept well watered when started.

Price 6d. per packet.

### SPINACH.

Photographed and Copyrighted by J. C. & Co.

### THE CARTER SPINACH.

A SUPERB LONG-STANDER, WITH RICH DEEP GREEN LEAVES.

**The Carter Spinach** (see Photograph).—This fine Spinach was sent for trial to the Royal Horticultural Society, and was given an Award of Merit. Our photograph illustrates in a remarkable manner the solid substance of the leaves; and the whole plant, which is very fine in colour, is of far greater duration than ordinary Spinach.

Price <b>2s. 6d.</b> per pint; <b>6d.</b> per ounce; <b>3d.</b> per pack	tet.		
	Per pint. s. d.		Per pkt.

THICK-LEAVED ROUND Improvement on the old round variety			3

The Cultivation of Spinach.—Sow Round Spinach in succession from January to June, and Prickly or Winter Spinach the first week in August to stand the winter. Sow New Zealand Spinach in March in heat and transplant about the end of May, setting the plants about 3 feet apart.

### REPORTS UPON CARTERS "SUNRISE" TOMATO.

His Grace The Duke of Northumberland's late Head Gardener says:—"The fruits of Sunrise Tomato I exhibited at the Royal Horticultural Society's meeting on March 6th were sown in September and commenced fruiting in December—grown in 6-inch pots. It is a splendid winter fruiting variety."

His Grace The Duke of Buccleuch's Head Gardener says:—"We grew fifty plants of Sunrise Tomato in pots here. It is a good eropper, sets very freely, and bears fine medium-sized fruits of splendid quality and flavour."—Mr. J. WHYTOCK, The Gardens, Dalkeith.

The Right Hon. The Earl of Carlisle's Head Gardener says:—
"I may say I gave Survise Tomato a trial last season and was highly pleased with it. It sets very freely and produces enormous trusses of highly-coloured medium-sized fruits of good quality."
—Mr. A. E. Surron, Castle Howard, January 9th, 1907.

The Right Hon. The Earl of Jersey's Head Gardener says:—
"Sunrise Tomato has eropped grandly outside this season. It has been quite the best one here."—
Mr. J. HAWKES, The Gardens, Osterley Park, October 5/h, 1906.

The Right Hon. The Earl of Lathom's Head Gardener says:—
"A marvellous cropping variety, and destined to become the Tomato for market growers especially. I never saw its equal for cropping, and the fruits are just the size the market growers require—medium, with good appearance and no waste."—Mr. B. Ashton, The Gardens, Lathon House.

The Right Hon. The Earl of Onslow's Head Gardener says:— "I have grown your Sunrise Tomato since first it came ont, and I consider it the best Tomato ever sent out, it is earlier than most, no trouble to set, nice even size, and very heavy cropper, above all, the quality is unsurpassed."—Mr. H. W. BLAKE, The Gardens, Clandon Park, Guildford.

The Right Hon. The Earl of Sandwich's Head Gardener says:—
"This is a very fine acquisition in early Tomatoes, good setter, earrying heavy trusses of fruit of good colour and shape, either for garden or market use."—Mr. Hansford, The Gardens, Hooke Court, Beaminster.

The Hon. Vicary Gibbs' Head Gardener says:—"We have just finished Sunrise. It is a capital Tomato, a wonderful setter, fine quality and flavour. They are the finest lot I have ever seen."—Mr. E. BECKETT, The Gardens, Aldenham House.

The Right Hon. Viscount Portman's Head Gardener says:—
"There is no doubt but that this is an excellent variety. The fruits are produced in abundance when the plants are quite small. When ripe they are of even size, good colour, and with smooth skins. Either for market or private gardens this will prove to be one of the best."—Mr. II. PRINSEP, The Gardens, Buxted Park.

The Right Hon. Viscount Midleton's Head Gardener says:—
"This variety I consider the most prolific in commerce, we have had clusters with over 20 good sized fruit. It is a very fine setter and handsome for the table or for market work and of a splendid flavour."—Mr. QUAINTON, The Gardens, Peper Harrow Park, Godalming.

The Right Hon. Lord Poltimore's Head Gardener says:—"This variety maintains all its good points of the first trial, and is probably unrivalled as a cropper."—Mr. T. H. STADE, The Gardens, Poltimore Park.

The Right Hon. Walter Long's Head Gardener says:—"Carters Sunrise has proved a splendid acquisition, so easy to set and free in cropping. I predict a large inquiry for it among all classes of growers. Gardeners visiting here have been much impressed with it."—Mr. W. Strugnall, The Gardens, Rood, Ashton.

"Your Sunrise is a perfect Tomato, absolutely distinct in its habit and character, a vigorous grower and free setter. I have had plants with 8 and 10 sets of fruit with an average of 10 and 12 good marketable fruits on each truss. I write the foregoing remarks in the interest of fellow gardeners and market growers, to whom I would say "Grow Carters Sunrise and no other." - Mr. J. P. Sharp, The Gardens, Abbotstown, Castleknock.

"Sunrise Tomato is the Tomato, everybody grows it. I saw a house full at a place near Land's End (Penzance). The gardener in charge, said—"We grow nothing but Sunrise." For every day use and for market there is no better."—Mr. W. A. Cook, The Gardens, Leonardslee, Horsham.

"There were trusses on your Sunrise Tomato earrying from 25 to 30 fruits, with an average of eight trusses to the plant. It is the best flavoured Tomato we have ever tried."—Mr. C. Tillz, Gardener to A. A. HORLEY, Esq., Meopham.

First Class Certificate, R. H. S., awarded July 4th, 1905, after Indoor cultivation at Wisley.

Confirmed as Outdoor variety, October 10th, 1907.

Price 2s. 6d. and 3s. 6d. per packet.

Carters 237, 248, & 97, High Holborn, London. - 1909.

### CARTERS "SUNRISE" TOMATO.

A Bunch of Ripe Fruit, much reduced in size, showing Long Habit of Fruit Cluster.

Carters 237, 238, & 97, High Holborn, London. - 1909.

### FIRST CLASS CERTIFICATE, R. H. S.

Confirmed as Outdoor Variety, after growth at Wisley, Oct. 10th, 1907.

During 1905 an extensive trial of Tomatoes was made by the Royal Horticultural Society, 71 varieties being sent in from all the leading houses.

The only First Class Certificate was given to Carters "Sunrise," and the following note is attached to the report:—

"Tomatoes have reached such perfection that it is now very difficult to raise a variety superior to those already in commerce. In this trial only one stood out as being of exceptional value, viz., 'Sunrise.'"

"F.C.C. confirmed as Outdoor variety, after growth at Wisley, Oct. 10th, 1907."

It is some time since such a high honour has been granted to a Tomato.

The chief points in Sunrise are-

Its Earliness.—It ripens several days earlier than most varieties.

Its Prolific Character .- See Photograph.

Its Cropping Properties.—See Photograph and Testimonials.

Its Healthy and Robust Constitution.— No trace of disease.

Its Solid but delicate Flesh.—Contains very few seeds and practically no eye

Its Evenness of Size as a Dessert Fruit.

Its bright Scarlet Colour and rich Acid Flavour.

Its equal value for Indoor or Outdoor Cultivation.

Carters Sunrise.—The finest Tomato for Indoor and Outdoor culture.

Price 2s. 6d. and 3s. 6d. per packet.

# TOMATO. CARTERS DUKE OF YORK.

Awarded the First Class Certificate of the Royal Horticultural Society and Four Silver Medals, and included in the Gold Medal Collection, Royal Horticultural Society's Exhibition, September, 1904.

197 FIRST PRIZES REPORTED to us by Customers.

CARTERS DUKE OF YORK.—This

grand variety still holds a very high position in public favour. Colour rich scarlet, splendid cropper, almost globular in shape a flesh very firm, fine flavour. A leading feature of this superb variety is that it ripens its fruit with the most pronounced uniformity, whilst the profusion of clusters, averaging six and ten evenly formed fruit cach, makes it conspicuously handsome. These clusters contain variously sized fruits, large and medium, both for the table and exhibition. It can be grown in the open, but does not ripen so quickly as our Outdoor variety. Invaluable as an exhibition variety as for private growers and market purposes.

Photographed and Copyrighted by

Some fine fruit were exhibited in the Gold Medal and Grand Prix Collections at Franco-British Exhibition, 1908.

Price 2s. 6d. and 33. 6d. per packet.

Cartird 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

T.

Photograped and Cofyrigh ed by J. C. & Co.

CARTERS OUTDOOR TOMATO IN HER ROYAL HIGHNESS THE DUCHESS OF ALBANY'S GARDEN.

Carters Outdoor.—This variety readily fruits under the warmth of a south wall, or along the front of a greenhouse, in any situation where the full influence of the sun is felt and away from cold winds. In shape the fruit is not so round as our Duke of York or Sunrise.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Perfection.—Quite distinct from any other variety named Perfection. It is very handsome in form, distinct in colour, exceedingly prolific, and of exquisite flavour. Sixty-three First Prizes reported.

Price 1s., 1s. 6d., and 2s. 6d. per packet.

Carters Blenheim Orange.—We raised and introduced this extraordinary Tomato, a curious cross between the red and yellow. Gathered when quite ripe they are luscious and juicy, and the nearest approach to the flavour of a plum. It contains but very few seeds.

Price 6d., 1s., 1s. 6d., and 2s. 6d. per packet.

CARTERS DEDITAM FAVOURITE.—Well-known and deservedly popular. Price 6d., 1s., and 1s. 6d. per packet. Carters Greengage.—Introduced by us, and the first of the golden section of any value. Awarded a First Class Certificate by the Royal Horticultural Society. Price 6d., 1s., and 1s. 6d. per packet.

CARTERS MARKET FAVOURITE. - Price 6d., 1s., and 1s. 6d. per packet.

CARTERS SANDWICH ISLAND .-- Price 6d. and 1s. per packet.

CARTERS RED CHERRY.—A very prolific variety, about the size of a cherry. Price 6d. and 1s. per packet. CARTERS YELLOW CHERRY.—Companion variety to our Red Cherry. Colour, bright yellow. Price 6d. and 1s. per packet.

CARTERS PLUM.—Plum-shaped, of prolific habit and good flavour. Price 6d. and 1s. per packet.

CARTERS PEACH.—A curious variety, quite distinct from any other sort grown, quite peach-like in appearance. Price 6d. and 1s. per packet.

CARTERS RED CURRANT.—Smallest growing variety, hanging in long trusses, very pretty for decorative purposes. Price 6d. and 1s. per packet.

The following can also be supplied, price 6d, an l 1s. per packet:—

CHALLENGER. HAM GREEN FAVOURITE. LARGE VELLOW.
CHEMIN ROUGE, HAREFIELD GOLDEN GEM. STIRLING CASTLE.
COMET. HATHAWAY'S EXCELSIOR. TROPHY.
HACKWOOD PARK. LARGE RED.

Cultivation.—Sow seed in February and March, and transplant into pots to harden off; afterwards plant out against a south wall in good soil; or they may be planted in a warm border, and carefully staked to keep the plant and truit from straggling on the earth. If cultivated in pots the treatment should be the same, with the aridition that liberal waterings of manure and rain-water will be found necessary, especially during the hottest part of the summer.

# CARTERS EARLY LONG FORCING TURNIP.

Photographed and Copyrighted by J. C. & Co.

Oarters Early Long Forcing (see Photograph).—A new and distinct Turnip for frame or outdoor work. It matures very rapidly and is fit for table as soon as any other variety we know of. In shape it is distinct, whilst the flesh is close, firm, and crisp.

Award of Merit, R. H. S., for Roots sown in cold frame March 6th and exhibited May 8th.

Price 35. 6d. per pint, 8d. per ounce, 6d. and 3d. per packet.

Калста 237, 238, & 97, Ниси Ноцвови, London.—1909.

### TURNIPS FOR FRAMEWORK AND EARLY USE.

Photographed from Nature and Copyrighted by J. C. & Co.

### A NEW EARLY WHITE TURNIP.

Carters Little Marvel.—A cross between Early White Milan and Jersey Lily. This is a highly re-selected stock, the tendency to flatness in some of the roots having been entirely eradicated, the tops are small and compact. It is undoubtedly the quickest white globe-shaped Turnip in cultivation. Flesh crisp and solid and, as aptly described by one of our customers, "is a Little Marvel." Very distinct in both habit and foliage, and is a splendid Table Turnip.

This remarkable cross-bred Turnip closely follows the Milan and is considerably forwarder than Jersey Lily. It must become popular with gardeners for early work as it is as good as it looks.

Price 3s. 6d. per pint, 8d. per ounce, 6d. and 3d. per packet.

THE ROYAL HORTICULTURAL SOCIETY, reporting last season's trials at Wisley, says:—"Carters Little Marvel Turrip. White, round, handsome; foliage short and sturdy. A very early variety that should be valuable for forcing."

"A NEW TURNIP—LITTLE MARVEL.—This new introduction from Messrs. Carter & Co., High Holborn, is a great gain in earliness and quality, and will be a most valuable root for first crop in the open. So far I have only had roots grown in frames, and when forced they were superior to the Early Milan variety. I grew the Milan by the side of the new Little Marvel to test its earliness, and in this respect it is equal to the older variety. It should be a useful root for first crop in the open, or for a quick crop required in a short time, and it can be grown for a summer crop."—G. WYTHES, in The Garden, May 26th, 1906.

Carters White Swan's Egg.-A very distinct and symmetrical Garden Turnip. size of a lemon, is of rapid growth, the top remarkably small, short, and very compact.

Price 2s. 6d. per pint, 6d. per ounce, and 3d. per packet.

### TURNIPS FOR THE GARDEN.

Photographed and Copyrighted by J. C. & Co.

Several Fine-shaped Roots of this Variety were Exhibited in Three Gold Medal and Grand Prix Collections at the Franco British Exhibition, 1908.

## 68 FIRST PRIZES REPORTED BY CUSTOMERS IN SEASONS 1907 AND 1908.

Carters Jersey Lily (see Photograph).—The most perfect in outline, and the best White Garden Turnip grown. In shape as round as an orange, of exquisite flavour, with single tap root, and very distinct small top.

Price 3s. 6d. per pint, 8d. per ounce, 6d. and 3d. per packet.

Carters White Milan.—This is an exceptionally fine selected stock, strongly recommended for early garden work. It is as quick as a Radish, clean in growth, and of very fine flavour.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

The Cultivation of Turnip.—Sow Carters Jersey Lily for early use the first week in March on a gentle hot-bed under glass, and later in a warm situation in the open border. For main succession crops, sow every three weeks in the open ground until the beginning of July. For winter use, sow early in August and again in September.

### TURNIPS.—Continued.

**Carters Purple-Top Strapleaf.**—A variety with plain strap-like leaves and flesh of fine texture; colour of top of root a rich reddish purple. A perfect model in form, and highly valuable for exhibition.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

Carters Golden Rose.—One of the hardiest and best Winter Turnips; flesh of a rich golden-yellow colour, with single tap root; flavour most delicate and melting. Awarded a Special First Class Certificate at the Vegetable Conference of the Royal Horticultural Society.

Price 2s. 6d. per pint, 6d. per ounce, 3d. per packet.

**Carters Crimson-Top Table Swede,**—A choice stock of Swede Turnip with orange flesh, and specially adapted for growing as a winter table vegetable.

Price 1s. 6d. per pint, 3d. per ounce.

MUIR'S PROLIFIC.

CARTERS TRAILING WHITE.

PEN-Y-BYD.

CARTERS LONG GREEN STRIPED.

Carters Trailing White.—One of the quickest growing varieties we know of; the fruit will extend to a great length whilst retaining all the tenderness of small young Marrows.

Price 6d., 1s., and 1s. 6d. per packet.

Carters Long Green Striped.—A giant prolific variety, the very best for gardens that lie in a bleak and exposed position.

Price 6d. and 1s. per packet.

Muir's Prolific.—A distinct variety, with small globular fruit, creamy-white in colour, and solid flesh.

Price 6d. and 1s. per packet.

**Pen-y-byd** (The best in the world).—A round fruiting Marrow, creamy-white in colour; very superior.

Price 6d. and 1s. per packet.

Moore's Vegetable Cream.—Very fine variety, of creamy colour and of delicious flavour.

Price 6d. and 1s. per packet.

Improved Custard.—Curious and ornamental fruit, of fine delicate flavour.

Price 6d. and 1s. per packet.

### INTENSIVE CULTURE À LA FRANÇAISE.

In view of the growing interest in this country in the French method of intensive cultivation of vegetable under bell glass or in frames, we offer the following varieties, which we have personally seen growing under the skilled cultivation of the French maraîchers around Paris and other districts in France, and which are specially selected for the purpose.

### SEED POTATOES.

### THE ADVANTAGES OF PLANTING A RELIABLE CHANGE.

It is generally admitted that one of the most fruitful elements of the potato disease is supplied by a repeated growth year after year of the same stock of potatoes on the same land.

Another danger frequently recurring is the gradual undermining of the constitution of the potato by injudicious selection, alternately resulting in a weakly impoverished stock that too readily succumbs to the earliest attacks of the potato murrain.

Too much importance cannot be attached to this subject, and a change of seed is positively essential if a thoroughly reliable and superior crop is expected.

Our stocks have been grown and selected with the utmost vigilance, and under normal conditions of soil and situation will produce first-class crops.

Our crops are especially grown for seed purposes, that is to say, they are not over-fed for the sake of producing enormous tubers. They are kept true to name and description, and are not lifted until thoroughly ripe.

We go to this trouble and expense with a view to make our potatoes as disease-resisting as the season will permit.

We grow potatoes in England and Scotland, on the chalk in Kent, on the sand in Bedfordshire, on the rich warp-lands in Lincolnshire, so that we possess the advantages of supplying a distinct change of sced to every customer.

We do not list several of the rank-growing new varieties which need too much space in ordinary gardens, neither do we catalogue others in which we can find no merits.

One of the constantly recurring questions put to us by our customers each year, is, "which may be considered the best varieties of potatoes for First Early. Mid-Season, and Main Crop, respectively?" To answer this, it would be necessary to be acquainted with the characteristics of the soil in every garden and the tastes of every grower. Some potatoes take more kindly to a particular soil than others, but those who have tried several of our well-known varieties have proved which potato suits their soil and culinary requirements, and acting on the axiom of "find a friend to keep a friend," continue to grow the same variety year after year.

This practice is a good one providing that a constant change of seed tubers is maintained, though it tends to increase the list of popular varieties from the number of which it is difficult to make a selection of the best.

Many years of close observation, however, of potato culture under varying soil and climatic conditions, together with the results of our own trials at Bromley, Forest Hill, Mortlake (which this year amount to no less than 263 plots), have enabled us to mention the three undermentioned varieties as the best and most suitable for general purposes.

First Early.—" Carters Early Favourite." Award of Merit, R.H.S.

Mid-Season.—"Carters Royalty." Awarded Silver Medal for best white potato at the National Show.

Main Crop.—"Carters Longkeeper." Award of Merit, R.H.S.

(Particulars and prices will be found on the following pages.)

### FRANCO-BRITISH EXHIBITION, 1908.

Silver Medal and First Prize for Potatoes (12 varieties). Highest Award in Competitive Class, open to French and British Exhibitors.

During March and April our season's supplies become much reduced, and we are often quite sold out of perticular varieties. It is always our endeavour to send something likely to give satisfaction in place of any we may not have available.

### CARTERS POTATOES FOR EXHIBITION.

### CARTERS HAND-PICKED SEED POTATOES.—Continued.

SELECTED EARLY VARIETIES FOR FRAME AND EARLY BORDER USE.

# CARTERS EARLY FAVOURITE. The best first early for general use, see page 104. Award of Merit, R.H.S.

An oval-shaped, pale-fleshed, smooth-skinned Potato, with a medium haulm. Price, per peck of 14 lbs., 5s. Trial Box, 1s. 6d.

Carters First Crop.—A perfect type of forcing or frame Kidney Potato for a gentleman's garden. The haulm is compact, and the tuhers come in remarkably quick when grown in frames or pots. They are beautifully shaped, and the flesh is of a pale canary colour.

Price, per peck of 14 lbs., 4s. 6d. Trial Box, 1s. 6d.

Carters Advancer.—Pebble shaped, smooth skin, white flesh, medium haulm. In the trials of the Royal Horticultural Society a few years since this variety was one of the very few that were selected for fine appearance and good cropping qualities. A heavy producer on all good garden soils, and particularly valuable on light soils.

Price, per peck of 14 lbs., 4s. 6d. Trial Box, 1s. 6d.

**Sir John Liewelyn.**—An early White Kidney Potato, raised in Wales, many days earlier than some stocks of *Early Ashleaf Kidney*. Haulm fairly tall, eyes shallow. Award of Merit, R.H.S. It has proved a good cropper on various soils.

Price, per peck of 14 lbs., 3s. 6d. Trial Box, 1s.

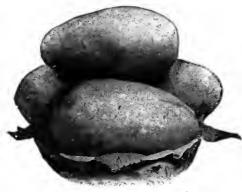

Carters Excelsior.—One of the best earliest round varieties with which we are acquainted. Compact in growth, and a good table Potato on all kinds of soils.

Price, per peck of 14 lbs., 4s. 6d. Trial Box, 1s. 6d.

Carters 237, 233, & 97, HIGH HOLBORN, LONDON. 1909.

### CARTERS HAND-PICKED SEED POTATOES. - Continued.

MAIN CROP AND KEEPING VARIETIES.

# CARTERS LONG KEEPER. The best Main Crop Potato for general use (see page 104). Award of Merit, R.H.S.

Price 5s. per peck (14 lbs.); 1s. 6d. per trial box.

The Right Hon. The Earl of Lathom's Head Gardener says:—"I am pleased to inform you that your Long Keeper Potato has done very well indeed with me. It is a splendid cropping variety of good shape—Skin very white and smooth, Cooking qualities excellent and a fine variety.

It has a strong, sturdy habit of growth and was quite free from disease. A good late main crop variety."—Mr.

B. ASHTON, The Gardens, Lathom Park.

Sir Edmund Loder's Head Gardener, says:—"Long Keeper has turned out remarkably well and quite the best we have tried from anyone, it is a good cropper and free from disease, and of first-class cooking quality; it is a potato, I believe, come to stay."—W. A. COOK, F.R.II.S.

### CARTERS SNOWBALL. The Great Prize-taker.

This fine Mid-season Potato has now become established as an exhibition variety, it is almost round in shape, rough skin, pale flesh, with a medium haulm and a splendid cooking variety.

### SILVER CUP AND FIRST PRIZE, NATIONAL POTATO SOCIETY.

17 FIRST PRIZES REPORTED BY CUSTOMERS LAST SEASON.

### CARTERS GRASS SEEDS.

As used on the estates of His Majesty the King at Windsor and Sandringham, and also supplied to Lord's, The Oval, Newmarket, All-England Tennis Grounds, Bowling Greens, and all the leading Golf Clubs in Great Britain.

### Grass Seeds prescribed for all Soils and Purposes.

For Lawns.	For Tennis Courts.	For Putting Greens.
Cricket Grounds.	Bowling Greens.	Golf Courses.
Croquet Lawns.	Football Fields.	Archery Grounds.
Shaded Lawns.	Polo Grounds.	Cricket Pitches.
Town Lawns.	Racecourses.	Recreation Grounds.

### Carters Finest Grass Seeds.

As supplied to His Majesty's Golf Grounds, Lawns, and other parts of the Royal Estates. A mixture of the very fine bladed species, which, if sown according to our recommendations, should produce a close thick turf on all good soils, and is especially suitable for all games in which the ball is required to run true.

Price 30s. per bushel of 25 lbs.; 16s. per half-bushel; 1s. 6d. per lb.

Hints when Ordering Grass Seeds. See page 111.

### Carters Fine Grass Seeds.

A prescription adapted for cold and ungenerous soils, or in any confined situation. A very useful mixture, but of coarser texture than above.

Price 25s. per bushel of 25 lbs.; 14s. per half-bushel; 1s. 4d. per lb.

### Carters Grass Seeds for Golf Links.

Our experience in sowing down golf links, through the green, and putting greens is probably unique.

During the last four years forty-two new or enlarged Golf Courses have been sown entirely with Carters Tested Grass Seeds. Our price for Grass Seeds for "through the green" ranges from 17s. 6d. per bushel to 30s. per bushel, according to the texture of grass desired and the time the links are required for play.

Garters Grass Seeds for Recreation Grounds, Race Courses, and other open spaces.—We prepare mixtures of hard-wearing grass suitable for this purpose at prices varying from 17s. 6d., 21s. 6d., to 25s. per bushel.

### Carters Grass Manure, No. 1.

A general top dressing for Lawns, &c. Sow at the rate of 2 ozs. per square yard, or 5 cwt. per acre. Price 4s. 6d. per 14 lbs.; 7s. 6d. per 28 lbs.; 12s. 6d. per half-cwt.; 21s. per cwt.

### Carters Grass Manure, No. 2.

Specially prepared for Cricket Grounds and Bowling Greens; retards the growth of clovers and coarse weeds, as used at the Oval, Lords, and other leading Cricket Grounds.

Price 3s. per 7 lbs.; 5s. per 14 lbs.; 8s. per 28 lbs.; 13s. 6d. per half-cwt.; 21s. per cwt.

### Carters Worm Killer. See also pages 114, 115, and 262.

Spread ½ lb. over 1 square yard during mild weather, and water in.

Price 38. per 14 lbs.; 5s. per 28 lbs.; 7s. 6d. per half-cwt.; 12s. 6d. per cwt.; 5 cwt., £3; 10 cwt., £5 10s.; £10 10s. per ton.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

### HINTS WHEN ORDERING GRASS SEEDS.

We would respectfully ask our eustomers, when ordering grass seeds, to give as much information as possible on the following questions; this will assist us in supplying the most suitable mixture for the particular purpose for which the seed is required.

What is the nature of the soil, heavy, mcdium, or light?

Purpose for which the lawn is required:

Pleasure lawn.
Croquet.
Tennis.
Putting greens.
Golf courses "through the green."

Bowling greens.
Cricket pitches.
,, outfield.
Polo ground.
Recreation grounds.

Shaded lawns or under trees. Town lawns.
Archery grounds.
Football fields.
Race courses, etc.

Is the seed required for a new lawn? If so, send a sample of soil.

Is the seed required for renovating an old lawn? If so, send a sample of existing turf.

Is the ground in good heart?

Do you intend to manure the ground? If so, can you procure any well rotted farm or stable manure?

Is the ground well drained? Is water laid on?

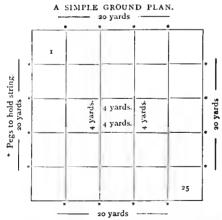

Quality of seed required.

Notes.—The finest mixture (at 30s. per bushel) is a term used to describe the texture of the turf when grown, and is the very best for pleasure lawns, and lawns devoted to games of skill where the ball is required to run accurately, and for every purpose when best results are required.

The fine mixture (at 25s. per bushel) will also produce a first class turf of coarser texture than the finest; it is most reliable but is intended for ground which may not be worth the heavier expenditure.

Please give information as fully as possible.

To ascertain the nature of the soil, take a handful of damp soil and compress it in the hand, if it binds tightly it can be called a heavy soil, if it binds but not tightly it is a medium soil, if it does not bind at all it is a light soil.

### SOWING GRASS SEEDS.

A PLOT 20 YARDS EACH WAY, OR 400 SQUARE YARDS, READY FOR SOWING, MARKED OUT WITH STRING INTO 25 SQUARES OF 4 YARDS EACH WAY, OR 16 SQUARE YARDS.

### QUANTITY OF SEED REQUIRED.

One bushel of seeds weighs 25 pounds. The ground should be divided into squares of 4 yards each way, or 16 square yards (see Diagram), and the seed required for that area should not be less than 1 pound, which is at the rate of 1 bushel of 25 pounds to an area of 20 yards each way, or 400 square yards.

For renovating purposes, from 4 to 12 lbs. would be required, according to the state of the existing turf for the above area 20 yards square or 400 square yards.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.—1909.

WALTON HEATH GOLF COURSE.

# FROM PLOUGH TO PLAY IN NINE MONTHS.

### RANSOMES' LAWN MOWERS.

ROYAL BOTANIC SOCIETY, 1904, 1905, and 1906 GOLD MEDALS.

R.A.S.E., London, 1904, SILVER MEDAL. ROYAL HORTICULTURAL SOCIETY, 1906, 1907, and 1908, SILVER MEDALS.

### "PATENT AUTOMATON"

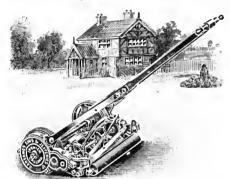

(With CHAIN or WHEEL GEARING, as preferred).

The best General Purpose Machines made. Will leave a fine velvety surface.

### "AUTOMATON MINOR,"

Similar to the above, but lighter and cheaper.

### "EMPIRE," "EMPIRE MAJOR," "ANGLO-PARIS," AND "LION."

"EMPIRE" (as Illustrated).

The highest class Side-wheel Machine. Can be recommended with every confidence.

### "EMPIRE MAJOR,"

Similar to the "Empire," but larger and more powerful. A very useful Machine for Golf Courses.

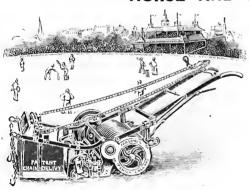

### "ANGLO-PARIS."

For small gardens and ladies' use.

"LION."

The best cheap Machines.

### "HORSE AND PONY" MOWERS.

The best large Machines. Used on all the principal Cricket Grounds, Golf Courses, and Public Parks.

### MOTOR LAWN MOWERS.

The first and foremost Petrol Motor Mowers.

Over 2c0 of these have been supplied, including two to II.M. The King.

All Machines sent Carriage Pail.

Illustrated Catalogues from High Holborn, by return of post, or from

### RANSOMES, SIMS & JEFFERIES, Ltd., IPSWICH.

From our practical experience of these Machines, we can recommend them with every confidence to our customers.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON .- 1909.

### CARTERS WORM KILLER,

### **DIRECTIONS FOR USE.**

- (1) Select a mild day when the earth is moist and the worms are active.
- (2) Cover the Lawn or Green with Carters Worm Killer at the rate of half a pound per square yard.
- (3) Water the Worm Killer in immediately with a hose, water cart, or can, and use as much water as possible.

The effect is instantaneous. The worms, large and small, struggle to the surface in thousands and die.

# Carters Worm Killer is absolutely infallible, provided that it comes into contact with the worms.

If it does not touch the worms it cannot kill them; therefore use plenty of water.

Try one pound first before applying bulk. This will tell you if the worms are about.

Carters Worm Killer is a powder and is not poisonous to animal and bird life.

The advantages derived by using Carters Worm Killer:-

- (1) The greens play true winter and summer alike.
- (2) The turf becomes clean and healthy.
- (3) The turf improves, as one of the constituents of the Worm Killer is a valuable plant food.
  - (4) The surface becomes true and firm.
  - (5) It is no longer necessary to roll or brush the greens every morning.
  - (6) It is not necessary to rest the greens during the winter.
- (7) It reduces the cost of the upkeep of the green from £25 to £75 per annum according to the size and number of the greens.

Worms spoil putting greens because :-

- (1) The worm casts make accurate putting impossible.
- (2) The continual movement of the worms makes the surface soft and spongy, which no amount of rolling will remedy.
- (3) Brushing off worm casts damages the turf, as the action of the broom bruises and exposes the surface roots of the grass.
- (4) Rolling down worm casts smothers the grass and is responsible for many bare patches.

NOTE.—It took 5 men four hours a day to remove the worm casts from the greens of the Bushey Hall Club, at an estimated cost of £75 per annum. Since the greens were treated with Carters Worm Killer this expense has practically ceased.

14 lb. 28 lb. 56 lb. 1 cwt. 5 cwt. 10 cwt. 1 ton. 3/- 5/- 7/6 12/6 £3 £5 10s. £10 10s.

Cartas 237, 238, & 97, High Holborn, London.—1909.

Watering in the "WORM KILLER." A few worms can be seen in the foreground.

The same piece of ground, taken from above, five or ten minutes later.

The worms coming to the surface in increasing numbers two or three minutes after the "Worm Killer" was watered in.

Carters 237, 238, & 97, Hide Hotborn, London .- 1999.

### CARTERS POPULAR BOXES OF SEEDS.

The Seeds offered in our Collections are of the best re-selected stocks only, taken from the same sacks as general orders given from this Catalogue. We can supply more Seeds for the money when purchased in this form, because we put up these Collections by the hundred, which effects a great saving in labour. They are ready for immediate dispatch, packed in wooden boxes, and sent carriage free to any Railway Station in the United Kingdom, on receipt of remittance. It is inconvenient to make alterations in these Collections.

### CARTERS ÆSTHETIC OR DECORATIVE FLOWERS.

FOR CUT BLOOMS.

Photographed from Nature and Copyrighted by J. C. & Co. GOLDEN SUNSET.

Culture.—Sow in spring and plant out as soon as the seedlings are strong enough, or sow in the place where they are intended to flower, and thin out as may be necessary. Flowers that are not cut should be taken off when they wither, and fresh ones will quickly take their place. Sow also in September for spring flowers.

CARTERS LONG-SPURRED AQUILEGIA.

Hardy perennials of great beauty and utility in borders, where they will bloom freely when established, early in the summer. The long-spurred type, of which we make a speciality, gives elegant cut flowers. We have now included some new and effective colours. Sow seeds under cover in February for transplanting in spring to a border, when, if the summer is favourable, they may bloom in autumn. If sown in summer sturdy plants will be ready by autumn for transplanting to the border to flower next May and Lung. It feet flower next May and June. 13 feet.

### ANTIRRHINUM or SNAPDRAGON.

(See Photograph.)

Carters Tall Large-flowered Antirrhina m.-This fine hardy perennial has been greatly improved in size and colourings. Height, 2 to 3 feet.

Sow the seed in pans or boxes from March to August, and transplant to bed or border when large enough. If the withering flowers and seed pods are kept picked off, it will last in bloom for a long time, and continue again the following year.

We now offer the following shades in self, striped, and blotched flowers with yellow and white lips:-

### ASTER.

Since the introduction of this beautiful garden Flower into England by the late Mr. James Carter, about the year 1830, continuous skilful cultivation has produced the present developments in form and colour.

The whole group may be described as HALF-HARDY ANNUALS, the seeds being best sown under glass in early spring, and the seedlings pricked out into boxes or in frames for planting out or potting as the occasion requires, when they are ready about June.

The Aster in its various tall and dwarf forms makes a grand Bedding Plant, as its fullest beauty appears when the ordinary summer flowers are beginning to look rusty. The blooms are freely produced and last long, and are effective until spoilt by the frosts of autumn. The magnificent Ray varieties, see page 129; White Plume, see page 132; Victoria, see page 130, and the fashionable Single Comet types on page 131, together with the Comet and Chrysanthemumflowered types described below, should be largely grown in every garden.

```
Carters Sinensis Single.-A free growing single Aster, suitable for vases and house decoration.
      Height, 18 inches.
                                                                                       ... 6d. & 1 o

"Your seeds surpassed my expectations. The Begonias surpassed everything I ever saw. I had several plants with blooms 8\frac{3}{4} inches across. Your Double and Fringed Begonias were the admiration of everyone that saw them."--GEO. SHEATH, Esq., Vale Mead.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909

No. 291. Balsam, Double mixed. For pots or borders ... ... Per packet—s. d. ... 6d. & 1 0

Hints on Culture. – Balsams may be sown from the beginning to the middle of April in pans or on a slight hot bed, in a light rich loam compost, covering the seed about half an inch, keeping the soil moist, but not wet. When the plants have formed the second pair of leaves they may be transplanted, four round the edge of a 6-inch pot, and gradually hardened off for transplanting out of doors; or they may be planted in a cold pit, 4 inches apart, as near the glass as possible, giving more air as the season advances until June, when they may be turned into the open borders, the warmest situations being the most suitable. If for pot culture, they must be divided and transplanted into single pots, once or twice into larger pots, picking off the flowers in the earlier stages of growth to give greater vigour.

Varters 237, 238, & 97, High Holborn, London. - 1909.

CALCEOLARIAS AT MESSES. CARTERS EXPERIMENTAL NURSERIES.

It is impossible by photography to give any adequate idea of the beauty of these magnificent flowers: the variations and markings are endless, the flowers are of large size and perfect in form, and the habit is unexceptionable. Our exhibit at the TEMPLE SHOW OF THE ROYAL HORTICULTURAL SOCIETY every May is always the theme of general admiration, and we have been awarded the highest honours for our displays.

## CARTERS MINIATURE CALCEOLARIA.

A curious small-flowered type, quite unique in growth and character; makes a fine dwarf plant for stage fronts in Conservatory among other growths of similar hahit.

No. 318. Calceolaria, The Pigmy. A dainty plant, with beautifully variegated blossoms. Height, 5 inches. Per packet, 1s., 1s. 6d., and 2s. 6d.

No. 319. Calceolaria, Tom Thumb. Brilliant as the Victoria Prize varieties, but of dwarf habit. Per packet, 1s., 1s. 6d., and 2s. 6d.

No. 320. Calceolaria, The Gem. Similar to *The Pigmy*, but the flowers are more of one colour. Per packet, 1s., 1s. 6d., and 2s. 6d.

Awarded First Prize York Gala Jubilee Show, 1908, for group of Calceolarias, 12 ft.  $\times$  5 ft. They were much superior to anything in the Show, having **enormous** pouches.

#### UNSOLICITED TESTIMONIALS.

"The Calceolarias have given a truly beautiful display of plants, surpassing anything our neighbours say they have ever seen." - J. H. HEWITT, Esq., Stow-on-the Wold, May 27th, 1908

"Your Victoria Calceolarias this year have been magnificent."—Rev. C. J. P. BLUNDELL, Elvedon Rectory, May 2nd, 1908

#### VICTORIA PRIZE CALCEOLARIAS.

"Those grown from your last year's seeds have been an unqualified success, several of the blooms measuring three inches across, and the colours and markings are magnificent. They are generally admitted by all the local gard ners who have seen them to be the finest they have ever known, and several of them have expressed their intentions of having their seed from you in future."—E. BARKER, Esq., Heamoor.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. - 1909.

#### **CALLIOPSIS**

(Coreopsis).

Hardy annuals and perennials. All are universal favourltes and useful for cut flowers. The annual varicties should be sown outdoors in April in the place they are intended to flower, or, for earliest work, may be sown under glass, and then pricked out. The perennial varicties are best sown at end of summer under protection, and set out in spring in the border. The combination of colours—gold and maroon in most of the varicties—is very effective.

#### ANNUAL VARIETIES.

Per packet—s. d.

Carters Tall.—2½ to 3
feet. Large flowered,
branching habit; very
useful for back of borders
and cut flowers.

No. 321. Crimson, 3d. & o 6

,, 322. Crimson and gold 3d. & 0 6

Carters Dwarf.

—15 to 18 inches, compact habit; useful for cut flowers.

No. 323. Crimson, 3d. & o 6 ,, 324. Crimsonand gold 3d. & o 6

Carters Miniature.—9 to 15 inches.
The shortest growing type; fine for edges.

No. 325. Crimson marbled. The flowers show a groundwork of chocolate, flaked and marbled with gold, giving a most fantastic combination. Unfortunately some tall plants invariably appear amongst the dwarfs ... ... ... ... 3d. & o 6

Monthly Operations in the Garden, with Hints on the Cultivation of the Principal Flowers and Vegetables. Post Free, 6d.

Farter 237, 238, & 97, High Holborn, London.—1909.

A popular and lovely flower, always in fashion. In colour and form unique, with a pleasing fragrance in many types. Whether grown in pots for conservatory decoration or in the garden beds for summer display, its charms are equaliy attractive. Our seed is saved with the greatest care, and should produce a large percentage of the very best flowers, but unfortunately, as with other florists' flowers, it cannot be guaranteed that every one will come double.

Photographed and Copyrighted by J. C. & Co.

Carters Choice Double Carnation.

No. 388. A splendid mixture of Selfs, Flakes, Bizarres, Fancies, and Yellow Grounds.

All varieties mixed, 1s. 6d., 2s. 6d., and 3s. 6d. per packet.

Sow in spring in cool frame, prick out, and plant out in good soil when strong enough.

Carters 237, 238, & 97, High Holborn, London.-1909.

## Bloom in six months from seed.

Carnations are favourites with all lovers of flowers. This new strain will bring them within the reach and the cultivation of everybody, as it is one of the most valuable introductions of modern times.

Sow under glass in January and February, and transplant as soon as ready. They commence to flower in July, producing a wealth of large blooms of great variety in colour until cut off by the frost, thus producing a supply after the perennial varieties are over. Being equally valuable for indoor cultivation, some can be potted and placed in a cool greenhouse, when they will provide a succession of bloom during the winter months. They produce a very large percentage of double flowers, and include a most varied assortment of Fancy, Yellow Ground, Bizarre, as well as Selfs, rich with delightful fragrance and diversity of colour.

CENTAUREA, OR SWEET SULTAN.

Centaurea, or Giant Sweet Sultan.—The flowers of this greatly improved annual are at least twice the size of the older varieties. It is most deliciously scented, with long flower stalks to facilitate cutting, and when cut will last in water for a fortnight. In this respect alone it exceeds any other annual we

can call to mind. We give this flower the highest possible recommendation. For ordinary Sweet Sultans, see fuge 229. Height  $1\frac{1}{2}$  feet.

May be sown in pots and pricked out for early flowering, or in open borders in spring for general week.

## CHRYSANTHEMUM ANNUAL.

Of all Annuals these pretty flowers perhaps hold a leading position, and many of them have been raised on our Seed Farms. All are beautiful in beds and borders and good for window boxes or cutting. Sow seed in spring in boxes for early flowering, and in the open for general work. Some varieties make useful pot plants; for this purpose they should be sown under glass and thinned out. 1½ feet.

### Awarded SILVER GILT MEDAL, Royal Horticultural Society, May, 1908. Carters Brilliant Prize Cineraria. The only strain awarded four Gold Medals by the Royal Botanic Society.

Our house has long been famed for its Cinerarias, and extra care has been taken in the selection of the plants this season. The colours are simply lovely; vivid self and brilliant bordered varieties, &c., unequalled.

Sow seed in pans filled with a good light sandy compost in spring up to the Leginning of June, and place in a cool feame. Transfer to small pots as soon as the seedlings have developed their leaves, and pot on as the plants require it. They should be grown in a cold frame until frost necessitates their removal to a greenhouse. Even in winter they should not receive much artificial heat. Will come into bloom from Christmas to May.

No. 441. "Our show of Cinerarias from your seed of last season is simply grand, the fit est I think I ever grew. They are greatly admired by all who have seen them." Mr. D. Fixyer, The Gardens, Ashfield, Norts.

"The Cinerarias from the seed I got from you last June are magnificent, both in size and colour, and it is the opinion of all who have seen them that they have never seen liner." F. BARKER, Esq., Heannoor

CARTERS CINERARIA STELLATA.

CARTERS CINERARIA CACTUS.

#### CARTERS STELLA-

TA.—This free-panicled variety has now obtained general approval, especially for decorative arrangements, for which purpose it has proved marvellously effective, and has proved to be a valuable adjunct to the much admired Carters Brilliant Prize. It should be raised and treated the same as the other greenhouse varieties. No. 446. Carters Choicest Mixed, per packet, 1s. 6d., 28, 6d., 38, 6d., and 58,

#### CARTERS CACTUS.

—An entirely new break in Cinerarias; the edges of the florets recurve like a single Cactus Dahlia. The colours include white, blue, blueh, violet, mauve, and some have white round the dark disc tipped with violet, blue, &c. The flowers when cut last a long time, and by their lightness and elegance make charming table decorations.

No. 429. Carters Choicest Mixed, per packet, 1s. 6d., 2s. 6d., 3s. 6d., and 5s.

#### CRUENTA HYBRIDS.

- Similar in form and habit to the Stellata varieties, but more compact.

No 447. Perpacket, 1s. 6d. and 2s. 6d each.

<b>CLARKIA.</b> —Well-known HARDY ANNUAL, of great decorative value and easy cultur sown in spring in the open border. The Elegans types are excellent for vases continue to bloom for many days.

## CARTERS CRESTED CYCLAMEN.

A very pretty type of flower, contrasting conspicuously when mingled with a collection of the ordinary type. Choicest mixed. No. 522.—Per packet, price 1s. 6d., 2s. 6d., and 5s. each. The flowers are also very lasting.

this charming variety, the somewhat formal bearing of the older varieties is replaced by a more graceful habit, and the colours are surprisingly varied and beautiful. It may be observed that the petals of the flowers are broad across the top, and the edges finely curled or waved. The beauty of the variegations in colour is captivating. The blossoms being carried on a long and slender stalk, they will become a feature in the making up of high-class bouquets, and the entire plant makes a welcome addition to table decoration. Choicest mixed. No. 521. - Per packet, price 1s. 6d., 2s. 6d., and 5s, each.

No. 505. Carters Superb Mixture of all Colours.—Our grand large-flowered strain in all its best forms.

Per paeket, price 1s. 6d., 2s. 6d., and 5s.

the foliage—a fine decorative variety. (See Photograph above.)

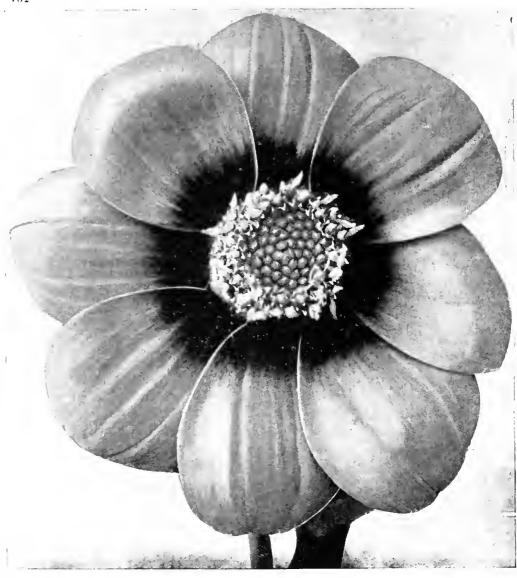

Per packet, price 1s. 6d., 2s. 6d., and 5s. each.

Princess May.—New variety; colour a dainty soft pink. " 514. Rosy Morn.—Bright rose, dark elaret base. ,, Sunray.—From dark to light rose, flamed searlet.
The Sultan.—The richest coloured Cyclamen; intense crimson. 516. Per packet-s. d. ,, Complete Collection, as above, 13 varieties for 518. 11 6 ,, Six varieties (purchaser's selection) ... 519. . . . 520. Cyclamen, mixed, older varieties ... 1s., 1s. 6d., &

Sow at any time (spring and autumn to be preferred) in pots or pans, in peaty loam and sand, covering the soil searcely a quarter of an inch, place on warm shelf near the glass in greenhouse, keeping the soil moist but well drained. The seed takes from four to eight weeks to germinate. When the bulbs are the size of a pea transplant singly into small pots, transferring to larger pots as the plants develop. An average of 60° is the temperature best suited for producing well-developed flowers, and good ventilation without draught is a safeguard from disease. We also supply dry bulbs at the end of the summer (see page 247).

## **DELPHINIUMS.**

## Carters Annual Delphinium Blue Butterfly

(see Illustration).— The greatest acquisition in blue annual flowers for many years. The Royal Horticultural Society, when granting it the Award of Merit, stated in their report that it is "a dainty annual of bushy branching habit, and very floriferous." The seed should be sown early, in heat, and grown on in pots until ready for bedding out. Late sowings do not make effective plants until too late in the season.

Height 15 inches.

No. 539. Per packet, price 6d, 1s., and 1s. 6d.

The **Perennial Delphiniums** are best sown in summer, as they then make strong plants to flower following season. They can also be sown early in spring, and are very effective in borders during the early summer the following year.

No. 564. Carters Large-flowered Dwarf Single Dianthus. Per packet—s. d. 6 to 8 inches, 6d., 1s., & 1 6

Dianthus Chinensis (Indian Pink). Biennial. We consider the *Heddiavigi* section of the Dianthus introduced by our house from the East, and the parent of many of the best types, to be one of the finest additions to our annual flora for the last fifty years, and the varieties detailed on the next page are the improved results from the original importation. Sow in spring in boxes or pots, and transplant to where intended to bloom Seeds of all the improved types may be also sown at the end of summer and grown on in pots through the winter under fairly cool treatment. They will make robust plants at end of spring, and become useful in the decoration of the conservatory. (See opposite page.)

Carters 237, 238, & 97, HIGH HOLBOKN, LONDON .-- 1909.

## CARTERS NEW ESCHSCHOLTZIA.

No. 635. The Mikado (see Coloured Plate No. 4). Award of Merit, R.H.S., 1908.

We have the greatest pleasure in introducing this sterling novelty. The Mikado brings a new colour into the Eschscholtzias. It is the result of a cross between Mandarin, which we introduced in 1879, and Carmine King, our great novelty of 1906. The blend of these two colours has produced a brilliant orange crimson suffused with the lustre of the Carmine King. To a small percentage the colour favours almost entirely the Carmine parent. The effect of this charming colour in borders or clumps will enhance the value of Eschscholtzias for general garden adornment.

Price per packet, 1s.

## No. 1491. Carters Double Orange (see Coloured Plate No. 3).

We introduced this for the first time in 1879, when it was awarded a First Class Certificate by the Royal Horticultural Society. We are now able to offer an improvement on the original form. We have no doubt it will come to many as quite new.

We highly recommend it as a valuable addition to this useful group of hardy annuals.

Price per packet, 6d. & 1s.

## No. 581. Carters Carmine King (see Coloured Plate No. 2).

This was introduced by us in 1906 after having received an Award of Merit from the Royal Horticultural Society. Plants in flower have excited admiration wherever seen. The lustrous carmine colour being quite novel in Eschscholtzias.

Price per packet, 6d. & 1s.

## No. 584. Carters Diana (see Coloured Plate No. 1).

This is a most dainty flower, as the coloured plate shows it to be. The eolour is a rosy white while the petals are fluted in a most novel manner, giving the flower quite a fantastic and attractive appearance.

Price per packet, 6d. & 1s.

## No. 1490. Eschscholtzia Dainty Queen.

A beautiful new shade in Eschscholtzias. Colour a tender blush or pale eoral pink, slightly deeper towards the edges, with a groundwork of delieate cream; same eolour inside as outside the flower. The blossoms stand well above the bright green foliage, giving it a singularly attractive appearance.

Price per packet, 6d. & 1s.

## CARTERS PYRAMID

Photograph) - We offer these charming Photograph)—We offer these charming pyramidal types of Forget-me-nots with confidence that they will be greatly appreciated by our customers for spring bedding purposes. The plants assume an upright habit of growth, and when in bloom, resemble miniature pyramids of floral heauty. These new Forget-me-nots are especially valuable for planting in combination with Tulips, as their upright habit does not check the growth of the flower spikes from the bulbs or make a bed flower spikes from the bulbs or make a bed appear so crowded as when plants of more exuberant growth are used as a ground work. The seeds should be sown out of doors on a partially shaded border towards the end of summer. Height, 1 foot.

CARFERS INVINCIBLE PRIZE GLOXINIA. HABIT OF PLANT.

#### CARTERS INVINCIBLE PRIZE GLOXINIA. AWARDED THREE SILVER CUPS, Royal Horticultural Society. TWO SILVER-GILT MEDALS, 1904-1905.

It may be asserted without fear of contradiction that no flower for exhibition produces a greater effect than a first-class group of Gloxinias. The superb mixture we offer under the name Invincible is magnificent. It contains all the best self-colours, crimson, sapphire, purple, rose, blush, violet, white, &c., also the finest edged, tipped, ringed, and shaded varieties, together with the most beautiful spotted or marbled kinds, and is the finest we have seen.

Carling	us. Come in small dusing of many from Tanagar 4. Nr. 1 /	. 1					

Culture. - Sow in well-drained pans from January to March (or in the autumn), fill the pans with soil consisting of a mixture of half peat and half leaf mould, with a small quantity of pulverised charcoal and silver sand sifted very fine to within half an ineh of the rim; water with fine rose, then sow the seed thinly, taking eare not to cover it with soil; place in a temperature of 75 deg., and cover the pans with a piece of shaded glass, gradually removing the same as the seedlings progress. When large enough to handle, prick off into pans at about one ineh apart, then pot off into single pots. Many will soon attain the requisite strength to go into 5-inch or 48 pots, and will bloom in August and September of the same year. The potting off soil should consist of one-half good loam, one-half fibrous peat, with a good sprinkling of sand and broken charcoal.

For price of Gloxinia Bulbs, see page 247.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.--1909.

# ORNAMENTAL GRASSES FOR DECORATIONS.

Cultivation.—Sow the seeds in a cold frame in February or March, and prick off into 6-in, or larger pots (about four or six plants in a pot) when the seedlings are sufficiently large, and protect from winds and heavy rains.

### GODETIA.

Photographed and Copyrighted by J. C. & Co.

### CARTERS DOUBLE PINK.

Per packet-s. d No. 698. Hardy Annual, quite distinct, producing long spikes with 18 to 20 beautiful double pink blooms. They make an excellent cut flower, a spike of half-opened buds continuing to develop for a long time if fresh supplies of water be given daily. It also makes an effective pot plant for the conservatory stage when sown at end of summer and kept growing through the winter in a cool house. Height 2 feet, 6d. & 1 c

Carters 237, 238, & 97, HIGH HOLBORN, LONDON .-- 1909.

# GODETIA.

One of the showlest of all annual flowers.

We have grown them in large areas for many years and were awarded the First Class Certificate of the Royal Horticultural Society for that beautiful variety, Lady Satin Rose, perhaps the finest annual flower ever raised. The Godetia makes an excellent cut flower.

PART OF CARTERS "GRAND PRIX" EXHIBIT, COURT OF ARTS, FRANCO-BRITISH EXHIBITION.

# CARTERS SELECTED KOCHIA (Trichophylla).

HARDY ANNUAL.

Visitors to the Franco-British Exhibition last summer will doubtless remember the fine display made by our Kochias as pictured above, we had numerous enquiries and they were perhaps the most admired of all plants in our extensive exhibit.

Carters selected Kochia makes a most effective decorative plant with a habit much resembling one of the compact evergreen shrubs, it has a light grass green feathery foliage which changes as the summer advances to a rich crimson. It is a perfectly hardy annual and can be sown in the open ground; it is a rapid grower and flourishes on all soils.

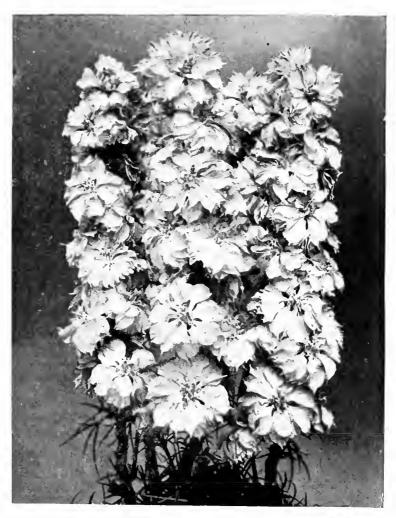

The best method is to sow the seed under glass, pot the seedlings off singly, and ultimately bed out or plunge the pots in which they are growing.

It will be seen by the above picture that these round shrub-like plants (often called the mock cypress) are most effective when planted amongst flowers, such as begonias, geraniums, petunias, &c., in fact they are most useful for the centre of any bed or when planted out in some decorative scheme. The plants should be pinched back and trimmed to shape when necessary. Height about 2 feet.

No. 750. Carters Selected Kochia (trichophylla).

Priee, per packet, 6d., 1s., and 1s. 6d.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. - 1909.

The popular Larkspur of every garden. Very effective in beds. The seed should be sown in spring, in boxes, and transplanted. Can also be sown outdoors in April.

### LOBELIA.

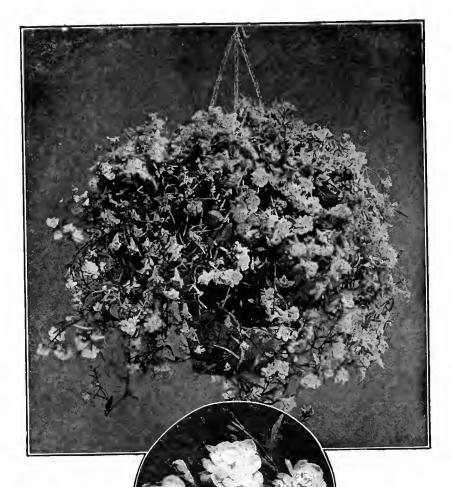

Photographed and Copyrighted by J. C. & Co. LOBELIA, CARTERS DARK COMPACT.

Very popular garden plants. The compact-growing varieties are sown in winter under glass, and transplanted into boxes for growing on to be ready by the bedding-out season. The spreading varieties are suitable for hanging baskets and window box edgings, whilst the true perennial species are grown as pot plants or single specimens in beds for summer decoration. We would direct attention to the new double-flowered form on opposite page. This can only be offered in plants.

CARTERS
DOUBLEFLOWERING
LOBELIA.

Flowers rich azure blue, very freely produced.

Size of bloom.

Photographed and Copyrighted by J. C. & Co.

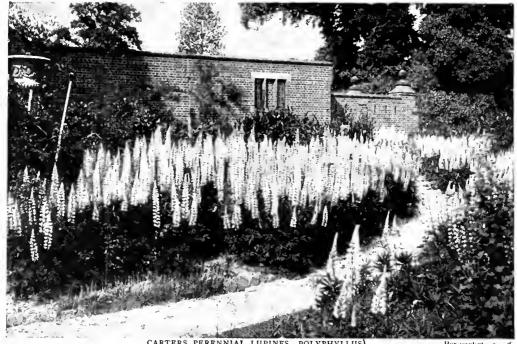

This fine introduction does not produce seeds, and we offer it in plants onty. It makes a fine thing for hanging baskets, and also does well in borders, and is increased from cuttings.

PLANTS ONLY.

is, each; ios. 6d. per doz.

"Carters Double Blue Lobelia.—What a splendid decorative plant this new double-flowered blue Lobelia makes. A short time ago in Messrs. Carter & Co, 's nurseries at Forest Hill we saw a large number of plants growing in pots, but so even had the plants grown that the pots were hardly visible. Buds and flowers are most abundant, and we can well imagine what a fine sight the plants in full bloom must have been. Other plants for which the firm of Carter & Co, is famous were finely represented. Even the Cinerarias were not yet over owing to the late season, and we were able to note the many remarkably fine and varied colours that are typical of Carters strain of Cinerarias. The Calceolarias, too, were very fine, as visitors to the Temple Show had an opportunity of seeing. Of these valuable greenhouse plants Messrs, Carter & Co, possess a strain that is uncommonly good. We were struck with the plants of Schizanthus, which were in full bloom. There are few more valuable decorative plants than the Schizanthus. Well-grown plants, such as we saw at Forest Hill, gave a good idea of the value of the Schizanthus when properly treated. Messrs, Carter & Co, also have a collection of tuberous Begonias that comprises varieties of great merit. Some of the newest varieties are as perfect in form as a Camellia or Rose Bud, while the shades of colour through which they range are indescribable."—The Garden, July 7th, 1906

SILVER KING.

LEGION OF HONOUR.

# FRENCH MARIGOLD.

This showy annual can be sown in spring and thinned out where expected to bloom, they may also be sown n March in boxes or pots under glass, then transplanted into other boxes, three inches apart, to make sturdy stuff for planting out in June or earlier. Marigolds are profuse bloomers, particularly so if all dead flowers are cut off.

DWARF SINGLE-FLOWERED VARIETIES. Per packet-	-s.	d.
The following kinds are extremely beautiful in the mixed border, whether singly or in clumps; habit dwarf and hushy, and covered with continuous bloom. I foot. First-class annuals.

### CARTERS PERFECTION MIGNONETTE.

A giant red-flowered variety with a delicious scent.

IMPORTANT

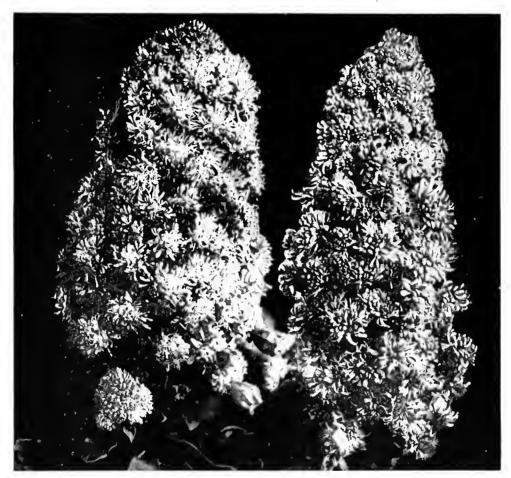

Carters Perfection Mignonette received the Highest Award at the Irish International Exhibition, 1907.

This fine strain is a very great improvement, and owing to its robust habit the seedlings require plenty of room, when they will make bushy plants resembling Intermediate Stocks. The spikes of bloom are larger than any other variety, and the habit much less straggling. If the seed-pods are kept pinched off, the beauty of the plant will extend over a long period, and with care in this respect will continue until cut down by frost.

No. 859. Per packet, 6d., 1s., 1s. 6d., and 2s. 6d.

(For other varieties, see opposite page.)

#### MIMULUS.

Photographed and Copyrighted by J. C. & Co. CARTERS QUEEN'S PRIZE MIMULUS.

Half-hardy annual. To those who know only the original kind, the present magnificent specimens will come as a delightful surprise, the blossoms being of grand size and richly coloured. Besides being of service in beds and borders, they make nice pot plants.

Sow in early spring, in pans under glass, and prick off into boxes, and plant out when hardened. For pot work, the seedlings should be pricked out, and potted off in good light compost, and kept in warm frame.

Per packet-s. d

Carters 237, 238, & 97, 1116H HOLBORN, LONDON.-1909.

# DWARF NASTURTIUM.—Continued.

Nasturtiums, both climbing and dwarf, are of the easiest culture, and anyone desirous of liaving a display of the most brilliant flowers, without any trouble beyond sowing the seed, should select this delightful family, as they will give off their best efforts through the brightest of the summer, merely needing the seed-balls picked off. If these are permitted to mature, the beauty of the plant is soon lost.

Although the colours of the dwarf varieties contain many more shades and tints than the climbing section, both may be grown near the ground if the situation requires it, but the Climbing Nasturtium shows off its best features when climbing over a fence or clambering up rustic woodwork.

Those who recollect the ordinary garden Nasturtium of "sixty years since" can best appreciate the immense advance we have made in the colour, habit, and beauty of these most invaluable adjuncts to every garden; and we are gratified to think that the greater number of new varieties now in cultivation are the result of our own persistent care and attention at our Seed Farms in Essex, where in 1858 we raised and exhibited the Scarlet Tom Thumb variety, and received a certificate for it from the Floral Committee of the Royal Horticultural Society. They make the most elegant of edging plants to floral walks.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

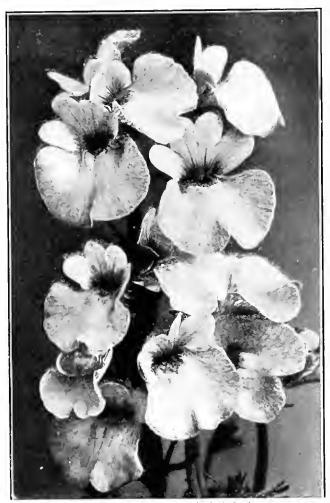

# CLIMBING NASTURTIUMS AND TROPÆOLUMS.

The Climbing Nasturtium has long been a popular annual flowering plant, as when once the seed is sown it requires no further attention. It is invaluable for covering unsightly spots, as when the position does not admit of its climbing, it is equally at home as a creeper. The seeds must not be sown until all chances of frost are over.

It is now more than half a century since the late Mr. James Carter took this plant in hand with a view to its improvement in size and range of colourings, and one of our earliest successes was *fet Black Pansy* (see No. 957). We also introduced the *Peacock Pansy* (see No. 951). Both are still amongst the best in cultivation.

Cultivation.—The Pansy will succeed in any soil that is not too hot and dry, and if a special compost is made for them it should consist of one-third rich loam, one-third leaf mould, and one-third well-decayed dung. In early spring the seed should be sown in frames or in lookes for summer and autumn blooming, and later on sowings may be made about July out of doors in a partially shaded place, transplanting in October or November into where they are intended to flower the following season. The final position should be an open one, and the plants not less than 6 inches apart. There should be no check in their progress either by cold winds, very hard frosts, or long droughts. Nor should they be watered during the hottest months with very cold water. We have classed each type so that Pansy lovers have an opportunity of securing a large and varied choice, all representing the very best strains in cultivation.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. - 1909.

<sup>&</sup>quot;I had a magnificent show of your Pansies early in the season."-The Rev. G. H. HUDDLESTONE, West Marsh Vicarage, Ash.

<sup>&</sup>quot;This year my blooms from your seed of International Prize are better than ever."-Mrs. MacManon, Bournemonth.

<sup>&</sup>quot;I should like you to hear of the success of a 2s. 6d. packet of Pansy Seeds I bought in your place in Holborn at the end of May last. It produced 550 good plants, many of which flowered in the autumn. Some of the plants are now full of bloom, and, altogether, the result of the expenditure of 2s. 6d. is highly gratifying."—Mr. S. W. L. FERNANDES, Doncaster.

# CARTERS EMPRESS PETUNIA.

Carters Empress Petunia for Conservatory or Bedding.—We have been many years perfecting this magnificent type, which now embraces many delicate shades of colour, the majority taking the lovely form as shown in the photograph above, which represents a natural bloom. The elegant pencilling in the throat is quite a feature of this modern introduction. It also possesses such a robust but compact habit that it is valuable as a bedding plant, where the fine flowers have a rich effect.

No. 968.—Price per packet, 1s., 4s. 6d., 2s. 6d., and 5s. each.

(For other Petunias, see opposite page.)

Carters 237, 238, & 97, High Holborn, London,—1909.

# CARTERS GRAND STRAINS OF PETUNIA.

As frequently exhibited at the Royal Horticultural Society Shows, and awarded, in conjunction with other Improved Flowers,

#### MANY SILVER CUPS AND HIGHEST PRIZE MEDALS.

Carters Emperor Strain of Single Petunia, for Conservatory or Bedding.—A great improvement upon the old-fashioned Petunia; flowers twice as large, some self-coloured, others parti-coloured. A bed of these is an object of great beauty during summer, and they are equally effective as pot plants for the winter decoration of the conservatory.

No. 977.—All colours, mixed, price is., is. 6d., 2s. 6d., and 5s. per packet.

#### PETUNIAS.

Carters 237, 238, & 97, High Holborn, London. - 1909.

<sup>&</sup>quot;Last year I took First Prize for your Single Petunias in open competition."—Mr. J. W. JONES, Pembroke Dock, March 6th, 1907.

<sup>&</sup>quot;It may interest you to know that a bed of Petunia grown from your seed was much admired this summer, and has continued to be a mass of flowers until to-day, October 18th, when 12 degrees of frost brought their gay display to a conclusion."—L. T. PAWLE, Esq., Rowsham.

Photographed and Copyrighted by J. C. & Co.

### PHLOX DRUMMONDI.

### CARTERS ANNUAL LARGE FLOWERED.

The great advance recently made in both the size and colourings of this popular annual should ensure its again becoming a favourite for growth in beds and borders. It makes a most effective edging if the growths of the taller types are kept pegged down. Another point of importance in the culture of this pretty flower is the fact that it does not like being watered with cold pipe water, especially overhead; it spoils the foliage and ruins the truss. This section may be expected to reach the height of I foot.

#### A BED OF CARTERS CLUSTER POLYANTHUS PRIMROSES.

The strain grown in the Royal London Parks.

Polyanthus Cluster Primrose.—The superb strain we here offer of these lovely spring flowers improves in extent of colours each year, and there is no other flower which produces such a chaste, brilliant, and enduring effect during the early spring months, either singly or in masses in beds, about the same time as the Hyacinths and Tulips. Sow in spring or summer, in prepared seed bed, and transplant when large enough.

		Per packet—s.	d.

#### CARTERS GARDEN PRIMROSE.

The Primrose is one of those plants that resents too much coddling, and sometimes when great care is taken over the seeds they refuse to grow. The simplest plan is to sow them in the open ground, in a partially shaded place, from May to July. Just scratch the seed in with a rake and firm the surface, when under the influence of genial showers they will soon come up. The Blue Primrose may be sown in borders at the same season.

No. 1028.	Primrose, Blue. A great novelty in blue in various shades 1s., 1s. 6d.,		
,, 1029.	Primrose, Carters Choice Mixed. A mixture of all obtainable colour continually improved by cross fertilisation 6d., 1s.,		6

# 208 POPPY (PAPAVER), SINGLE ANNUAL VARIETIES.

Photographed and Copyrighted by J. C. & Co.

Carters "Shirley" Poppy (SILK OR GHOST POPPY).—This lovely garden annual Poppy has probably received its various names from its delicate texture and almost shadowy forms. The shades of colour are endless and we again offer a strain of unusual beauty, as the stock has been rigidly selected by its original nominator, the Rev. W. WILKS, Secretary to the Royal Horticultural Society. It makes a delightful border plant, and is fine for sowing at the sides of grassy walks or along paths where nature's growths give a wilderness-like effect to the surroundings.

No. 1031. Price per packet, 6d., 1s., and 1s. 6d.

### POPPY (PAPAVER), DOUBLE ANNUAL VARIETIES.

These showy hardy flowers continue to absorb the attention of the greatest number of amateur gardeners, and deserve the position from their varied and intrinsic beauty. Sow thinly in patches, rows, or beds in spring where the plants are intended to bloom during early sum-mer. The show may be extended if the seed pods are kept cut off. When used as cut flowers, they should be picked early in the morning before opening

Culture.—Sow in pans of finely-sifted soil in spring, and pot off singly into thumb pots when large enough to handle. They require to be raised in heat and kept growing in cool house or frame through the summer. A cool bottom for pots to stand on is essential. Use a compost of leaf mould and rich fibrous loam when shifting into larger pots.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. -1909.

Carters Primula Stellata (STAR PRIMULA). See Photograph above. This is both delightful and graceful when in flower, and it makes a useful decorative plant on the conservatory stage in spring. Free flowering. Treatment for Primula sinensis will suit this species well.

### CARTERS SCABIOUS.

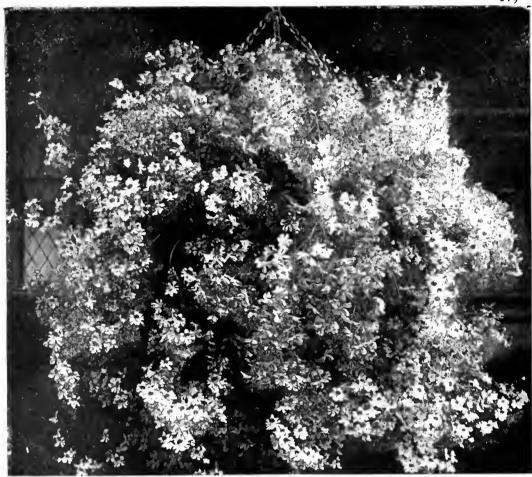

This bright-flowering plant is usually treated as an annual in our gardens. During recent years it has been greatly improved both in habit and range of colours, and is fast becoming one of the most popular of border flowers. When given plenty of room and the seed-vessels are kept regularly picked off, it will last through the whole of the summer. Owing to its sweetness the hees are very fond of it and its floral favours also attract all the most beautiful types of butterflies to the neighbourhood.

Sow the seed in heat in February and March in a pan or small box, and transplant the seedlings three inches apart in larger boxes; harden off as spring advances, and set out in the border towards end of May. They may also be sown where intended to grow.

Culture of Schicanthus in Baskets.—Seed should be sown in July, August, or September in well-drained boxes or pans in a compost of three parts sandy learn, one part leaf soil, one-sixth part siver sand, all run through a ½-inch sieve. The boxes should then be filled with the mixture to within ½-inch of the top and given a good watering in preparation for the seed, which should be sown evenly and covered with sufficient soil to bury the seed. Then place the boxes in a cold frame or greenhouse, covering them with haper to keep the light from them until the seedlings appear, when the shading may be removed. Bright smilght must be avoided at this stage. When the seedlings are ready to pot, they should be place d singly in thumb pots, well draine I, and returned to the frame or greenhouse close to the glass; water should not be given for a day or two if the soil is in a moist condition, but a light syringing is beneficial on bright days. When the plants are two inches high, take out the points to encourage lateral growth and as this advances place neat little stakes to the plants. When the pots are full of roots they should be transferred into 48's or 50's and returned to the greenhouse for the winter. Plenty of air must be given at all times, and the temperature should be 50° by dry and 55° at night. Albout the end of Fehrnary the plants will be ready for baskets, the number of plants depend on the size of the basket, resin, 15°in, 18°in, are the most suitable sizes of baskets, a 12-in, will take six plants, five round and one in the centre, and the other sizes in proportion; the baskets should be well-lined with moss and filled with a compact of three parts fibrons learn, one part well-rotted manner and silver sand, with a little dusting of bone meal. They should now be suspended below a greenhouse roof and allowed to grow feedy, fastening the growth to the baskets muit they are covered, the tips can be pinched for a little time to make them mailorm; at this stage a little artificial manner will be beneficial unti

Cultivation.—It is preferable to sow seed in prepared trenches in spring, but they may also be sown in rows or clumps in flower borders. Protect the young plants from cold and cutting winds, and stick them as soon as they need it. Where a quantity of cut flower is needed, it is advisable to make more than one sowing. To obtain flowers in May the seeds should be sown in autumn in pots, kept under protection, but cool, through the winter and the young plants put out in March. If the dead flowers and seed pods are picked off, flowers will be produced all through the summer and autumn.

CARTERS LARGE-FLOWERED WALLFLOWER.

For full description, see opposite page.

"Mrs. Brass would just like Messrs. Carter to know what splendid results she has had from a 1s. 6d. packet of their Wallflower She has ten dozen magnificent plants, which are the admiration of everyone around kere."—Barnstaple, May 3rd, 1907.

Varters 237, 238, & 97, High Holborn, London. -1909.

### WALLFLOWERS.

(See Photograph opposite.)

The Wallflower is a very old friend in English gardens, but is not grown to the extent it deserves. Now that so many improved forms and bright colours are available, it should be found a place where any collections of spring-flowering plants are brought together. For quite two months, April and May, it adds its best charms, and makes beds and borders quite cheery by its presence and fragrance. The spindly straggling plants too commonly met with are only a mere apology for the effects well-cultivated examples, such as plants from the following highly selected strains, are capable of achieving. The double varieties, although very pretty when well grown, do not always come up to the high standard anticipated, and only occasionally give that real solid satisfaction that can be relied upon with the singles. For real usefulness we recommend the following selections of uniform height and habit, broad petalled, and decisive colours. They flower early, last well, and are off the ground in convenient time for summer bedding. The seeds may be sown from April to August in a partially shaded but airy place. If sown on poor firm soil plants of stubby growth and hardy nature will be produced whilst those sown later in rich ground are often killed in winter. All may be transplanted to blooming quarters from August to November, according to circumstances.

#### SINGLE VARIETIES.

### Carters Dwarf Sweet-scented Large-flowered Wallflowers.

For beds and borders. 9 to 12 inches. Plants to stand 1 foot apart. Excellent in a bed to themselves or as a front to the taller varieties.

Photographed and Copyrighted by J. C. & Co. CARTERS MAMMOTH DOUBLE ZINNIA.

The Zinnia is one of the many popular garden flowers introduced into general cultivation in this country by the late Mr. James Carter, and as far back as 1860 our House was awarded a First Class Certificate by the Royal Horticultural Society for our strain of the double-flowered type. When well grown, the Zinnia is one of the showiest of the half-hardy Annuals, its treatment being similar to that of the Aster.

### SEEDS FOR ABROAD.

Carefully arranged and suitably Packed for all Climates.

BY APPOINTMENT, 1908.

BY APPOINTMENT, 1908.

Messrs. James Carter & Co. have much pleasure in announcing that they have had the honour of receiving the Royal Warrant of Appointment to

## HIS MAJESTY THE KING OF SIAM.

They feel sure that their patrons will feel pleased, with them, to know that their seeds have done so well in His Siamese Majesty's gardens after passing through the tropics.

As is their custom when despatching seeds through the tropics, great care was taken in exhausting the dampness not only from the seeds themselves, but also from the packing paper before being finally placed in hermetically sealed tins.

By this special patent process of their own the heat and moisture of the tropics is negatived, and the germ lies dormant until the tin is unpacked and the seed sown.

### CARTERS BOXES OF VEGETABLE SEEDS.

Sent packing and postage free to all parts within the Parcel Post Union, on receipt of remittance or an order for payment in England, price 16s.

Boxes containing larger quantities, price 23s., 43s., 56s., 70s., and 90s. A Small Box, omitting heavy seeds, 8s.

#### CARTERS BOXES OF FLOWER SEEDS.

Sent packing and postage free to all parts within the Parcel Post Union, on receipt of remittance or an order for payment in England, price 22s.

Smaller Boxes, containing selections from the above list, price 7s. 6d., 11s., and 17s.

The above collections of Vegetable and Flower Seeds are liberally made up of varieties calculated to suit the climate for which they are intended. Correspondence invited.

All Orders must be accompanied by a Remittance to cover Value, or the Goods must be paid for in England.

Postal Orders to be made payable to James Carter & Co., at the General Post Office, London.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

### CARTERS LILIUM LANCIFOLIUM RUBRUM.

Rich crimson spots, 7s. 6d. per doz.; 9d. each.

Next to the *Lilium Auratum* we must place the *Lancifolium* or *Speciosum*, so exquisite in form and so easily cultivated. Specimens may frequently be seen flowering abundantly from pots in the squares and on balconies in the very centre of London and other large cities late in summer; and coming at a time of year when flowers are somewhat scarce makes it doubly welcome. It thrives well out in the border, and, with its pure chaste white, crimson-spotted, rose-spotted flowers, is very attractive.

## CARTERS IMPROVED BUTTERFLY GLADIOLUS.

IMPORTANT.

Carters Butterfly Gladiolus received the Highest Award at the Irish International Exhibition, 1907.

By carefully selecting those varieties planted specially for hybridization, we claim to now offer absolutely the largest flowered and the grandest mixture of Gladiolus that has ever been produced.

These were largely planted at the Franco-British Exhibition and formed part of the exhibit for which we were awarded the Grand Prix.

Carters Improved Butterfly Gladiolus now contains beautiful shades of Carmine, Rose, Scarlet, Blue, and many others of the more delicate colours.

We strongly recommend this choice mixture to our customers, as we feel sure when once grown they will discard all other mixtures and give this the place of honour in their garden.

Strong flowering bulbs. Price 15s. per 100; 2s. per doz.

### GLADIOLUS "AMERICA."

Autumn Flowering.

A beautiful soft flesh pink, very light and much like *Enchantress* Carnation, except slightly tinged with lavender, which gives it the delicate colouring of the most beautiful Lælias. Words fail to do justice in describing this grand and glorious colour; it must be seen to be appreciated.

Price 7s. 6d. per doz.; 9d. each.

## CARTERS NEW GLADIOLUS "BLUE KING."

We offered for the first time last season this superb Gladiolus. Colour deep blue or indigo; flowers as large as the Gandavensis section; flowering at latter part of July. Height 3 to 4 ft., and often producing 24 flowers on each spike.

Price 7s. 6d. per doz.; 9d. each.

### **GLADIOLUS "HOLLANDIA."**

The Pink Brenchleyensis.

Strongly recommended.

This is a sport from the popular scarlet variety. Colour a most delicate pink, inclined to pale primrose. Summer flowering.

Price 20s. per 100; 3s. per doz.

## GLADIOLUS SCARLET BRENCHLEYENSIS.

Large handsome spikes of brilliant scarlet.

Extra Large Bulbs. 85s. per 1,000; 9s per 100; 1s. 3d. per doz.

Good Flowering Bulbs. 55s. per 1,000; 6s. 6d. per 100; 1s. per doz.

MUCH REDUCED IN SIZE.

### Lemoine's Blotched Gladiolus.

Colours striking and diversified, filling up the gap between the summer and autumn sections. Price, per 100, 6s. 6d.; per doz., 1s.

Hyacinthus Candicans, per 100, 7s. 6d.; per doz., 1s. 3d.

### LILY OF THE VALLEY.

By availing ourselves of the modern method of cold storage we are enabled to supply forcing roots of this pretty decorative plant through the winter months. One advantage these retarded roots have over those handled in the ordinary way is the quick time in which the flowers are produced. We have seen dormant crowns put into strong heat and brought into beautiful bloom within three weeks, but we recommend six weeks as the average time for a perfect flower spike.

Carters Selected Crowns, for forcing.—In bundles of 25, per 1,000, 70s.; per 100, 7s. 6d.; per 25, 2s. Imported Clumps.—Very fine, per doz., 12s. 6d.; each, 1s. 3d.

#### RETARDED LILY OF THE VALLEY.

We have made arrangements by which a continuous supply during winter may be assured.

Giant Flowering Retarded Crowns FOR ALL SEASONS.—Per 100, 8s. 6d.; per bundle of 25, 2s. 6d. For perfume of Lily of the Valley, see page 253

### MONTBRETIAS.

We anticipate a great future for these charming antumn flowering tuberous plants, and when more generally known, they will meet with universal cultivation. Easily grown in the open border. Plant from January to March.

### CURIOUS PLANT FROM CENTRAL ASIA.

MONARCH OF THE EAST. (As originally named and offered by us.) This remarkable plant exhibits one of those extraordinary traits in nature that few are able to understand, for the magnificent flowers actually come out of the dry bulb without being placed in soil and water.

The flower sheath sometimes reaches a length of nearly two feet, is of a red-brown colour, tipped with red and yellow, whilst the inner parts of the flower are equally as brilliant. The bulb of this extraordinary plant needs only to be placed in some fancy receptacle, without water, in a warm room, or on the mantelshelf, when, without showing either leaves or roots, the flower makes its appearance, early in the year, thriving entirely upon the nourishment contained within the bulb. Large bulbs, 9d. each.

Decorated China Bowls for placing these bulbs in, price 6d., 9d., and 1s. each.

Varters 237, 238, & 97, HIGH HOLBORN, LONDON,-1909.

## DOUBLE SWEET-SCENTED TUBEROSES.

## BEAUTIFUL PURE WHITE FLOWERS.

The Sweet-scented Double White Tuberose (Polianthes Tuberosa) has become exceedingly popular. It possesses both a character and a perfume distinct from any other flower, and can be induced to bloom at various seasons. At one time they were only obtainable from the South of Europe; now they are specially cultivated in different parts of the world, and can easily be forced into bloom for the Easter festivals. Those who do not cultivate these flowers for winter decoration can procure the bulbs in the spring, when they will come into flower during the summer. The double-flowered Tuberose may be had in succession by potting the tubers and standing them in a cold frame, covering them 4 in. deep with cocoanut fibre refuse; but they will start much more quickly and with greater certainty in a gentle bottom heat. Loani and welldecayed manure, in about equal parts with a little coarse sand, is the most suitable compost in which to grow them. The pots may be taken out of the frame as soon as the flower stems appear above the leaves; they are then staked and removed to the greenhouse, and placed near the glass.

Carters Extra Large Bulbs, 17s. 6d. per 100; 2s. 9d. per doz.

Photographed and Copyrighted by James Carter & Co.
Flowering Spike of Double Sweet-Scented Tuberose.

TIGRIDIA. (Tiger or Shell Flower.)

Some beautiful hybrids of this showy flower have appeared during recent years. The bulbs, which are supplied in a dry state, are usually planted in pots in April, or in groups in the garden in a rich sunny border. For outdoor culture they are generally potted in good mixed soil in autumn, and not over-watered during growth. They maintain a succession of bloom throughout the summer and early autumn.

### ANEMONES.

## CARTERS "EMPRESS" POPPY ANEMONES.

An easily grown type that should be found in every garden consists of every shade of colour that is to be found in the Anemone family. They are in full bloom during June; in some seasons earlier.

SUITABLE FOR VASE DECORATION, LASTING FOR A LONG PERIOD WHEN CUT. Price of Dry Roots, 75s. per 1,000; 8s. 6d. per 100; 1s 3d. per dozen.

### CARTERS "ST. BRIGID" ANEMONE.

THE TRUE IRISH STRAIN.

This beautiful strain, raised originally in Ireland and first brought into prominence by our House, deserves more than passing notice. The flowers are semi-double, most varied and beautifully coloured, and if cut before fully out, are most useful for decorative purposes.

Strong Bulbs, price 8s. 6d. per 100; 1s. 3d. per dozen.

## CARTERS ANEMONE, "KING OF THE SCARLETS."

The true English variety.

Intense brilliant scarlet, very double. A fitting companion to our well-known Single En:press Anemone. The flowers are of great size, intensely double, and remarkably brilliant in colour.

Price 12s. 6d. per 100; 1s. 9d. per dozen.

### CARTERS ANEMONE FULGENS.

We offer the true early single form, fine English-grown roots, of the well-known Scarlet Pau Anemone. A very brilliant scarlet crimson flower, rising from 6 to 9 inches above the rich green palmate foliage; splendid for clumps, in the border, in a bed by itself, vase decoration, and also for naturalization in sunny hedgerows or among the grass.

Price, 9s. per 100; 1s. 3d. per dozen.

### RANUNCULUS.

Photographed and Copyrighted by J. C. & Co. CARTERS COCKADE RANUNCULUS.

## CARTERS COCKADE RANUNCULUS.

Carters Cockade, in a splendid variety of colours and shades, immense double flowers, is fitting in all respects to be cultivated by the side of the *Empress* Anemone, and equally superior with that variety to any other class of Ranunculus.

The flowers are double, of immense size, and combine every possible shade of colour peculiar to this interesting and easily-cultivated flower. It is impossible to over-estimate their value to all lovers of hardy border flowers.

This beautiful early summer border plant belongs to the buttercup family. The types now popular in the class under consideration would, from their gay appearance both in form and colour, be hardly recognised as a relation to this modest denizen of the field. The cultural directions are practically the same as advised for Anemones. The Cockade type has a splendid variety of colours and shades.

Mr. A. J. Long, The Gardens, Wyfold Court, Reading.—"The *Cockade* Ranunculus are flowering well; there are a fine lot of colours among them."

Price, 75s. per 1,000; 8s. 6d. per 100: 1s. 3d. per dozen.

### STRAWBERRY PLANTS.

We grow a large quantity of this popular fruit, and our season's plants are very fine this year. If fruit is desired next summer, it is best to plant out as early as possible, so that they may become established before winter.

From open ground, is. per doz.; 5s. 6d. per ico.

Bicton Pine, large white fruit.

British Queen, fine large variety.

Competitor, early, very large fruit.

Dr. Hogg, large fruit, one of the best.

Keen's Skedling, early, good for foreing.

King of the Earlies, very early, medium size.

Latest of All, very late, good flavour.

Leader, large, mid season, good eropper.

Monarch, second early, good flavour.

Voble, early, large fruit, and very free.

PRESIDENT, second early, grand eropper, and useful for foreing.

ROYAL SOVEREIGN, early, good eropper. SCARLET QUEEN, large fruit and good eropper. SENSATION, late, good flavour.

SIR C. NAPIER, late, large fruit, good for pot-culture. SIR J. PAXTON, early, strong grower, and prolific. PERFECTION, medium-size fruit, very prolific. VICOMTESSE II. DE THURY, early, good for foreing. WATERLOO, late, large fruit.

### CARTERS SELECT LIST OF GRAPE VINES.

FRUITING CANES, 10s. 6d. and 12s. 6d. each, in pots.

A few extra strong Fruiting Canes of some of the varieties, so long as unsold, 15s. each.

ALNWICK SEEDLING, black, large oval.
BARBAROSSA, black, large round and sweet, late.
\*BLACK HAMBURG, roundish oval, large, very sweet.
BLACK ALICANTE, round, very large, late keeping
\*BUCKLAND SWEETWATER, pale amber, large round.
\*DUKE OF BUCCLEUGH, amber very large.

BLACK ALICANTE, round, very large, late keepin
\*BUCKLAND SWEETWATER, pale amber, large roun
\*DUKE OF BUCCLEUGH, amber, very large.
\*FOSTER'S SEEDLING, pale amber, roundish oval.

### JAPANESE DWARF TREES.

Our collection contains historic and ancient specimens of dwarf oaks, thujas, larix, cherry, &c., ranging in price from 21s., and we are always pleased to have examples brought up for inspection at our various London Establishments.

Ther Majesty the Queen personally inspected our collection of Dwarf Trees at the Temple Show, R.H.S., 1908, and graciously commanded a fine specimen to be despatched to Sandringham.

Our Collections have been awarded Silver Cups and Medals of the Royal Horticultural Society.

Carters 237, 238, & 97, High Holborn, London. - 1909.

# THE SWEET FRAGRANCE OF OLD-FASHIONED ENGLISH FLOWERS.

Appearance of 5s. 9d. bottle and case.

Appearance of 2s. 10d. bottle and case

REDUCED IN SIZE.

Newlands Manor, Lymington, Hants.

"Messrs. CARTER.—Please send me a bottle of your 'Night Scented Stock.' It is exactly like the flower, and I can imagine myself in my summer moonlight garden on the coldest winter day if I have some of the scent on my handkerchlef. Yours faithfully, MARY CORNWALLIS WEST.

"P.S.—Please send also a bottle to my daughter, the Duchess of Westminster, Eaton, Chester."

A Lady writes:—" The Night Scentcd Stock is the most delicious and lasting I have ever used, and I have been devotedly fond of fine delicate odours during a long life."

Our Natural Flower Scents are the concentrated essences of living flowers extracted with such skill and care that the perfumes contain unimpaired the delicate and odoriferous constituents of the petals. They do not become stale or stain the fabric.

We have recently added the delicious perfume of the Night Seented Stock, and we are quite sure that the unique and fragrant sweetness of the flower and the novelty and truth to nature and durability of the essence will speedily ensure for it the position of a first favourite.

The little flower (*Mathiola bicornis*) which yields this exquisite perfume is cultivated almost exclusively for its lovely aroma. During the day the flower is an almost inconspicuous object, but as night approaches it unfolds its petals and fills the evening air with a subtle fragrance.

CLOVE CARNATION, HELIOTROPE, HONEYSUCKLE, HYACINTII,

LILAC.
LILY-OF-THE-VALLEY,
MOSS ROSE.
NARCISSUS.

NIGHT SCENTED STOCK.
PARMA VIOLET.
SWEET PEA BLOSSOM.
WALLFLOWER.

WHITE CLOVER, WHITE ROSE, WOOD VIOLET.

All the above are supplied in bottles, and, with the exception of the small size, are packed in decorated eard board boxes, suitable for presents.

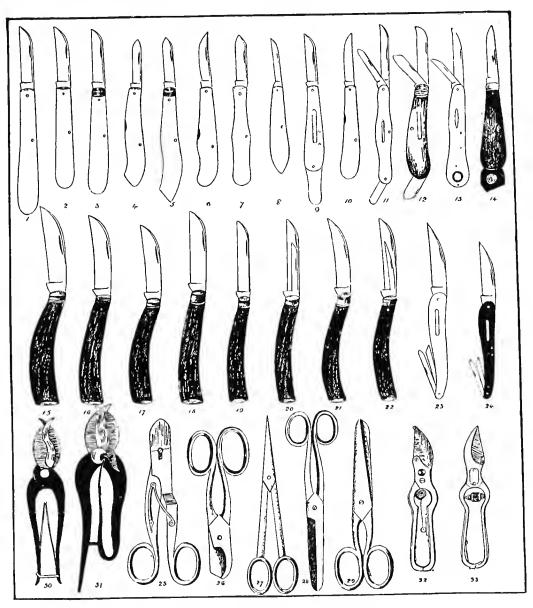

Price 1s. 10d., 2s. 10d., 5s. 9d., 10s. 10d., 15s. 6d. each, packing and carriage free.

### LAVENDER WATER.

Large Bottles. Price 1s. 10d., 2s. 10d., 5s. 8d., 11s. each, packing and carriage free.

### CARTERS GARDEN POTTERY.

Carters Vases and Pedestals are made of hard-fired frost-proof buff terra-cotta, which weathers well and tones down to a pleasing stone colour, and having a comparatively smooth surface, never becomes covered with moss or lichen.

The Hambro' Flower Vase—Carters New Design.

Internal dimensions, 33 in. long, 12 in. wide, 12 in. deep. External dimensions, 39 in. long, 18 in. wide. Total height, 25 inches.

Price .. £4 4 0

THE HAMBRO' FLOWER VASE will find acceptance with all worshippers of "The Garden Beautiful." It is a fitting ornament on the terrace, or where it can be admired from the house, when filled with flowering plants in summer and ornamental evergreens in the winter, and be a perpetual delight all the year round.

As Garden Pottery is becoming more popular, it should be designed to give pleasure to the possessor in that the design should be graceful, simple, and chaste, and at the same time be constructed on lines which appeal to

every practical gardener as a means of furthering the cultivation of plants therein.

Many of the designs on the market at present are admirable specimens of manufacturers' failures in the perception of the beautiful in art in combination with utility. Recognising this, we present the Hambro' Vase as a real attempt to solve the difficulty of introducing a vase which, even when empty, is a noble and beautiful ornament, but when filled with suitable plants displays its usefulness by reason of its containing sufficient soil in which plants can flourish, and commending itself as an absolute necessity for the decoration of every garden.

Most old gardens are rich in vases and statuary. The presence of vases, judiciously placed, is a certain means of relieving the objectionable uniformity which is so strikingly evident with the usual system of "bedding out" practised in flower gardens and pleasure grounds. This was forcibly impressed by a supplementary illustration in the Gardeners' Chronicle of a flower garden personally known to us, and knowing the grand effect produced in this and many other gardens, we hoped we might induce our clients to impart a similar picturesqueness to their gardens by placing suitable vases which would be permanent ornaments, whether their establishments are considerable or small in extent.

How admirable a large vase looks at the termination of a long walk; at the corners of oblong or square beds; on the grass by the side of walks; in the centre of cross-walks; on the terrace; on low walks; and many other situations, where a chaste vase on a suitable pedestal would impart a dignity to the whole surroundings.

We have other designs in preparation, notably our Circular Vine Pattern Vase, in three sizes, viz., 14 inches, 18 inches, and 24 inches in diameter, with Pedestals to match, varying 2 feet to 5 feet high.

Estimates supplied for pottery from clients' own designs.

Our Photographic Album of Garden Pottery, Sundial's, Sundial Pedestals, &c., is at the disposal of intending purchasers, and will be posted on request.

CARRIAGE AND PACKING EXTRA.

Carters 237, 238, & 97, High Holborn, London .- 1909.

THE BERKELEY

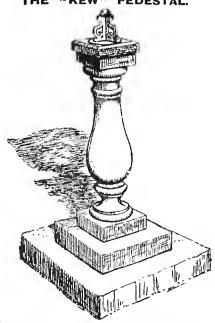

A Sundial on a handsome Pedestal forms a useful and ornamental addition to Flower Gardens and Lawn. Probably nothing gives such an old-world appearance to a garden as a Sundial.

BRASS SUNDIAL, "Antique" Pattern.

Brass Sundial, as illustration, divided to 5 minutes. δ in. diam. . . . £1 12 0 | 10 in. diam. . . . £2 2 0 9 in. , . . . 1 16 0 | 12 in. , . . . 2 10 0 Mottoes extra according to wording, 10/- to 15/-.

### THE "KEW" PEDESTAL.

This Pedestal is the same design as the Balusters of old Kew Bridge, of Portland Stone. Total height with large basal slab 3 ft. 6 in.

Price, as illustrated, without Dial, £3 12s. 6d.

### BEST BRASS SUNDIAL.

Numerals in Relief. Ground Matted. Has a most artistic appearance.

Sundial, divided to 5 minutes, as illustration, without Motto.

10 in. diam.		 £3 10	0
12 in. ,,	•••	 4 10	0
re in		 7 0	0

#### THE "PORTLAND" PEDESTAL.

OF PORTLAND STONE.

Of much bolder design than the "Kew," being a trifle higher and more imposing in appearance.

With basal slab 22 in. square by 3 in. thick, without Dial, £5 5s.

With basal slab 26 in. square by  $4\frac{1}{2}$  in. thick, without Dial, £5 10s.

### THE "BARONIAL HALL" PEDESTAL.

OF PORTLAND STONE.

An old-world pattern as would be associated with yew hedges and the gardens of a past generation.

Height, with octagonal base, 3 ft. 9 in. Price, without Dial, £9 12s. 6d.

### THE "CLASSIC" PEDESTAL.

An octagonal pedestal of chaste design, made of Portland stone from the Blue Coat School, beautifully carved, with large octagonal base.

Price, without Dial, L10 11s. 6d.

Please Note. -We have largely extended our business in this department. Our Photographic Album of Sundials and Garden Pottery of the numerous patterns stocked is at the disposal of our clients, and will be posted on application. This has been compiled at a cost of 10s. and must be returned, post paid, or will be charged for.

Carriage and Packing extra.

Casters 237, 238, & 97, High Holborn, London. - 1909.

### CASH PRIZES FOR 1909.

James Carter & Co., Seedsmen to His Majesty the King, 237, 238, & 97, High Holborn, London, undertake, upon being furnished with certified evidence, to duplicate First, Second. or Third Money Awards made to the exhibitors who show the products of Seeds and Potatocs from purchases made by the exhibitor from this Catalogue above 10s. in value, and obtained direct from Messrs. Carters establishment during the twelve months ending June 30th, 1909, The said duplication will be limited to the value of the purchase, but exhibits of exceptional merit will be treated with liberality at the option of Messrs. Carter.

The products to be of the exhibitor's own growth, and in case of any dispute as to purchase, &c., an invoice of the seeds purchased must be produced if required, and the specimens are to be staged in accordance with the regulations of the Society. This offer does not apply to special prizes offered by Firms and other Patrons.

Example.—If ios, or 20s, are offered by the Society as Prizes for, say, the best dish of Peas, James Carter & Co. will award an equal amount if their eustomer gains one or other of them, providing his purchase extends to 10s, or 20s., and that he has earried out the above conditions.

Customers intending to claim the advantages of these Special Prizes must notify the fact to us a week before the day of the Show, stating the names of the Vegetables, Potatoes, or Flowers they intend to stage, when we will send neatly named cards, which must be exposed to view on the exhibits during the whole time of the Show, or if not we may withhold the prizes. We shall also send the applicant a sheet on which to record his prizes to save the Secretary unnecessary work.

IMPORTANT.—If this announcement does not appear in the Prize Schedule of the Horticultural Show in the intending Competitor's district, the offer must be considered cancelled. We are always pleased to hear from our Customers of their intention to compete, and in the event of their winning open prizes, we may decide to give them an honorarium for the trouble.

These Prizes are open to Mcssrs. Carters Customers, but not available to Market Growers, Seedsmen, Nurscrymen, or Horticultural Traders.

### PRIZES IN OPEN COMPETITIONS.

We have received the following records of Prize-winnings from our customers gained in open competition with the produce of our Vegetable and Flower Seeds at Horticultural Exhibitions in various parts of the Country, enabling us to compile an extraordinary list of successes. We regret that space will not permit extended reports, but we are always, pleased to hear of our customers successes.

### 19,116 Prizes reported by Customers.

Southern Counties			5,833 Prizes in Open Competition against all Comers.
Eastern Counties			1,805 Prizes in Open Competition against all Comers.
Western Counties			3,614 Prizes in Open Competition against all Comers.
Midland Counties			4,696 Prizes in Open Competition against all Comers.
Northern Countics			1,410 Prizes in Open Competition against all Comers.
Wales, Ireland, Scotl	and, &	c	1.758 Prizes in Open Competition against all Comers

Carters 237, 238, & 97, HIGH HOLBORN, LONDON.-1909.

#### BUSINESS. TERMS OF

#### FREE CARRIAGE OF GOODS.

(Except in cases where the cost of Carriage on the parcel, through being unusually bulky in proportion to value, absorbs the profit on the transaction, when we reserve to ourselves the right to send uppeid.) unpaid.)

We deliver SEEDS, POTATOES, PLANTS, and BULBS, CARRIAGE PAID to any RAILWAY STATION IN ENGLAND and WALES, IRELAND, and SCOTLAND, where practicable, also FREE by PARCEL POST to Purchaser's door where possible.

We occasionally hear of charges being made by the Railway Companies, notwithstanding that our address label bears the imprint in RED letters "Carriage Paid." In cases where a Charge for the Railway Carriage is made, notwithstanding that the Package is labelled " Carriage Paid," Purchasers should on no account pay the demand, but refer the Carriers to us. Charges for delivery from Stations (if any) must be borne by the Consignee.

Glass and other Goods liable to breakage are sent out sccurely packed, but beyond that we cannot be responsible for damage in transit. Notice of damage should be at once made to, and compensation claimed from, the Carriers.

### CONDITIONS OF GUARANTEE OF QUALITY.

We guarantee our Seeds according to the quality purchased to be of the highest average standard of vitality of the season, and it is open to the purchaser to confirm this by submitting the samples to professional analysis at his own expense. We cannot, however, be in any way responsible for the produce of Seeds sold under this guarantee, or for errors of description; and it must therefore be clearly understood that our responsibility ceases upon the final acceptance of the Goods.

#### ORDERS.

ALL ORDERS SHOULD BE WRITTEN SEPARATELY FROM GENERAL LETTERS OR LETTERS OF INQUIRY.

Please write your name and address in full, also nearest Railway Station or

Shipping Port to which the Goods arc to be forwarded.

All letters are opened under the direction of one of our principals, and the orders are given out for execution under personal supervision. Plant orders are sometimes delayed by severe or hot weather, and they at all times take longer to execute than Bulb or Seed orders, in consequence of the time required in lifting and packing, especially in the autumn after the long accumulation of orders.

### NEW CUSTOMERS.

We beg respectfully to state that on opening an account it is necessary for us to receive Cash with the order, or a reference to a Banker or some one known to our House.

### CASH DISCOUNT.

We allow 5 per cent, discount off the total amount of invoice on all goods paid for with order, or within fourteen days from the date of invoice (but at no later period), UNLESS OTHER TERMS ARE SPECIFIED OR ARRANGED.

#### TERM OF CREDIT.

OUR FULLEST TERM OF CREDIT IS THREE MONTHS FROM DATE OF INVOICE, AND WITHOUT DISCOUNT, and our books are made up quarterly-i.e., March 1st, June 1st, September 1st, and December 1st. Five per cent. interest will be charged upon overdue accounts.

### REMITTANCES.

Postal Orders, Post Office Orders, or Cheques on any Bank are acceptable, and should be drawn in favour of James Carter & Co., and crossed "London and Westminster Bank."

### EMPTY PACKAGES, HAMPERS, BOXES, SACKS, BAGS, &C.

Are charged at cost price, and full price will be allowed on them when returned immediately, carriage paid and in good condition. These should be in every case marked—"Empties from ——"; a letter by post informing us of Sheir despatch is also necessary. Booking charges must be prepaid, and a receipt should be taken, so that the value may be recovered if they are lost or mis-sent. Coin, other valuables, or important communications should on no account be enclosed with returned empties. On receipt of a post-card we will send labels

### ATTENTION TO CUSTOMERS.

It is our earnest desire that all the requirements and directions of Customers be scrupulously attended to by our assistants, AND WE PRACTISE THE UTMOST PERSONAL SUPERVISION TO SEE THAT THEY ARE CARRIED OUT. We would, therefore, respectfully request that we be informed if at any time there is cause for dissatisfaction, that we may have it rectified at the earliest possible moment.

### CHANGE OF ADDRESS.

Please notify to us any change of Permanent Address, in order that we may be able to forward our Catalogues with regularity. The favour of your kind recommendation of our House to those of your friends requiring Seeds for the Garden or Farm, or Plants and Flower Roots for the Garden or Conservatory, is respectfully solicited. We shall be pleased, at all times, to forward our Catalogues to any address we may be favoured with.

Carters 237, 238, & 97, HIGH HOLBORN, LONDON. - 1909.
